NORTHWEST APPLES ARE SELLING HIGH IN THE BREMEN, GERMANY, TRADE NEED FOR REMEDIAL

Only Demand at the Moment Is Only One Sale Reported During the Confined to the Local Market and this Is Nor Brisk; Holders Force Buyers to Meet Their Views.

Today's Produce Trade. situation strong. Cheese continues active. Potate growers holding. Hop market stagnant, Veals continue weak, Good demand for apples, Crab prices are easier.

Local potato growers are very firm in their views regarding the price. Ef-forts of shippers to purchase supplies at lower prices than formerly quoted have met with stout and successful resistance from producers. The result is that little business is passing, and this is confined entirely to local account.

Front street wholesalers have been compelled to pay 80 to 85c a cental for their needs of potatoes and growers are showing, but little inclination to accept even these values.

showing, but little inclination to accept even these values.

The outward movement of Oregon potatoes to date this season is unusually small, therefore even with the small crop grown this season the supply is fully up to that of any recent season with the exception of last year when the output was enormous at all American growing centers.

Just the opposite course is being taken by itaho and other interior potato growers of the Pacific northwest. The latter are offering their supplies very freely at 65c a cental f. o. b. shipping points, and with their lower rate by 10c, they are able to undersell coast interests in the markets of the southwest.

Whether the potato price will climb to a dizzy height this season here is a matter that the entire trade has been guessing at. The shortage, while compared with last year's enormous production, is far below the previous season, still comparing the present crop with the average for 10 years the situation is far different.

A very noticeable feature of the potato trade at the moment is that speculative interests are leaving the situation alone. They are not putting up their good money for supplies in order to hold. The only business that has passed this season has been for direct consumptive demand. Taking this view of the situation, it is not the general opinion of potato bayers that we are going-to see such enormous values as some growers believe likely.

EGGS CONTINUE SCARCE

EGGS CONTINUE SCARCE

Supplies of eggs continue very scarce along Front street, and prices are being held firmer at \$20 a dozen for strictly fresh ranch atock. There is a grow-ing demand for storage goods owing to the mability of the trade to get fresh stock.

INDEPENDENT CRABS COMING

The high price forced by a combina-tion of crab shippers of Bay Center, Wash, is likely to be lowered soon as a result of the shipment to this city of quite liberal supplies by independent shippers of that section as well as from the Tillamook-Nehalem country. CHICKENS ARE NOT ACTIVE

While no change in the price is announced, there is less activity noted in the chicken trade along Front street. While in a limited way hans are commanding 154c a pound and springs 16c, the call is more limited.

HUCKLEBERRIES ARE SCARCE Rather short supplies of huckleber-ries have been shown in the local mar-ket during the last few days. While the price is generally unchanged, some in-terests are asking as high as 10c. Some supplies are now coming from Newport.

ONION PRICES ARE FIRMER Onion growers have high-priced ideas regarding their supplies this season. Leading shippers report their inability to interest holders in selling even at \$1.50 a cental f. o. b. shipping points. Inquiries from the east are increasing.

PEACH PRICES ARE LOWERED

Further lowering of peach prices was shown along Front street today when one of the leading houses quoted its best stock at 40 @50c a box. Some were asking a dime more than this, but reported their inability to interest buyers.

FORECAST FOR SHIPPERS

Weather bureau sends the following notice to shippers:
Protect shipments as far north as Seattle against minimum temperatures of about 44 degrees; northeast to Spokane, 22 degrees; southeast to Boise, 28 degrees; south to Siskiyou, 40 degrees. Minimum temperature at Portland to night, about 46 degrees.

PORTLAND JOBBING PRICES

These prices are those at which wholesalers sell to retailers, except as otherwise stated:
BUTTER — Nominal. Creamery cubes, B4c; state creamery, \$2638c; ranch butter, 22c.
EGGS—Nominal. Candled local extras, 40cg.

SPOT CASH FOR YOUR

24 Hours and This Is Understood to Be on an Old Order; English Crop Is the Factor.

FINE LOT MOPS TO ENGLAND.

Fred Elwood, the Sharwood hopgrower with a reputation for quality,
topped the hop market for the scason
late today, notwithstanding the general
weakness in the trade. He sold Mirkpatrick 35,000 pounds of top quality at
27½0 a pound. The shipmant will go
direct to an English brewer, who is said
to take these same hops every season.

With the exception of the purchase of the Loose lot of hops by Kola Neis of Salem at 25c a pound, no business has been confirmed in the market during the last 24 hours. Even 25c a pound is not now obtainable for hops, most of the dealers being inclined to figure the price of best offerings around 23@24c a pound.

price of best offerings around 23@24c a pound.
The truth of the matter, foreigners are not at all interested in the coast hop market at this time. Cables from here to England bring no response from buyers. The same is true as regards Washington and California interests. The trade is simply stagnant.

Evidently buyers on the other side have not yet recovered from the effects of the publication of a bigger English crop than had been generally anticipated. Since the publication all orders formerly here have been withdrawn. It is generally understood, however, that the Kols Neis purchase was made on an order received some time ago.

Growers are getting much more anxious to sell. The unhealthy state of the market recently has caused many to seek buyers in an effort to unload. It is now evident that the recent advance in the price here was pure manipulation which the foreign trade referent

FURTHER LOSS IN WHEAT

Chicago Market Still Under Heavy Pressure: Opening Figures Are Very Low.

Chicago, Oct. 17.—There seemed to be no end to the pressure to sell in the wheat market for the day. Further loss of % to % a bushel was shown at the closing. The market opened severely panicky, with a loss of % c in December and %c in the May. There was a further loss after the opening, then recovery. Broomhall cabled from Liverpool that the wheat market opened with general heavy realizing. Weakness in American cables and decline in Winnipeg, together with continued heavy Winnipeg receipts and the pressure of new Manitoba offers caused the decline. Spot markets were easy, with special pressure in No. I Manitoba, which was 1½d lower. Cargoes were Treely offered at 1½ to 3d decline. Large firms liquidated.

Range of Chicago prices furnished by Overbeck & Cooke Co., 216-217 Board of Trade building.

MARKETS OF GERMANY

Offerings Sell Equivalent to \$1.50; Demand for Grade Strong With Stocks Cleaning Up Nicely.

Things are astir in the foreign apple market with Jonathans doing some fancy stunts as a side attraction. The cable today brought news to the Northwestern Fruit Exchange of this city that the first car of Oregon Jonathans had been received in the German market with much favor. The price paid means \$1.55 a box art here, is a matter of about 20c more than this market has been quoting. The shipment was sent from the Rogue River section and was packed under the rules of that association. These call for but 50 per cent color while those of the Northwestern Fruit Exchange call for 75 per cent. The applea ranged from 133s to 200s.

A real flurry has struck the market for Jonathan apples and stocks are being cleaned up very fast. The price has been advanced and buyers are rather eagerly bidding \$1.56 a box today, but shippers who have the best ideas on the market are holding snug for \$1.60 and feel mighty sure that they are going to get the extra dime.

The strength of the apple market abroad is probably the saving grace of the general situation at Pacific northwest points just now. While eastern speculative interests are holding their price ideas high, because most of them have purchased at extreme figures, there has been but little inclination of late to load up with additional supplies except of the better grade.

The latter is indicated by the fact that the east is clamoring for apples fact, and they distinctive brand names. The Northwestern Fruit Exchange some time ago sold its expected output of "Skookum" to a New York firm at a material advance over what others were asking for similar quality. Now a fight has developed for the finer fruit of the northwest and Boston has come forward with an urgent request that it be given the privilege of purchasing at least 25 cars of this fruit. New York got wind of Boston's inquiry and right away made a request that it be allowed to take any additional cars of this quality that the local interests have to offer. The fight therefore is a distinct recognition of the merits of t

WORLD-WIDE APPLE CALL

All Portions Are Buying Supplies in Yakima Section; Shipments Being Made.

North Yakima, Wash., Oct 17.—Yakima apples are to be eaten this year by almost every nation of the earth. Never before has their distribution covered so much foreign territory. With shipping only just begun, there are already carload lots being assembled for Australia, Scotland, Germany, England and South Africa. The South American trade for Yakima pears and apples has shown strong gains, and there is even a proportion of the fruit to trayel down the west coast. While there has not been much buying yet from the eastern dealer, growers are sanguine of good results and confidently holding for the prices which will make this a successful fruit year. Much fruit will go into storage both here and in the east.

60 PER CENT APPLE CROP

as Much to Offer This Season as a Year Ago.

Nampa, Idaho, Oct. 17.—The apple crop of Canyon county will be about 60 per cent of last year's crop, according to local representatives of the Pacific Fruit Express, who will handle all the shipments. The quality, on an average, is considered much better than last year and growers expect better prices.

The harvest is now in full swing, and the various district fruitgrowers' associations of the county are busy with the packing and shipping campaign. The local association commenced packing yesterday and all available help is being employed. To date only Jonathan, Winesay and Rome Beauty varieties are being packed. They are assorted into fancy and extra fancy grades.

POTATO CROP VERY LIGHT

Low Lands Around Independence Produce Good Yields, but Other Growers Show a Loss.

Independence, Or., Oct. 17.—The potato crop in the bottom lands of the Willamette river in this section is heavy this year. Other sections report good potatoes in the lowlands, but on the ordinary land where potatoes were planted last spring, the crop is exceptionally poor. It will be some time yet before the crop here is dug, as the moist soil in the river bottoms causes the vines to turn to a yellow color very slowly. Some varieties will not be dug for nearly a month yet. At present, however, the weather is very wet, and any attempts at digging potatoes would prove unsuccessful.

Owing to the small acreage and general shortage of the crop this fall, growers who have only a small quantity for sale expect to get as much from the crop as was received last year on a greater amount of potatoes, Last winter hundreds of bushels were feet to cattle and hogs on account of the low prices.

CALL FOR BLUESTEM

rload of Only Fair Rogue River Foreign Markets Having Direct Effect Upon Pacific Northwest Situation; Liverpool Shows a Big Loss for the Day.

> POREIGN CROP ADVICES. Calcutta, India, Oct. 17.—Latest reports confirm wheat prospects as bad, as the recent rain was insufficient.

Eucnos Ayres, Argentina, Oct. 17.—An official report places the acreage under wheat at 600,000 acres under last year.

WHEAT CARGOES LOWER London, Oct. 17.—Wheat cargoes on passage freshy offered at 11/2d to 3d lower. English country markets casy. French country markets weak.

PORTLAND GRAIN RECEIPTS Wheat, Barley, Flour, Oats, Hay

Wheat market prices are generally weak with nothing offering above 77c a bushel for club and 88c for blue-stem, tidewater track basis. Bluestem is holding its own owing to the limited supplies available of offering. The premium today is one of the greatest ever paid in this market and indications seem strong for even a further increase instead of a decrease.

Local miliers are not keen after the Montana wheat. Some has been brought to The Dalles and to Spokane mills, but tidewater interests are seemingly opposed to the importations. According to one miller the wheat is of different grade than that grown in the Pacific northwest and the using of this grain would therefore make a difference in the quality of flour. This, therefore, is opposed by millers for the reason that they are trying to secure a uniform quality each succeeding season.

Markets abroad for wheat were gen-

they are trying to secure a uniform quality each succeeding season.

Markets abroad for wheat were generally weaker, and lower again for the day. Liverpool showed another big loss in the price of futures, and there is not the slightest improvement in the cargo situation owing to the very liberal offering by Canada ande Russia. Tidewater Canadian receipts are breaking records, bwing to the desire of growers there to unload.

Today's general grain market range: WHEAT—Nominal producers' prices, track basis: Club, 77c; milling bluestem, 88c; Turkey red, 83c; fortyfold, 78c; red Russian and hybrids, 76c; valley, 78c bushel.

BARLEY—Nominal producers' prices, track basis: Feed, \$24; brewing, \$25@25.50; rolled, \$25.50 per ton.

OATS—New, feed, \$25; milling, \$25.50 per ton.

Idaho Has Little More Than Half ROCK ISLAND HITS LIST

Both Common and Preferred Show Loss After Much Selling Pressure During Trade.

New York, Oct. 17.—Weakness in Rock Island shares today hurt the stock market, although the general trade closed with an advance over yesterday. Rock Island was 1½ points off for the common and a similar amount for the preferred.

Union Pacific was generally sluggish and closed with only a fractional advance for the day.

American stocks were irregular on the London market today.

PORTLAND LIVESTOCK BUN

Select Cattle Are Firm. Sales of cattle which arrived late yes-terday afternoon were made at firm prices for extra good quality. Steers brought as high as \$7.95 in carload lots; in fact, a number of cars went at this

in fact, a number of cars went at this same price.

There were only a handful of new arrivals in the castle market for the day and the general trade situation continues favorable.

At Chicago there was a steady tone in the cattle market for the day.

Kansas City cattle market ruled steady at former prices.

South Omaha cattle market was steady with top steers at \$9.10.

Today's general cattle market range:
Best steers.

\$7.80@8.00
Ordinary steers.

7.25@7.50
Best heifers.

7.00 Best heifers st cows 4.50@5.00 stags bulls light calves

Practically all of the very limited arrivals today in the mutton yards at North Portland consisted of lambs, which were not of very good quality. The market for mutton continues rather firm with former prices still offering.
There is quite a liberal demand from small killers that is not being supplied.
At Chicago there was a steady tone in the sheep trade for the day.
