# UNITED RAILWAYS CO. **REQUESTS FRANCHISE ON MACADAM STREET**

Company Not Operating Under City Franchise, Says Commissioner Daly.

Although the United Railways company-is enjoying the use of a single opposed by Commissioner Bigelow, as track known as an "industrial track" on Macadam street from Meade street southward for about a mile, the company is not operating under a franchise from the city, according to Will H. Daly, commissioner of public utilities. Some time ago he requested that the company apply for a franchise. Pursuant to his request the franchise was applied for and this morning the Band to Get Pay for Twenty Days city council authorized its publication. The company officials, according to Commissioner Daly stated that it secured a franchise from Multnomah it was taken into the city, and is enti-Itled to use the street under that fran-

Property owners along the street protested against the use of the street by the failway company, according to Mr. Daly. A chance will be given these property owners to present formal pro-

It is stipulated in the proposed franchise that the company will use the track only for electric freight cars at a maximum speed of only 12 miles an hour. The maximum charge for cars moving over tracks can be only \$250, states the franchise, with the city having the right to regulate the rates at all times.

The life of the franchise is 25 years. The company will spend \$75,000 for reconstruction work and expend \$500 a year for upkeep.

EAST GLISAN MAY BE OPENED

Proposition Is Up to Extend Street From East 26th to East 28th. To cut East Glisan street through

from East Twenty-sixth to East Twenty-eighth street is a plan now con-templated by the city. If the street is continued through these two blocks it will mean that a number of houses will have to be removed. Agitation for the opening of this

street has been started by residents of Laurelhurst and Montavilla and peti-tions have already been sent in to the street extension department asking that the work be started as soon as possible.

According to City Engineer Hanson if the street is opened up through these two blocks East Glisan street will be one of the finest in the city and greatby improve the east side district.

SCOW TOWN IS INSANITARY

Sewerage Must Be Provided or the Dwellers Will Have to Move.

Unless the residents of "scow town" at Fulton immediately put in a better system of sewerage the entire number of scow dwellers will have to move to a point outside of the city limits. Such was the announcement of City Health Officer Marcellus this morning after making an inspection trip to the "village" yesterday. The owners of the property have agreed to supply the material necessary for a better system and the residents have stated that they will install the pipes if they are furnished. If the work is not done they will have to move elsewhere.

CANYON CREEK SEWER PLAN

Property Owners to Be Heard at Meeting August 22.

Persons interested in the assessment of property for the cost of the construction of the Canyon creek sewer may be heard at a hearing set this morning for All of those protesting are expected to be present.
