

FIRST METHODIST TO USE GRACE CHURCH FOR MAIN ACTIVITIES

Taylor Street Edifice to Have Sufficient Services to Comply With Law.

Deciding to hold in abeyance for the present all the tangles involved in the plan to construct a new edifice, the First Methodist church's quarterly conference last night voted to move the main activities of the organization to the Grace church building at Twelfth and Taylor streets.

The quarterly conference of the church, attended by a small percentage of the church membership, however, sustained the proposed move as suggested by the trustees by a vote of 30 to 4.

The move to the Grace church building is considered merely a tactical step in the effort of the church to construct a new building. Legal complications arising from the proposed sale of the First Methodist church property involves the charter prohibition against use of the property for any but church purposes.

The Grace church congregation has been worshipping with the First church people for more than a year, and it was proposed, by uniting the membership and financial resources of the two organizations, to build a great edifice that would be adequate to the growth of the denomination in Portland.

Mr. Paget explained to the conference that if the resolution of the trustees was adopted it would mean a split in the church, some of the members going to Grace and others remaining at the First church. He urged delay, declaring that time would provide a method of erecting a new church by the sale of the Third and Taylor streets property, either by charter in remission of the members or a new act of the legislature which would reduce the vote necessary to carry the building project.

G. F. Johnson, secretary of the board of trustees, declared that Grace church eminently desirable because of the superior church facilities there. A. M. Smith, another trustee, spoke along similar lines.

Mr. Smith admitted that it would be necessary to hold at least one service each Sunday in the First church to comply with the requirement that a Methodist Episcopal church be perpetually maintained at Third and Taylor streets.

Former members of Grace church met at the Twelfth and Taylor street building last night and endorsed the action taken by the First church conference. Rev. C. E. Cline, in a short talk, declared this move the only thing that could be done.

Rev. Benjamin Young, pastor of the First church, then told the Grace congregation he was glad the action had been taken, although it did not solve the property controversies at all, merely holding them open for further action. He urged co-operation and that no severance of relations be allowed to mar the plan.

BULK OF ESTATE GOES TO PORTLAND WOMAN

Mrs. Frances B. Stevens Remembered in Will of Dr. S. A. Robinson.

Word has been received here that Mrs. Frances B. Stevens of Portland, daughter of the late George T. Myers, has been named the chief beneficiary under the will of Dr. Small Adams Robinson of Washington, D. C., who died last week leaving an estate valued at \$200,000. The will was drawn in Portland April 13, 1896.

Mrs. Stevens is to receive all the stocks, bonds, jewelry and household effects of the deceased, the balance to go to his grandchildren and daughter-in-law. Mrs. Stevens, who is the wife of B. F. Stevens, assistant cashier of the First National bank, was disinherited by her father, because she insisted in having Dr. Robinson attend her mother on the occasion of her last illness several years ago, and against the wishes of her father. When her father died, five years ago, she was bequeathed only \$20,000 of an estate valued at \$750,000, and she is fighting now to have the will declared unfair. The case is in the Oregon supreme court.
