sea with 3,900,000 feet of lumber, valued ! at \$40,000, for Shanghal. The five spars Ste are ordered for the Northern Chinese fo government and each one is 120 feet long and they average 24 inches at the butt. Each spar weighs a tons.

Captain Raun says that so far as he knows, the Oregon forests alone can furnish a one piece must of the required Portland. length which are used in the war junks. He says that those being loaded on the Arabien will be the longest that have ever been stepped in a junk. There were several of these craft sunk during the recent rebellion and new ones are being built to replace them. However, the masts are to be made longer, as the ar rangement by means of which the crew throw the terrible 'stink pot" can b placed higher on the spar, with a con sequent greater range of action. When one of the missles bursts the fume from it renders those about uncor scious.

In 1881, when he was second office of the British steamship Glenelg, Cap tain Raun says they carried a spar 9 feet long from here for a Chinese wa junk. That is said to be the longes one up to the present time. As the Arabien will be turned bac

to the owners after she has discharge her lumber cargo at Shanghai, and thei proceed to Viadivostok for a cargo of Soya beans for Copenhagen, Captain Raun says that he expects to break another record for a quick passage across the Pacific. He expects to make it in less than 20 days, as he intends to send Christman. it in less than 20 days, as he intends to spend Christmas with his family, after an absence of 18 months. On the last voyage across to Shanghal the Arabien made it in 12 days and 14 hours, with a loss of about 13 hours at Karatsu.
