STAMSHP FOR ISIA AKE OUT LUMBER CARGO TO AUSTRALIA

British Craft Makes Second

On her way here to load a full cargo of lumber for Australia, the British steamship Ecclesia, Captain Roope, was due to arrive in the river last night from Acapuico, this being her second xoyage to this port within the last four months under charter to Davies &

The Ecclesia sailed from the southern port on October 1 and she was looked for last night by shipping men. She is scheduled for three loading places and she will come first to Westport, then to Prescott and finish at St. Helens. On her former voyage to this port the Ecclesia sailed on June 11 for Sydthe Ecclesia sailed on June 11 for Syd-ney will a full cargo of lumber and on her arrival in the Antipodes she loaded a cargo of coal for Acapulco. She was chartered for the second voyage with lumber while on her way from the Aus-tralian port to the West Coast. The British steamer Harflete, under charter to Gibson & Co., will shift from Tongus Point to Knappton today and it is expected that she will complete her cargo of lumber for Australia next Tuesday. She has been in port since October 4 and is taking on a large cargo of fir for the Antipodes. She is expected to clear with over 4,000,000 feet, all of which is being loaded at expected to clear with over 4,000,000 feet, all of which is being loaded at

down river points. Gibson & Co. have several other ves-sels, both steam and sailing, under charter and it is expected that some of them will come here to load. All have been taken for Australia. Another craft which is now loading in port for Syd-ney is the British bark Lord Temple-ton. She arrived here September 28 from San Francisco and should com-plete her cargo within a short time. She is loading at Prescott.

BY WAY OF PRINCE RUPERT

Steamer Santa Rosalia Now En Route to Portland.

Before coming to this port the British steamer Santa Rosalia, next of the Ma-ple Leaf line scheduled to arrive here, will proceed to Prince Rupert, B. C. with proceed to Prince Ruper, B. C., with cargo, according to advices re-ceived by the local agents. She is out 98 days today from New York for Van-couver, B. C., with railroad iron, coming via the Straits of Magellan. On August 18 the steamer put into Montevideo with her machinery dis-blad She suited from there August 2

abled. She sailed from there August 24 and on September 6 was reported sailing from Coronel. The British steamer Buenaventura, of

the same line, is now out 52 days from New York for Vancouver and she may reach here before the Santa Rosalia if she is not also sent north to Prince Repert. The third vessel of the line, the Brit-

ish steamship Kentra, is scheduled to sail from New York October 20." Wheat and other cargo will be taken by them from here to Europe.

MARINE INTELLIGENCE

.Oct. 12 .Oct. 12 .Oct. 12

Date to Arrive. Daisy, from San Francisco Aurelia, from San Francisco... Breakwater, from Coos Bay...

After haing cleaned and painted and having some repairs mude, the bark-entine Puako was released from the Port of Portland drydock late yestur-day afternoon. She will go to West-port to doad for Valparaiso. Captain Federsen's wife and four children have arrived from California to make the voyage with him as soon as the vessel is loaded.

ritish Craft Makes Second Visit to This Port Within Four Months. It is expected that the schooher George E Billings, now discharging Australian cost at Astoria, will be through there Tuesday afternoon, after which she will come up here. She will probably bring some coal to Portland Bringing passengers and freight, the steamer Breakwater, Captain Nelson, will be due to arrive here this after-noon from Coos Bay.

Laden with lumber, the steamer Wil-lamette is scheduled to sail today for San Diego. She will take passengers. The steamer Sue H. Elmore will be due to arrive this afternoon from Til-lamook with general freight. Because of Columbus day, the of-fices in the custom house building will

closed tomorrow.

HEAVY SOUTH BOUND TRAFFIC

Regular Liners and Steam Schooners Taxed to Capacity.

In addition to a full list of passengers, the steamer San Ramon, which sailed at 6 last night for San Francisco, had 700 cases of salmon, 200 tons of oats, 671 tons of grain, 55 tons of chops, 8 tons of miscellaneous, and 450,000 fee of lumber.

Although steam schooners carrying passengers are going out of here every day, their passenger accommodations are taxed to the limit, says Frank Bollam, agent of the San Francisco, Port-land & Los Angeles Steamship company. Agents of the regular steamship lines also say that travel south seems extremely heavy this fall.

GOES TO REJOIN STEAMER

Steward of Montreal Has Been Detained Here as Witness. Joe Adamson, steward on the steam

schooner Multnomah, arrived in Port-land yesterday from Seattle and left last night for San Francisco by rall to join the steamer after being a witness in a white slave case. He was just a day too late to catch the steamer before she sailed as she left here yes terday.

The man who was on trial for white slavery came up from San Francisco on the Multnomah two trips ago, bringing a woman with him, and from here they went to Seattle, where the man was captured.

MARINE NOTES

Astoria, Oct. 11.—Arrived during the night-fasoline schooner Patay, from Floromere. Sailed at 10:30 a. m. — Steamers Multnomab. Doria. Yellowatone, for San Francisco; steamers Oilver J. Tides at Astoria Sunday—High water, 11:27 s. m. 8.0 feet; 11:38 p. m., 7.4 feet. Low wa-ter, 5:24 a. m., 1.1 feet; 5:27 p. m; 1.6 feet.

See-Saw Game Finally Goes to Wolverines When Leifield Blows Up in Eighth.

Sacramento, Cal., Oct. 11 .- Four home runs, which chased over three other

runs shead, spelled defeat for Del How-ard's Seals today despite the fact that at various stages of the game they held the lead by such scores as 2-0, 5-3, 5-3, 5-5, 5-5 and 5-7. At the end of the first inning the Wolves were out in front, at the end of the fourth they were on the short end, and there they stayed until an eighth inning onsinght on the per-son of Lefty Leifield netted three more runs and the game by a score of 10

All pitchers looked alike to the sluggers on both sides, when they found the kind they liked. The game was a ragged one from a fielding point of view, nine errors being made, most of them contributing to the score.

Score: SAN FRANCISCO. AB. R. H. PO. A. E.

The Shushanna Mining & Trading Company, Limited.

THE OREGON SUNDAY JOURNAL, PORTLAND, SUNDAY MORNING, OCTOBER 12, 1913.

The Shushanna Mining & Trading Company, Ltd., was incorporated on September 20, 1913, under the Companies Act of British Columbia. The Company's operations, therefore, come under the strict corporation laws of British Columbia, sand the stock is fully paid, and there is no personal liability.

The stock is absolutely non-assess. able, and our Company is incorporated with a capital stock of \$300,000 divided into shares of a par value of 10c each. This modest capitalization will appeal to the conservative man.

The Directors and Officers Mr. Emanuel Frank is Managing director of the Company. Mr. Frank is a successful merchant of Vancouver and Dawson. For fifteen years Mr. Frank operated stores in Dawson, and knows the business thor-oughly. Many of the successful mining men of the Yukon, or any business man of Dawson, will wouch for Mr. Frank's integrity and ability. He is a successful man in every sense of the word, and a man that we can well afford to follow.

Mr. Wm. Kennedy, a well known timber broker, of Vancouver, is also a Director of the Company.

Mr. E. N. Winslow, a well known capitalist of Vancouver, formerly of Boston, Mass., is also a Director. Mr. H. C. Crumplin is Secretary of the Company.

The Attorneys are Mesars. Buchanan & Bull, North West Trust Building

Registered Office

The registered office and the principal place of business of the Com-pany is at 408 Homer Street, Vancouver.

The stock of the Company is uffered for sale by the Aetna Investment & Trust Company, which was organized in 1909 under the British Columbia laws for the purpose of doing a general Trust Company business.

Mr. Donald M. MacGregor, of Vancouver, is the Managing Director. Mr. MacGregor is a member of the Vancouver Stock Exchange and the Seattle Stock Exchange.

Organization

Organisation The Saushanna Mining & Trading Company, Ltd., was organized for the particular purpose of taking ad-vantage quickly of the opportunity for profit in the new mining camp of Shushanna. It was not organized for the purpose of promoting any particular property, but is a live or-ganization of capable business men, sotten together with the sole idea of reaping the largest possible benfits either in mining or trading, and with the idea of building a permanent or-ganization that will eventually vank with the biggest concerns in the country. country.

Management

The Company is managed by re-sponsible men, well and favorably known in their home city. Banks, mercantile agencies, commercial mercantile agencies, commercial houses, public offlicals, and public organizations will vouch for these men. Not only are they well and favorably known, but they under-stand the business in hand; thus an intelligent management of the af-fairs of the Company is assured.

GOLD FIELDS The New Fabled Treasure House of Alaska

The boom is on. This new gold discovery is startling the world. It is the story of the Klondike and the Yukon. Excitement over this new gold strike is keen. Thousands of men have joined the stampede. It is freely predicted that more meth x stampede into Shushanna this coming spring than went into Dawson in,'97. At that time 40,000 men rushed into Dawson. Many of them returned without going to the diggings, claiming that the strike was a fake. Nearly \$200,000,000 has since been taken out in gold.

SHUSHANNA

The Shushanna discovery was but recently made. Single men are taking out \$400 and \$500 a day by hand. Gold nuggets worth \$10 and \$20 each are being found. One property in a few short weeks has produced over \$15,000 in gold. The Shushanna Mining & Trading Company, Ltd., was the first big company organized to get in on the ground floor of the new camp. Already this company has secured an interest in the very heart of the gold discovery. Already plans are being made to take into the camp a big supply of stores, every dollar's worth of which can be sold at a tremendous profit almost immediately upon their arrival.

This is the opportunity you have been looking for. You can join this organization and become interested in the new camp at the first low ground-floor price of 10 cents per share. There is only a small number of shares yet to be sold at this first price. Take advantage of this opportunity now. Let us send you complete details. Fill out one of the coupons in the corner and mail it today. To be on the safe side, send your order in now:

Spectacular Features in Shares

Stock Market Profits

Marshall Field paid \$625 for his share of a mine that brought him \$60,000 when it was sold.

A quarter interest in the celebrated Constock once sold at \$6000. The mine afterwards produced \$600,000,000 and the stock sold as high as \$1875 a share.

The Tem Boy mine, at Telluride, Colo., was bought in 1890 for \$125,000 and was sold in 1890 for \$1,800,000.

The Independence, at Cripple Creek, ras located by Stratton as a prospect a 1892, and he sold a three-quarter iterest in 1896 for \$10,000.000.

The Dutan mine, in the Rainy river district, Outario, advanced from \$100 as a prospect in 1802 to a \$1,000,000 prop-caliton in 1890.

Somebody even refused to give up \$2000 for the Copper Queen in the early

There were no takers for the Bon-man, in eastern Oregon, now producing \$1,000,000 a year.

One hundred dollars invested in this mine a few years ago is new worth \$250,000, as well as having drawn dividends of \$50,000. Rapid profits accrue when one picks up the string at both ends.

Shortly after location, the Mohawk claim at Goldfield was traded for a mule.

These shares first sold at 10 cents and later at \$20, while Goldfield Con-solidated, the productive pivot of which the Mohawk, has since paid \$14,586,355 on stock-

That cost many but 10 cents a share, on which thay are now drawing down 50 cents a share every quarter. So. also-

Le Roi sold at Bo cents and later at \$140. Tonopah brought 60 cents and went to \$22.50.

Dos Estrellas, 60 cents and sold as high as \$155.

Crown Reserve, placed at 45 cents, advanced to \$6.

Nipissing went at \$4 and sold later at \$35.

Kerr Lake, floated at \$1; brought \$11 later. Hudson Bay, put out at \$5 Bay, put out at 25 cents

Hudson May, put out at 20 cents Went at \$160. HOWEVER, profit determines many things in finance, so that what oc-curs often-Will occur again." Ten dollars invested in Swanses in

Anaconda, that has paid \$55,000,000 in profits, sold to the Bothschilds at \$40,000,000. Crown Point advanced from \$275 to \$1825 a share in one year: Best & Belcher advanced from 60 cents to \$22.50 in one year, while Belcher sold at \$6.50 in 1871 and at \$1550 in 1872, and paid \$15.397,200 in dividends. Idaho Gold Mining has paid 1715 times more than its satire capitalization, The Band in South Africa, for 10 years before the Boer war, produced more than \$400,000,000.

Home Mining sdwanced in seven months from 30 cents a share to \$25. Morris Kenzel, a meruhant tailor at Moscow. Idaho, was forced to lake 5000 shares of Le Rol for a suit of clothes in 1862, but has since received \$60,000 in dividends.

\$60,000 in dividends. A well-known business man at St. Pauf, Minn., had his check written out for \$5000 to pay for a one-fifth in-terest in the Le Roi, but-

His friends persuaded him not to take t. A few months later it sold in Lon-on at \$5,000,000, so that the advice f his friends cost him one mHilon dolof his

of nix triends ceet him the mining doi-lars. Two, men were offered shares in Hecks and Calumet in 1571. One bourht to the amount of \$1000, while the other deposited a similar amount at 5% in a bank, which latter, compounded for 30 rears, netted him \$4404.71. The other in-restment is today worth \$410,000 and has in addition drawn \$1,006,500 as di-vidends, a total value of \$1,533,500. Professor Treadwell, interested in the United Verde, sold 300 shares at \$1 a share to his cousin, Mrs. F. H. Chase, of Banger, Maips. Later he tried to sell her 300 more aber not to buy, saying: "You have already thrown \$100 in

university, is a guest at the Imperial

Plans and Policy

Plans and Policy The original plan of the Com-pany included the sending of a crew of experienced mining engineers and adjacent territory to acquire by location, lease or purchase the rich-est properties possible. Also to establish at Shushanna or such other point or points as would be deemed advisable, a general trad-ing post. Also to establish in Van-couver a financial organization for the purchase and sale of mines, leases and mineral properties. From this you will understand

From this you will understand that there are many avenues of profit open to a conservatively-managed corporation with ample capital.

The Sale of Stock

The price of the first blocks of stock ever offered for sale is par loc per share. This price will be advanced within a few days and progress of the Company and the time to time as warranted by the progress of the Company and the increase in the value of its prop-

Application will be made in due course to have these shares listed on the Seattle and Vancouver Stock Exchanges, thereby offering a ready market when ready to sell.

Stockholders

Stockholders The shares are being distributed all over the country in small blocks along cooperative lines. This is truly a shareholders' company and in order that every stockholder may be kept fully informed regarding the progress of the Company, the value of the stock, etc., the Aetna Investment & Trust Company have agreed to publish a monthly maga-zine in the columns of which will be found every month all the news of the camp and full particulars regarding the Company's activities.

Profits Mr. Frank states that if we can send in a stock of goods this winter up to 3500,000, every dollar's worth arotit of from 200 to 500 per ceat. This is on the trading end alone. The profit in mining claims and mining properties that we operate should prove colossal, but no man dare estimate how much gold we may or may not take out of the ground. The sale of properties which we buy at a low price and sell at a high price should result in large profits which cannot be estimated at this time.

Dividends

It is impossible at this time to forecast with any degree of cer-tainty the dividends this Company should earn. Profits should be im-mense and as a result extremely large dividends should be paid.

Salaries to Officers

At this time none of the directors or officers of the Company are being paid anything for their services. It will be the policy of the Company to pay only for actual services rendered.

Equality

Whather you are a small share-holder or a large one, whether you own 100 shares or 10.000 shares, you will receive the same treatment and your same pro rata share of the profits. There is no preferred stock, no bonded indebtedness. Stock is fully paid up and forever non-assessable, and every share-holder is on an equal basis.

Ten dollars Invested in Swansea in 1860 is now worth \$4500, and has drawn \$3100 additional, while— Calumet and Heela has done better hy returning early investors \$1500 on every \$1, while the stock is now quoted at

Early Stampeders Are Going to Dawson to Outfit for Winter -Novices Should Wait Till Spring Comes

NO MINER IN SHUSHANNA

HAS SOLD HIS CLAIM

"At least twelve square miles of the Shu-manns district have been proven to be the in gold values, but whether the new gold fields extend farther is problematical. It will not be known until next specifies. When in the north I met several miners from the new fields. None of them had sold out their holdings, and many of them intend going to Dewson and three outflitting for the winter."

The speaker was Dr. D. D. Calines, of the Dominion Geological Survey, who is at the Hotel Vancourer. He has been in the north all summer, and was in charge of the pariy of geologists who vinited the Yukon meesuift. He arrived in the city resteriary and is staying at the Hotel Vancouver.

"Then mes who intend to winter in the new gold fields, he continued. "are just going in now. Many of those who were in the first stampede went in without suf-ficient provisions and gear, and have been compelled to go to Dawson to suffit for the solater. It would seem the part of wis-dom for the bestperisoned miner to wait until spring before going in."-From the Vancouver News-Advartiset, Sept. 39, 1915. remittance reaches us too late it
