Notes of Wednesday's Happenings

Brief Paragraphs Give Journal Readers the News of Late Yesterday Afternoon and Last Night.

Eastern.
John Martin, formerly United States senator from Kansas, is dead at his home in Topeka, at the age of 79 years, after an illness of nine weeks.

Prices for Minnesota and Ohio potatoes have advanced 8 to 10 cents a bushel in the Chicago market, a leading crop expert having announced that the potato crop in the United States this year would be 100,000,000 bushels less than that of last year.

When a waterpout swamped a launch which was heading for shore at Newport News, Va., three petty officers and five firemen from the battleship Nebraska narrowly escaped drowning. They managed to keep afloat until assistance came, as their boat went down near the battleship.

Pacific Coast.
Heavy rains throughout the Seward peninsula have broken a long drought at Nome, Alaska, which reduced the gold output. Water has begun to flow in the streams, and all the available men were put to work.

The city commission of Tacoma has reconsidered its stringent cabaret ordinance, which barred music of all kinds from cafes and hotels. A storm of protest was led against the ordinance by the commercial club and the musicians' union.

Announcement has been made from Southern Pacific headquarters at San Francisco that all passenger cars used by that road will shortly be of steel construction. Of the 1660 passenger cars, not counting Pullmans, now in service on its lines, 633 are steel, and orders have been placed for 116 more.

James Dunlap, receiver of the bankrupt estate of W. E. Schrieker & Co., has begun suit at Seattle against the Seattle National bank and its officers to require payment of \$270,000 to the estate. The case is an outgrowth of the failure of the La Conner, Wash., bank, conducted by the bankrupt concern.

A thief who stole a packet containing a grain of radium valued at \$2000 from the office of a Vancouver, B. C., physician, has returned it by mail. The doctor announced through the papers that a cancer patient's life might be forfeited as a result of the theft, as no other radium could be obtained in western Canada.

Up to August 28, the death list from the goldseekers' stampede to the new Alaska fields is given as 10, in a dispatch from Shushanna. Four were

DIRTY BACK ROOM IS DOOMED BY STATE'S FOOD COMMISSIONER

Score Card Will Be Kept and Each Merchant Given Rating on Cleanliness.

The dirty back room must go. With this as his slogan and a firm intention to clean up those portions of the butcher shop, the grocery store, the bakery, the restaurant and the dairy, to which the public never has access and never sees, State Dairy and Food Commissioner J. D. Mickie will soon start a state-wide crusade against back room uncleanness.

The dirty back room is a source of great danger to the public, said the commissioner today, "and I am determined to stamp it out and reveal conditions as I find them. I shall adopt a score card with a certain fixed standard and score impartially every place I enter. When I have finished in a town I shall publish the scores of the places examined that the public may know just what precautions their favorite butcher or grocer is taking to protect their health. I am convinced that publicity will be a cure for the back room evil. The front room is too often the show place of an establishment. It is clean and well kept because it is used by the public. No attention is paid to the rear rooms where food is prepared or stored because they are out of the public's sight. The score card will show the difference between the good and the bad establishment, the clean and the dirty."

"I am convinced that I shall have the cooperation of the people in this campaign. I have just returned from an extensive trip with the college welfare school of the Oregon Agricultural college. We made a tour of the coast from Portland to Astoria and never have I seen the public so wide awake as regards pure food questions. This is especially true of the women's organizations. They voice a wonderful spirit of cooperation and a desire to be regular sanitary conditions. In the future I shall try to work in cooperation with them in my campaigns."

Commissioner Mickie is strongly in favor of City Health Officer's campaign for a municipal abattoir. He believes it to be the public's only protection against the unscrupulous country butcher's slaughtering of diseased livestock. He also deprecates the idea that it will increase the price of meat.

DR. DE LONG AND HIS ASSOCIATE PLEAD GUILTY

Vale, Or., Sept. 4.—The September term of court for Malheur county convened Tuesday afternoon.

To the surprise of all, Dr. DeLong, the alleged victim of an automobile bandit, who was indicted by the grand jury last week on a statutory charge, pleaded guilty. The woman in the case, who was indicted under the name of Henrietta Bayles upon a similar charge, also pleaded guilty.

Fred Hoffman, the Chinaman who was indicted by the grand jury for assault with intent to kill, pleaded not guilty and will be tried at this term of court.

WORDS LEAD TO BLOWS IN HOOD RIVER COURT

Hood River, Or., Sept. 4.—The Hood River county court chambers were the scene of a fast fistic encounter Tuesday, when A. J. Mason, Hood River applicant, and C. K. Marshall, county road overseer, had trouble. The fracas grew out of a debate over the subject of Mr. Marshall's position, which was up for consideration by the court. After an exchange of complimentary remarks, the men came to blows. All regard for the regular prizefighting rules was laid aside. Attorney E. C. Smith, C. D. Nickelsen and Commissioner McCurdy finally separated the belligerents.

WHEN SALARY IS CUT SUPERINTENDENT QUILTS

(Special to The Journal.)
Hood River, Or., Sept. 4.—The city council held a midnight session tonight in order to dispose of a large budget of business. Several protests were filed against the acceptance of the newly laid oil bound macadam streets and the contractor's pay was held up as a result. H. S. Smith resigned as water superintendent on account of a reduction in salary from \$125 to \$100 per month, and E. J. Simms was appointed to fill the vacancy. B. B. Smith was appointed night officer to take the place of George Dimick, resigned.

RESINOL STOPS SKIN TORMENTS

How This Wonderful Treatment Ends Itching and Heals Skin Eruption.

Brooklyn, N. Y.—"At first little red spots were seen on my arms and body, which I noticed were getting larger every day. They itched me so much that I scratched myself until I bled. There were times when I stood up all night and scratched. I was troubled about three weeks, during which time I used —, which seemed to do me no good whatever. Then, finally, I thought of trying Resinol Soap and Resinol Ointment. As soon as I applied Resinol Ointment I felt much relief. After using it a few days I noticed the sore spots slowly fading away and in about a month I was cured completely." (Signed) Adolph Schoen, 742 Shepherd ave., Nov. 1, 1912.

Resinol is not an experiment. It is a doctor's prescription which was so unusually successful for skin troubles that it has been used by other physicians all over the country for 18 years. Before the public can show such a record of professional approval, every druggist sells Resinol Ointment and Resinol Soap. For free trial write to Dept. 11-R, Resinol, Baltimore, Md.

SHOOTS TWO FINGERS FROM HAND OF DEPUTY

Former Idaho Congressman and Attorney Resents Arrest as Inebriate.

(Special to The Journal.)
Boise, Idaho, Sept. 4.—Former Congressman Edgar Wilson yesterday shot Deputy Sheriff Harry Champlin in the sheriff's office at the county jail after he had been arrested on a charge of inebriety. The officer lost two fingers and the bullet entered his head, but he escaped serious injury. Wilson was arrested at his home and taken to jail, offering no resistance until he was searched. He then drew his revolver with the intention, the officers believe, of taking his own life. In the scuffle which followed Champlin was shot.

Wilson claimed the shooting was an accident. Later he was taken into court and his case was set for hearing Friday. Wilson, who served a term in congress from 1896 to 1898, and was associate counsel for the defense in the Haywood-Moyer-Pettibone trials, had been drinking heavily of late and was

NARROW ESCAPE FOR BERNARR BRAINER

Cottage Grove, Or., Sept. 4.—By the merest chance, 10-year-old Bernarr Brainer, son of Mr. and Mrs. George Brainer, escaped serious injury and perhaps death when he fell from a moving car in the Southern Pacific yards Monday afternoon. The lad, who carried water for the street contractors, was riding one of the rock cars. At the Main street crossing he attempted to alight, slipped, and fell partially under the car. Bystanders who witnessed the accident say that all that saved his life was the fact that the car wheel pushed him off the rail instead of crushing his body. He escaped with only a few scratches.
