COMB SAGE TEA IN

Grandma kept her locks dark, glossy, thick with a mixture of Sage Tea and Sulphur.

The oldtime mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treat-ment, and folks are again using it to keep their hair a good, eyen color, which state ho is quite sensible, as we are living in an aged 73. age when a youthful appearance is of the greatest advantage,

Nowadays, though, we don't have the drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle, It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, takng one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dand-ruff, itching scalp and falling hair.
