### PUP, FED OUT OF EAR SYRINGE, GROWS FAT

Feeding himself milk from an ear syringe proved so agreeable to the handled more rapidly, it is pointed out pointer pup brought over from Shanghal on the Danish steamer Arabien by Chief Engineer Geisler, that the canine became so fat that he could scarcely waddle about the deck.

When the Arabien was in the Chinese port Chief Geisler secured the little black and white ball of fur from the telegraph ship. He was then only four days old and had to be fed on a bottle. But when he was 14 days old he was pretty much of a dog and to show what he could do he broke the bottle. At first it looked as though he would fare badly, but one of the officers dug up an old ear syringe, with which the little fellow soon became proficient in feeding himself. The dog would take the filled syringe and step on the bulb until the milk was all gone.

#### (Special to The Journal.)

Washington, Sept. 8 .- Members of the Portland Fire Department band were today introduced to President Wilson, after serenading the executive from the lawn of the White House. The meeting with the president was arranged by Senator Chamberlain. Previous to this visit, congress was serenaded and visited, the firemen seeing one of the most important days of the special session, it being the final date for open discussion of the tariff with a full quorum in

attendance. This visit was arranged through Senator Lane. Just previous to the visit to the presi-

dent, Secretary Daniels, who was serenaded in Portland, was called on and gave the band a cordial reception. The balance of the day was spent sightseeing. The points of interest visited in-cluded the Capitol dome, Washington monument, the treasury building and Congressional library, Special enter-tainment was provided for the ladies, The band attracted considerable attention throughout the city through which

it paraded before its call on congress.
