| Totals | 29 2 5 27 6 | 1 0 |

Run for McLean in fifth. Whites ran for Merkle in seventh and then replaced him at first. Three base hits—Collins, Schang, Stolen bases—Collins, Baker, O'Leary, Fletcher, Cooper. Hit by pitched ball—Fletcher. Innings pitched—By Tesreau 6 1/3, hits 11, runs 7, charge defeat to Tesreau.

Umpire—Rigler behind the bat. Con on the bases and Klem and Egan in the outfield.

By Hal Sheridan.

Polo Grounds, New York, Oct. 9.—Count Mack's first kid pitcher made good today. Bush, the Salt Lake youngster, had the Giants at his mercy and let them down with a scant pair of runs and five hits.

Sherridan bunched hits on Tesreau. Three base hits in each inning netted them three runs in the first and a pair in the second. Again in the seventh they got Tesreau for a triple and two singles, which netted them another pair of runs and sent the Giant to the bench.

Schang Gets Home Run.

Crandall, who succeeded him, started off nicely, but Schang caught one squarely on the end of his bat and warped it into the right field stands in Baker's fashion, for the second home run of the series. It was the Athletics' game all the way. There was none of the dash and brilliancy of yesterday's contest and the Giants seemed decidedly lacking in pep after their opponents had piled up their early lead. With the game stowed away, the Athletics went along under wraps, but there was never a moment when young Bush was in serious danger.

The Giants' two runs were negotiated in the fifth and seventh stanzas. The first one came when Murray drew a pass, stole second and took third on Schang's bad throw to Collins. Red came home when McLean came through with a single.

The threatened rally was nipped in the bud, however, when Merkle, Tesreau and Herzog were stowed away in order.

Giants Score in Seventh.

Shaffer threatened to start something in the seventh, when he opened the frame with a double, the Giants' second base hit of the series. Murray singled and Tilly came home with the Giants' second and last run.

Schang, whose throwing to second has been lamentably weak, caught Murray on an attempted steal, and Bush braced quickly.

Of the three pitchers so far trotted out by Mack, Bush was easily the greatest puzzle for the Giant stick wielders, whose efforts were lamentably feeble throughout the game. Not a single Giant was able to secure more than one long hit. In contrast, Collins fattened his hitting average with two singles and a triple in three times up.

But two really spectacular plays marked the contest. One of these was a double play worked by Bush to Barry to McLean on Burns and Fletcher in the sixth, and the other was a dazzling

YOUNG WESTERNER IS GIVEN HIS BIG CHANCE

Pitcher Bush, who went from Union association to Athletics, takes Giants in first world series start.

GREATEST OUTPUT OF WHEAT IN HISTORY OF THE UNITED STATES

Department of Agriculture Estimate Also Shows Decrease in Corn and Oats.

American Wheat Crops.

| Year | Bushels |
|------|-------------|
| 1913 | 755,238,000 |
| 1912 | 730,267,000 |
| 1911 | 621,236,000 |
| 1910 | 635,121,000 |
| 1909 | 683,350,000 |
| 1908 | 664,602,000 |
| 1907 | 634,087,000 |
| 1906 | 735,260,970 |
| 1905 | 692,876,489 |
| 1904 | 652,339,517 |

(Special to The Journal.) Washington, Oct. 9.—The wheat crop of the United States was today officially estimated at 755,238,000 bushels, or the greatest output in the history of the country. The figures were made available by the department of agriculture.

This year's crop is far in excess of anything heretofore gathered in the country. The next biggest crop was in 1901, when the total of spring and winter planting reached 748,400,213 bushels. In 1906 it reached 735,260,970 bushels. Last year the crop was 730,267,000 bushels.

The government report places the crop of the country this year at 2,373,000,000 bushels, compared with 3,124,746,000 bushels last year, while the oats crop is given at 1,125,139,000 bushels, compared with 1,418,337,000 bushels last year.

LOW CHURCHMEN AND HIGH VOTE ON POLICY OF EPISCOPAL CHURCH

Creation of American Archbishop and Change to American Catholic Considered.

(United Press Leased Wire.) New York, Oct. 9.—The Episcopal House of Deputies met today to consider an amendment to the constitution, proposed at the 1910 church convention and providing for changes which low churchmen have referred to as "Americanizing."

The suggestion was also made that the name "American Catholic" be adopted by the church. Low churchmen vigorously oppose both propositions.

The first test between the two factions came yesterday, when by a vote of 250 to 242 Dr. Alexander Mann, rector of Trinity, Boston, and a low churchman, was elected president of the house of deputies, over Dr. W. T. Manning, rector of Trinity, New York. The office is an important one and carries much influence in the appointment of committees and similar matters.

Dr. Henry Anstice of New York was elected secretary.

The House of Bishops elected Bishop Vincent of southern Ohio as chairman, and re-elected Dr. Samuel Hart of Connecticut secretary. Bishop Alfred Hardin of Washington presented a memorial providing for a revised system of representation in the Chamber of Deputies.

Express Earnings Show Decrease.

New York, Oct. 9.—The parcels post is already playing havoc with the earnings of the express companies, and heavy decreases in the volume of business carried through the year are being shown in latest reports of the companies. Wells-Fargo & Co.'s net revenue for the year ended September 30, was \$2,010,025, or a decrease of \$226,823. This is attributed entirely to the action of the government in entering the field as a competitor of the private carriers.

LAST BARRIER IN BIG CANAL GOES OUT TOMORROW

President Wilson Will Give the Signal for Explosion on the Isthmus From White House at 2 in Afternoon.

ELEVEN O'CLOCK IS TIME ON PACIFIC COAST

Portland to Celebrate Event With Clanging Bells and Screaming Whistles.

(United Press Leased Wire.) Washington, Oct. 9.—President Wilson at 2 o'clock tomorrow afternoon (eastern time), will press the button flashing to the workers at the Panama canal the signal to blow up the last barrier separating the two oceans and open the canal. The ceremony of pressing the button will take place at the White House. Many distinguished guests will be present. The time originally arranged was 9 a. m., but the later hour was officially named today.

PORTLAND WILL ECHO EXPLOSION THAT JOINS ATLANTIC AND PACIFIC

All over Portland tomorrow will roar the echoes of a great explosion. Whistles will blow, bells will shout with brazen tongues, automobile horns will honk, trolley car gongs will clang.

Down on the Isthmus of Panama a blast of giant powder will tear away the last vestige of barrier that separates the Atlantic from the Pacific. The great canal will be open from sea to sea.

Portland's celebration will begin at 11 o'clock. The first program included the touching off of the blast at 9 a. m. canal time, which made it 6 o'clock Portland time. But on the plea of almost every commercial body on the Pacific coast the canal officials at the isthmus decided this morning to defer the explosion until 9 o'clock canal time, or 11 o'clock Portland time. Thus, everybody will be awake and waiting for the signal that the ocean has met ocean.

The U. S. S. Boston, stationed at the foot of East Stark street, will help the noise-making with her huge siren. She would fire a salute, but it was explained this morning that she has nothing to fire. It will be the flags that will break on their yards and just at 11 o'clock the stars and stripes will be dipped in honor of the nation's engineering exploit.

President Franklin T. Griffith, of the Portland Railway, Light & Power company, this morning promised to have every car stop wherever it happens to be, exactly at 11 o'clock, and remain stationary for one minute. All the gongs will be rung by the car crews, so that all over the city the people will be clanging, know that the oceans have met.

Principals in every school will give little talks to their pupils on the significance of the opening of the canal. The exercises have been authorized by Superintendent of Education L. R. Alderman, who plans to make the opening a little chief lesson in patriotism.

The celebration in which the 30,000 pupils will participate will last one minute. All will rise, just at the stroke of 11, and point in the direction of the canal. The principal will then explain how a passage from the Atlantic to the Pacific has been the dream of explorers for centuries—Columbus, Drake, the Norsemen and the rest—and how it remained for man to make the passage for himself.

John S. Beall, chairman of the house committee of the Commercial club, has arranged a Panama dinner at the club tomorrow evening to celebrate the event. A special Spanish menu is being prepared and the whole main dining room will be thrown open. Afterward moving pictures showing the canal in process of construction will be displayed in the green room, and a number of talks are promised. Among the entertainment features will be some "tropical singers" and other unique stunts.

NO DREDGE IN SIGHT.

Washington, Oct. 9.—The canal commission is unable to say when vessels will be able to pass through the Panama canal. Canal work remains to be done after blowing up Gamboa dike, the time for which has been changed to 2 o'clock tomorrow, eastern time, when the president will press the button.

The policy will be to allow vessels to pass through the canal as soon as possible, but the commission has no dredge. Portland can have, as its dredges will be in use for sometime yet. They had an idea Portland was going to buy a dredge on the Atlantic side.

BALL TICKET SCANDAL INVESTIGATED BY N. Y.

(United Press Leased Wire.) New York, Oct. 9.—Investigation of the alleged scandal surrounding the selling of tickets for the games here between the Giants and Athletics started today when District Attorney Whitman examined three officials of the New York club, President Hempstead, Secretary John Foster and Treasurer N. A. Floyd. Miss Skinner, the stenographer receiving for all the reserved seats, also was subpoenaed.

Assistant District Attorney Johnson said the law does not prevent the club from selling tickets to anyone it wishes.

MRS. EVANS ELECTED AGAIN AS PRESIDENT OF CLUBS OF STATE

Deciding Vote Is by Acclamation in Honor of Federation's Life-Long Worker.

(United Press Leased Wire.) Hood River, Or., Oct. 9.—Mrs. Sarah A. Evans was this afternoon re-elected president of the State Federation of Women's Clubs by acclamation, and later, to make the election constitutional, the vote of the convention was cast by the secretary, Mrs. Evans was placed in nomination by Mrs. Frederick Eggert and Mrs. Millie R. Trumbull.

Other officers were re-elected as follows: Mrs. Leo Moorhouse, Pendleton, first vice president; Mrs. J. D. Zurcher, Roseburg, second vice president; recording secretary, Mrs. H. P. Davidson, Hood River; corresponding secretary, Mrs. Sadie Orr, Dunbar, Portland; treasurer, Mrs. C. N. Rankin, Portland; auditor, Mrs. W. J. Boynton, Eugene. The directors are Mrs. Agnes Bradshaw, The Dalles, re-elected, and Miss Beauty of Salem.

In thanking the convention for the honor bestowed upon her, Mrs. Evans, president, announced positively, that she will not be a candidate for reelection at the next convention, two years hence. Convention adjourned and the Portland contingent left for home this afternoon.

Practically the entire morning session was taken up with the report of the resolution committee, of which Mrs. Millie R. Trumbull is chairman. Lively discussion from the floor kept the convention on resolutions until noon.

Resolutions considered include the reopening of the Normal school in the southern part of the state. The resolution favoring a closed season for calves in an effort to reduce the cost of beef was referred to the home economics committee to report next year. Resolutions favoring snar and less suggestive clothes for women and girls, and protesting against immoral and suggestive dancing, were passed. The chief discussion arose over a resolution favoring an effort on the part of the club women of the state to make Oregon a saloonless state by 1914.

Mrs. M. L. T. Hidden led in the discussion favoring this resolution, seconded by Mrs. A. H. Breyman, Mrs. E. Spencer, Mrs. Allen Todd, and Mrs. Trumbull, favored referring the resolution to the individual clubs. On motion of Mrs. Frederick Eggert the resolution was laid on the table.

Under the head of "Prevention of Disease," Dr. Mary McLachlan of Portland delivered an address Wednesday afternoon which teemed with practical suggestions for mothers. She declared the old adage, "an ounce of prevention is better than a pound of cure," was never more true than it is today. She admonished.

MILWAUKEE FLYER IS DITCHED IN MONTANA

(United Press Leased Wire.) Forsyth, Mont., Oct. 9.—Twenty persons were injured when the Chicago, Milwaukee & St. Paul's eastbound "Olympian" train was wrecked 45 miles west of Forsyth yesterday by the breaking of a brake beam on an express train car next to the engine. The seriously injured are:

John Bratovitch, Tacoma; S. D. Green, Oxnard, Cal.; A. Larson, Shawmut, Mont.; and W. H. Dugan, Chicago, Pullman conductor.

FAMOUS APPLE IS GAY DECEIVER

"Spitzenburg" Alias for "Esopus"

(United Press Leased Wire.) Washington, Oct. 9.—Senator Chamberlain and Senator Lane saw the United States board of engineers regarding a dredge for Columbia river. None is available and it will cost \$705,000 to build a suitable boat. Senator Chamberlain says if funds are not available he will ask an appropriation at the next session of congress.

Chief of Engineers Rossell will not consent to retain Major McIndoe in Portland. He "must be replaced by a man just as good as McIndoe," he says.

The failure of the board of engineers to supply a new dredge for work on the Columbia river bar is not a great disappointment to the local corps of engineers working at the bar and on the jetty, according to Gerald Bagnall, assistant engineer in charge of the work.

"I do not think any of the dredges that possibly could have been sent would be big enough. What we need is a mammoth dredge, large enough to work in fairly bad weather," said Engineer Bagnall. "Of course the work done by the Chinook or its duplicate would be an aid, but a little rough weather" would soon undo all the good that has been done. "What is needed is a dredge that would be able to clear for a mile each side of the cut and then it is a question of whether it would sustain during the winter. The building of a new dredge is practically a necessity," he added.

PORTLAND MAN PLACED ON STANDARDS BUREAU

Washington, Oct. 9.—A. D. Miller of Portland has been appointed assistant inspector in the bureau of weights and standards at a salary of \$1500 a year.

NEW TARIFF LAW KINDEST TO WAGE EARNER'S POCKET

Foodstuffs Affected Most; Goods and Wearing Apparel Worn by "Common People" Also Come at Reduced Rates

RICH PEOPLE TO PAY MORE FOR LUXURIES

Act Shows Little Regard for Those Who Have Cultivated Expensive Tastes.

Downward revision of the tariff as effected in the Underwood bill, which became a law October 3, while it hews to the line in all its length, comes home to the people in its most intimately practical phase in its relation to "the market basket"—that center about which the discussion of the high cost of living has so largely been waged.

Those items which enter into everyday use in the household and which were either liberally reduced or freed altogether, form a column of a length highly gratifying to the household. Articles of luxury are, as a rule, with few exceptions, either left as in the older tariff schedule or are raised above the old levels. Besides the staple foodstuffs, cotton and woolen staples are subjects of reduction or freighting. Coal, also, is now free.

List of 68 articles and groups of articles with comparative rates, shows the spirit in which the high cost of

(Continued on Page Twenty-One.)

VOTERS ARE URGED TO QUALIFY FOR ELECTION ON COLUMBIA BRIDGE

Interstate Span Campaign Committee Sends Out Notifications; Big Banquet.

Prosecuting its campaign to get out as large a vote as possible for the interstate bridge bond issue November 4, the general bridge committee this morning began notifying some 400 persons who signed the petitions that they are not registered and must get their credentials before October 15.

Believing that the only thing now that could possibly defeat the bond project might be the lack of interest on election day, speakers at every bridge meeting are urging the people to qualify as electors at once.

Numerous gatherings all over the country are being held almost nightly to boost the bridge proposition. An informal meeting of the general committee was held yesterday at which the general situation was discussed. It was found that there is practically no opposition to the bridge proposition itself and that the task of the workers will be to stimulate the voters actually to get out and vote.

Big Banquet Planned.

The North Portland Commercial club has arranged for a big banquet October 25, with accommodations for something like 300 people. J. H. Nolte, N. Reed and W. H. Smith, of the committee, are planning to have the affair as much of a celebration as possible. The day of the banquet is "bridge day," when a parade will be held in Portland and one also in Vancouver. The Vancouver affair will be a celebration—the Portland one a demonstration of the need of the span.

Bridge speakers are being furnished copies of a little pamphlet summarizing the arguments in favor of the inter-county voting \$1,550,000 to build its share of the bridge. This was written by E. C. Crawford, one of the enthusiasts. This points out that Multnomah county would save much money on the maintenance of the approaches to the bridge, because it is now called upon to maintain the roadway leading to Hayden's Island and the ferry. The law authorizing Multnomah county to issue bonds for a bridge specifies that the approach to the bridge is to be considered part of the bridge and maintained by the state.

The bridge proposition will be discussed at these meetings in the next few days. The Bellwood Commercial club will be addressed tonight by Whitney L. Boise and Frank Branch Riley. J. H. Nolte will address the Ladies' Auxiliary of the North Portland Commercial club tonight, at the North Portland branch library. George D. Young and Frank S. Grant will address the East Halsey Street Improvement club Saturday night; L. L. Lepper and J. H. Nolte will speak Monday night at the Mount Scott Improvement club meeting, and M. G. Winstock, Ralph Coan and D. E. Lofgren will address the Men's League of the Sunnyside Congregational church Monday night.

New Committees Wanted.

The following additional committees have been appointed by organizations to assist interstate bridge campaign committees:

Portland Star Homestead, No. 4, Brotherhood of American Yeomanry, W. A. Stribley, H. H. Smith, Chas. Irish, Daniel S. Southmayd, M. G. Sanders.

Portland Schweizer Frauen Verein, Mrs. Ursula Maister, Mrs. Ethel Appen, Mrs. Mary Tussler, Mrs. Marjorie Selmer, Mrs. Anna Blaser.

Multnomah Typographical Union, No. 68, Edgar W. Riabl, D. O. Gilling, Marshall Jones, W. L. Kibben, W. G. Heald.

Cosmopolitan Ladies, 5, that of that number, 1310, 15, W. W. Roberts, W. S. Tilton.

NO DREDGE AVAILABLE FOR COLUMBIA RIVER

Major McIndoe Must Go, Says Chief of Engineers Rossell.

(Washington Bureau of the Journal.) Washington, Oct. 9.—Senator Chamberlain and Senator Lane saw the United States board of engineers regarding a dredge for Columbia river. None is available and it will cost \$705,000 to build a suitable boat. Senator Chamberlain says if funds are not available he will ask an appropriation at the next session of congress.

Chief of Engineers Rossell will not consent to retain Major McIndoe in Portland. He "must be replaced by a man just as good as McIndoe," he says.

BODIES MAY BE THOSE OF SPENCER VICTIMS

Michigan Officer Believes Two Girls May Have Been Killed by Prisoner.

(United Press Leased Wire.) Chicago, Oct. 9.—The chief of police of Benton Harbor, Mich., telegraphed today to Chief McWeeny here, telling him of the finding of two girls' bodies in Lake Michigan near Paw Paw last summer, and calling attention to the fact that they may have been victims of Henry Spencer, confessed murderer of Mrs. Mildred Allison Rexroat and of 13 other women.

Investigation convinced the Chicago police that the Benton Harbor official might be correct. Though believing Spencer did kill Mrs. Rexroat, they are inclined to regard the rest of his confession as romance but they said today it certainly had been partly corroborated.

The two girls were never identified. Spencer, deprived of cocaine, raved in his cell today and begged the police to hang him.

HOUSE IS DYNAMITED; 2 OCCUPANTS ESCAPE

Redding, Cal., Oct. 9.—Poles are being hauled today for the dynamites which blew up the home of A. E. Head, a rich farmer, three miles southeast of here, about 10 o'clock last night.

The building was completely shattered, but Head and his wife, bed at the time, escaped injury, being partly protected by a heavy partition. The loss was \$2000.

TEAL IN WASHINGTON ON MATTERS FOR OREGON

(Washington Bureau of the Journal.) Washington, Oct. 9.—Joseph N. Teal of Portland arrived here last night and is busy today visiting various executive departments and in conference with the Oregon committee.
