BAD WEATHER PREVENTS FINISHING OF BUCKEYE

Columbus, Ohio, Oct. 3.—Bad weather marred the interest in yesterday's grand circuit meet program. The feature event of the day, the Buckeye stakes, was not finished after five heats had been run.

The 2:10 pace, which was started Wednesday, was finished yesterday. The 2:12 pace was also finished.

- 1:30 pace, 3 in 5—Lowanda, 8, 9, 1, 2, 1, 1, first; Sellers, D., 1, 2, 4, 1, 3, 2, second; Nellie G., 2, 3, 6, 3, 4, 4, third. Best time, 2:05 1/4, in second and third heat.
- 2:12 pace, 3 in 5—Princess Margaret, 2, 3, 1, 2, 1, first; Fay Richmond, 1, 1, 2, 5, 4, second; Woodliffe King, 3, 2, 4, 2, third. Best time, 2:07 1/4, in third heat.

The Buckeye stakes will likely be finished today. Lady Grattan has won two heats. Pan Patch, Peter McCormick and Tommy Horn have each won a heat. The best time, 2:11, was made in the first and fourth heats. A flash of speed by Pan Patch in the fourth heat kept Lady Grattan from winning the event.

OAKLAND'S NEW BOSS WILL START AT ONCE TO MANAGE TRAILERS

Arthur Devlin Shows He Has Some Nerve to Assume Command in Last Month.

Fears of Oakland's baseball fans were set at rest yesterday afternoon, when Arthur Devlin, former king of the third basemen, arrived from New York and announced that he would take active charge of the Oakland trailblazers this afternoon. Even President Frank Leavitt of the Oakland club did not know that Devlin would don a uniform and get out on the field until they had a long interview on the subject at the park just before the game started.

After he had received Devlin's assurance that he would be in uniform today, Leavitt was overjoyed. He said: "Devlin is just the kind of a man I want. It takes a lot of nerve to assume command of a talented club in the last month of the season and I must admit Devlin has done a wonderful thing base until he was to act in other than an advisory capacity in building up next year's club. If the team doesn't start to win, of course the Oakland and San Francisco fans can be expected to hop on to Arthur. In the face of this, he says he

will go right into the fray. It takes nerve to do that, but then, anybody who has played eight years with Johnny McGraw has to have nerve."

"Yes, I have fully made up my mind to assume charge of the club at once," stated Devlin. "I'll be right down there on the coaching line according to my plans now. I rather wanted to get acquainted with Mr. Leavitt and the players before starting in, but the club is going badly and if I can do anything at this late stage to help it along, I am going to get right on the job. Oakland appears to be a hopeless second division club, but we shall build up for next year, getting through the present season as well as is possible under the circumstances."

"I shall probably not get into the game while I am in Portland, but when we reach California I am going to take the place of the men who are injured. There are a few years of good baseball left in me yet. Next year I may play as a regular. This year we shall endeavor to do as much experimenting as possible with the young fellows."

Devlin is a college man, getting his first baseball experience at Georgetown college in 1906-07. Next year he managed the Newbern club of the North Carolina league until it disbanded, July 15. Then he went to Newark of the old Eastern league, now the International. In 1904 he joined the New York Giants and played a wonderful third base until he began slipping in 1912. He was traded to the Boston Nationals and has been with Stallings for two years, except for the few months he spent at Rochester in the International league. He was secured from Rochester through Stallings, being the property of the Boston club when Leavitt purchased him.

Devlin is a mild-mannered fellow off the field and ought to make a hit with the Oakland fans. He picks the Giants to win the world's championship.

WINCHESTER

Rifle and Pistol Cartridges

It's the careful and scientific manner in which Winchester cartridges are made and loaded which has earned for them a reputation for accuracy, reliability and uniformity which no other brands enjoy. Winchester cartridge shells are carefully inspected before loading for size, length and conformity. All Winchester bullets are swaged by machinery which makes them exact in size, contour and density. Then the loading is done by automatic machinery which not only insures a uniform charge, but seats the bullet in the shell so that its axis coincides with that of the shell; hence with that of the barrel of the arm. These are a few of the many reasons why Winchester cartridges in all calibers are the most satisfactory on the market. Use the W Brand.

Let Us Ask You a Simple Question

DOES IT NOT seem reasonable that the trade would, if possible, answer or deny the claim we have made for months that "the world's finest whiskey" is W. H. McBrayer's CEDAR BROOK?

The records which we have continued to print prove its popularity—based on its higher quality and older age.

W.H.McBRAYER'S CEDAR BROOK

"The World's Finest Whiskey"

Public demand is growing less for whiskeys bottled in bond when only 4 or 5 years aged.

And all the distillers of bottled in bond whiskeys including all largely advertised brands made in Kentucky, Maryland, Pennsylvania and all over the U. S. cannot show proof that their combined bottling of 7 to 8-year-old equalled, or even approached our record on 7 to 8-year-old W. H. McBrayer's Cedar Brook.

We have proved our statements. Most of those whiskeys are bottled in bond immediately after only 4 years old, or just within the U. S. law limit. Other Distillers can't deny that either. The U. S. Stamp on their bottles proves it. They can't get away from that stamp.

The public taste has also proved, during three generations, that Cedar Brook is the ripest, richest, finest and oldest bottled in bond whiskey in the world—which has always made it the biggest seller, and will continue to do so. Bar none!
