Departments Give Assurance;
Auditor Makes Statement
Defending Position.

No more will the purchasing department of Multnomah county be ignored by county officials. County Commissioner Holman yesterday received assurance that all departments would cooperate with him in making the department a success.

County Auditor Martin, from whose office three of these claims rejected were purchased, was quoted as being opposed to the department, but has denied the opposition. This morning he made the following statement:

"It has always been my policy to work for the best interests of those who elected me as auditor, and I have always heartily indorsed any measure for the best interests of Multnomah county. I am not opposed to any system of accounting whereby the county of Multnomah is gainful, and I feel that the people are entitled to facts, and not misstatements, in reference to any transaction.

"The county auditor shall have prepared suitable forms of receipts, and from time to time he shall deliver to the treasurer and to every officer authorized by law to charge a fee, as many official receipts as may be required, charging such of his own time as he may see fit.

Ellis told the police yesterday that his wife had slashed her own throat after they had entered into a suicide pact. The couple arrived here earlier in the week, coming from Cincinnati to celebrate their tenth wedding anniversary.

Ellis' confession came when the coroner asked if he had anything to say. He jumped to his feet quickly and faced the "gentlemen," he said, "I shot my wife
