

PUBLIC SCHOOL SURVEY REPORT COMPLETED AND IN HANDS OF PRINTER

Document Will Be Published Soon; Old Lincoln High May Be Opened Again

After several months spent in making a survey of the public schools for the purpose of devising means of rendering them more efficient, the report of the school survey committee is now in the printer's hands and soon will be published, according to a report made to the school board at last night's meeting.

In making the report to the board, Mrs. Milles Campbell, secretary of the survey committee, stated that the cost of the survey would not exceed the \$1500 appropriation made by the board. Owing to the overcrowded condition of the high schools there is a strong possibility that the old Lincoln high school building, better known as the Lowland school on Morrison and Fourteenth street, may be opened as a high school again.

School May Be Moved. The matter was discussed at some length by the school directors last night and the general sentiment favored the proposition. If this is done, the school for detectives, now at Lowland, will be moved to the Stephens school.

The board also decided to take early action either for or against the petition to open a night school in the Jefferson high school building. Last night a large delegation of residents in the Jefferson section appeared before the board and said that fully 300 pupils would enroll if the school were started. At present, only two night schools are in operation.

The resignation of H. C. Brandon as principal of the school of trades was accepted, and Charles Cleveland was elected as temporary principal and will assume his duties Monday. Mr. Brandon resigned to accept the professorship of industrial education and shop-work at the O. A. C.

May Be Beneficial. That a number of teachers now heads of departments and drawing extra salaries as a result of the survey, will be without the title, is indicated by the stand taken by the directors last night. The subject of reducing the number of department heads was brought up and the sentiment was overwhelmingly in favor of doing so.

Bills amounting to \$59,173.11 were ordered paid. The board adopted a recommendation of the building committee that a temporary training building be erected at the Richmond school, and the grounds committee's recommendation that the board include in next year's budget a \$25,000 appropriation for the purchase of a site on the east side for a school of trades was adopted also.

A communication was received from Mrs. Helen Ladd Corbett, suggesting that it would be a good thing for the People's Institute and the school board to cooperate in the development of school center work at the Josiah Felling school building.

SEATTLE JUDGES SAY VERY UNKIND THINGS ABOUT EACH OTHER

The judges grinned, the smile spreading over their faces. "Why, your babies will be like the cows I heard a story about," he started to say.

Mr. Spencer looked sharply at him. "I want you to understand that my babies are not cows," she said feelingly.

The judge did not finish his story. Mrs. Spencer said she was fighting for a principle and that she would sign the paper again if it would hasten the recall of judges in this state. At the conclusion of her case, the judge remarked that the woman "lacked sense" and his special prosecutor, H. E. Foster, started to say something about having sympathy for her. Mrs. Spencer, however, told Foster she did not want any sympathy from him.

The sharpest rebuke given Judge Humphries this morning was Mrs. Catherine Sirtan's remark that after sitting in his court for the past two days, the only thing she learned was that "the people feel before him as Christ did before Pilate."

This was in reply to a question as to whether she had any doubts during the session of the court that she was guilty of wrong doing in signing the paper. Mrs. Sirtan, with whom Judge Humphries claimed years of friendship, flared up when the judge said that she and S. J. Blithen were alike.

"There you 're!" exclaimed Mrs. Sirtan, who is a well-known jail reformer and social worker, "and I demand that the court take the statement back."

The judge then explained that he merely meant that both were "bull heads."

"This affair is a public affair," said the judge.

PORTLAND DOGS HAD HARD ROW TO HOE IN MONTH OF SEPTEMBER

212 Found Way to Pound, Only Half of Whom Reclaimed; City Hall News.

September was a bad month for dogs for during the month 212 found their way to the city pound and of that number 108 started on their way to "dog heaven." This is a record number for one month, according to the report of Poundmaster Welch, filed with City Auditor Barbur this morning.

On an average seven dogs were caught daily. A number of these dogs died at the city pound from what is believed to have been rabies. Several of the animals were later rescued by the owners and those which were not redeemed were killed.

Next Thursday afternoon has been the date set for the hearing by the civil service board of the cases of G. W. Russell and R. F. Stack, dismissed patrolmen; L. E. Beach, dismissed playground supervisor; Harry Gurr, dismissed sewer inspector; and Cornelius Murphy, dismissed from the water department a number of months ago.

A change has been made in the proposed ordinance regulating the keeping of horses, cattle and other livestock in the city limits. If the amended ordinance passes, to keep the animals in stables in residence districts permission must be secured from three-fifths of the residents. The ordinance will not apply to those two horses or cows kept for family purposes.

About 4120 tons of garbage and refuse was incinerated at the crematory during the month of September, an average of 154 2/3 tons daily.

ELKS "STAG" SOCIAL PROVES BIG SUCCESS

Between 600 and 700 Elks and visiting members of the "herd" enjoyed the first "stag" social of the season last night in the Elks' club and lodge rooms.

The links began immediately after the regular lodge meeting, and continued far past 11 o'clock, the mystic hour for members of the E. P. O. E.

With a number of actors from local playhouses, the Elks' band and local musicians performing, the time passed rapidly, and the merriment ran high up to the moment when the time arrived for adjournment.

Among those who participated in the entertainment were Miss Cullen, daughter of Tom Cullen, who played violin selections, and Pinkerton Day, son of Detective Joe Day, who favored the party with several songs.

The committee in charge was headed by Harry Allen and the following completed its membership: Harvey Wells, Frank Coffinberry, Charles Ringler, H. Z. Duke, J. A. Johnson, Fred Wagner, J. H. Dietz, W. J. Rutherford and Frank D. Hennessy.

COUNTY PAID INSURANCE COVERING LOSS BY FIRE

A check for \$1897.61 was handed to the county commissioners this morning by a representative of W. J. Clemens, the amount covering the loss by fire on the building, machinery, tools and fence destroyed by fire at the Kelly Butte rockpile September 22. The company which insured the property and which Mr. Clemens represented was the North British Mercantile Fire Insurance company. The district of the fire involved a loss of \$1851.15; of the building, \$382.28, and damage to machinery, tools and the like amounted to \$1009.80.

The fire occurred before Mr. Clemens was the insured. He said that the county would have lost \$387.81, as the former policy did not include the building or the stockade.

Another school is wanted on east side. Residents within the district bounded by East Twenty-second, East Forty-second, Knott and Prescott streets, are hard at work gathering data for submission to the board of education tending to show that the erection of a schoolhouse in the district is justified.

Paralysis ends life of well known painter. William Grabach, once a widely known scene painter is dead from a stroke of paralysis sustained some weeks ago. Mrs. Grabach came here in 1908, at the time the Belmont theater was opened, and later opened a studio here which he maintained until a few weeks ago. He will be buried tomorrow afternoon from the Scottish Rite Cathedral.

Released on Own Recognition. On recommendation of Deputy District Attorney Deich and with attorney W. A. Carter vouching for his appearance, E. W. Doane, a former deputy in the tax department of the sheriff's office, charged with obtaining money on false pretenses, was released on his own recognition by District Judge Jones yesterday. Doane was arrested by Deputy Constable Hunter on complaint of Mrs. Edith Bole of Greenburg, Or., who charged that he passed a worthless check for \$45.00 on her.

Bids for Tillamook Jetty. Bids for the construction of a jetty on the north side of Tillamook bay will be opened in the office of Major Jay J. Morrow, corps of engineers, United States army, November 3. The project this year will call for about 400,000 tons of rock, and there is an appropriation of \$14,000, of which \$150,000 is for dredging, which will not be included in this contract.

Third Fire at Brownsville. Brownsville, Or., Oct. 3.—The third fire of the week at Brownsville destroyed the home of A. E. Robe, a widow. The contents of the house, the most part, were saved by neighbors.

Dr. Leach Will Lecture. Bandon, Or., Oct. 3.—Dr. Leach K. Leach, who was deported because of alleged anarchistic utterances at Coos Bay, has gone to Astoria to lecture on Socialism. It is understood that he will tour the state on the lecture platform.

WITNESS SAYS BANK'S METHODS IRREGULAR

Trial of Baker Cashier Gives Interesting Insight Into Inside Workings.

Interesting insight on the intimate workings of the Citizens' bank of Baker is developing with each day of the trial of Guy W. Lindsay, the former cashier. In federal court here on a charge of misappropriating national bank funds and in making false entries to cover up the defalcations.

That Guy W. Lindsay was the principal stockholder of the bank and as such had the power to negotiate loans and transact other business without consulting other members and officers of the institution was testified to by Frederick B. Bodinson, president of the bank in cross examination by Senator C. W. Fulton. That Lindsay, while not connected with the bank in official capacity, is still its principal stockholder, was another development.

Bodinson said that he and Lindsay had about equal power in the management of the bank's affairs and together with another bank official named Bear, they did practically everything without asking the board of directors to authorize the move.

That bad blood existed between Bodinson and Lindsay for some time, and that Lindsay finally bought out Bodinson's stock in the bank was admitted by Bodinson under Fulton's grilling.

Lindsay was intimately interested in the affairs of the existing Timber & Lumber Company, it developed, and the making of loans to this concern from the funds of the bank was what got him into trouble with the government.

In direct examination Bodinson declared that Lindsay had received big bonuses on loans that he had made to concerns in which he was interested.

SMALL BOY KILLED BY GARBAGE WAGON

While hastening to respond to the school bell which had just rung, 7-year-old Fred Schrader, 644 East Eighth street north, a student at the Albina Homestead school, who had been playing on the public play grounds, was run down today by a garbage wagon and fatally injured. He died at 2:30 this afternoon.

The driver of the garbage wagon, who is said to be John George, did not stop after running the child down, but whipped up his horses. The police are searching for him.

YOU will derive little pleasure from a home if you feel insecure as to the title. With a guaranteed certificate of title issued by this company, having back of it the experience of expert searchers and many years of records, you may well feel safe. Investigate. JURY FINDS GINSBURG TOOK HIS OWN LIFE

Testimony Before Coroner Indicated Killing Unintentional; Wife Freed.

Killed by a pistol bullet fired by his own hand, was the verdict returned yesterday afternoon by the coroner's jury investigating the death of Philip Ginsburg, the furrier at 111 Broadway. No mention of Mrs. Ginsburg was made in the report. The woman was completely exonerated and ordered released from custody.

Neither did the jury report on the nature of whether or not it considered the shooting accidental or with suicidal intent. However, all testimony before the coroner plainly indicated Ginsburg thought the revolver empty of cartridges, and snapped it at his head to save his wife.

Mrs. Ginsburg told a clear, straightforward story of the events leading up to the shooting. These included the quarrel the couple had over Loretta Mense, an employe at the fur company in whom Mrs. Ginsburg thought her husband was too interested. This girl testified relations between herself and the deceased were proper, that the three people talked the matter over last Sunday afternoon at the room occupied by the Ginsburgs, at the Roland hotel, in which conference Mrs. Ginsburg finally concluded her suspicions were not well founded.

Representatives of commercial and civic organizations of Portland joined together in support of the campaign to deepen the channel and Columbia river bar from Portland to the sea at a meeting held at the call of the Realty Board and Progressive Business Men's club in the main dining room of the Commercial club this afternoon.

Among the speakers were President A. H. Averill of the Chamber of Commerce, Acting President C. S. Jackson of the Commercial club; Dr. Alfred Kinney, chairman of the Ports of Columbia commission, and Jonathan Bourne Jr., former United States senator from Oregon.

Resolutions were adopted urging enlarged appropriations for work at the mouth of the Columbia, protesting against the transfer of Major James F. McIndoe, resident United States engineer and calling upon the state to appropriate an amount sufficient to construct a dredge for work at the mouth of the river.

It was the largest demonstration in support of harbor and commercial extension ever held in the city.
