# HUERTA'S RETIREMENT AND A FAIR ELECTION SALVATION OF MEXICO

Optimistic Attitude Prevalent in Washington May Be Based Upon Information.

Washington, Aug. 16.—Definite an nouncement is expected to be made by Monday of the administration's propos als to the Huerta government in Mex-

While not officially confirmed by Secretary Bryan, it was understood that these proposals are now in the hands of the Mexican executive, hav-ing been submitted by John Lind through Mexican Minister of Foreign Affairs Gamboa.

That Huerta's probable reply to the representations from this government is already known to the state depart-ment here is believed to be responsible for the optimistic attitude of those connected with the administration. It is also believed that other foreign gov-ernments represented in Mexico City have been appraised of the situation. There is a disposition here already to congratulate Lind on having accomplished much of his mission

Lind Carries Frank Message. The communication carried by Line is believed to have been a frank state ment to President Huerta that it is im-possible for this government to recognize him, and that growing restlessness in congress makes it imperative for prompt acceptance or rejection of the administration's proposals. On the other hand it is thought the suggestion has been made that Washington would have no objection to recognizing a provisional government head by Gamboa, on condition that the date of the constitutional elections be advanced from October to September.

Huerta Believed Agreeable. President Huerta, according to unofficial advices from Mexico City, is disposed to agree to this program, which in relieving the United States of the embarrassment of recognizing him, would permit Huerta to retire with the credit of having at least left man of his own party at the head of the provisional government.

Unofficial advices from Mexico City to the effect that President Huerta will retire as provisional president only to run again as a constitutional president, are credited in official circles here, but even should he do so and succeed in being elected, he would have met the re-quirements of President Wilson who,

Right here, however, comes part of the trouble. The constitutionalists now

# PEOPLE ARE CURIOUS OVER NEW PLAN FOR PAYING FOR WATER

Have Meters.

Since Will H. Daly, commissioner of public utilities, announced his proposed plan to collect water rentals quarterly in advance instead of monthly in advance as at present, his office has been isited by hundreds of persons seeking further information, and numerous queries have been received.

The most frequently asked question is "how the city is to collect quarterly advance where meters are attached. Unknown to a large number, rates at present are in advance, the amount charged is estimated on the amount of water used the previous month, as shown by the meter. If the new plan is put into effect estimates will be made in the same manner. The charge will be estimated on the

amount of water used during the three months previous to the time of paying According to Commissioner Daly, under this new plan, there will be noticeable difference at the end of the year in the amount of money in the water department. If a tenant moves away after paying three months in ad vance the amount due will be refunded by the city.

In connection with the proposed system of collecting quarterly in advance. Commissioner Daly plans to make the property liable for the payment of all water bills. For instance, if a person is living in a rooming house or in an apartment and has to pay individually for the use of water, then moves away the property owner will be held responsible for the amount due. The amount would be for only ten days. however, as that is all that is allowed by the city for grace. The system of shutting off the water where bills are delinquent will still be n vogue if the new plan is put into

effect. At the present time if water rentals are not paid within the 10 days of grace allowed the water is shut off To have it turned on again the consumer is required to pay 50 cents for the service. This would also be the case if paying quarterly in advance.

A number of the ballots sent out the first of the month to water consumers. reaching Commissioner Daly, are no marked for or against the proposed plan. Mr. Daly is very desirous of se curing votes from all users. When all of the ballots are counted and it is found that the majority are in favor of

ture men were held at various times

### Early Fall Menus

Appropriate to the season of ripened fields and fruited boughs are the offerings to diners at The Portland-it is a itme in which our chef glories in achievement.

Every surrounding and every appoint-ment make for your comfort and your pleasure while dining here-a menu to delight and satisfy, a service refined and abounding in courtesy, a round-theworld assemblage cosmopolitan, genial. The noon luncheons grow in favor—they are of a goodness that promotes a keen appetite. Diningroom, 11:30 to 2. The grill is a veritable rendezvous for the latest feminine modes during tea hours, 3:30 to 6; a delightful menu, de-lightfully served.

Our fine orchestra plays in the diningroom during the dinner hours, and in the grill during the later evening. Service in the grill continues until 12:30 a. m.
