

VICTIM OF DUKE'S MACHINE IS DEAD

Driver, Released on \$5000 Bonds, Will Be Prosecuted by State.

(United Press Special Wire.) Seattle, Wash., Oct. 17.—Thomas G. Simmons, who was injured when Lawrence Duke, son of Brodia Duke, the tobacco king, ran down and killed Henry G. Parr Wednesday night, died this morning at 10:30 o'clock, never having regained consciousness. Alfred G. Hoglund, the third victim of the accident, is still at a hospital near the scene of the wreck. He is reported to be improving, but not yet out of danger. Duke was released from the county jail last night on bonds of \$5000. Prosecuting Attorney John P. Murphy announced today that a charge of manslaughter would be filed against Duke at once. This is Duke's second run-in with the law in which his automobile has figured. Several months ago he collided with a sprinkling cart and did considerable damage to both cart and automobile. He was charged then with driving an automobile in an intoxicated condition, but the case never came to trial and was permitted to drop.

RABIES-CRAZED CANINE FRIGHTENS PEOPLE IN PORTSMOUTH DISTRICT

Continued From Page One. street, where it killed two chickens, crippled two ducks, and bit a fox terrier. The dog proceeded to a pipe in the rear of Wyatt's Peninsula Lumber company hotel and bit six hogs. Wyatt himself was snarped. He said the dog looked like a Collie. Its next victim was Will McMillan's brindle bull pup at Syracuse and Hodges streets, about eight blocks away. The dog then chased some chickens near Mack's farm at University place, a half mile away, appeared on the property of J. J. Reynolds and of Mrs. Devereaux, and was finally killed at Yale and Van Houten streets, two blocks from the scene of its first ravages. Fearful that other dogs may have been bitten which will in turn develop rabies and be a source of danger to the people, particularly little children, of the neighborhood, every possible precaution is being taken to prevent a recurrence of another depredation. Yesterday a dog belonging to a truck driver named Oman was shot at St. Johns and search begun for other dogs that may have been bitten by the dog belonging to Rev. J. E. Murphy, that bit a number of little children early in the week. Dr. Murphy's dog was declared to have been suffering from rabies by Dr. Calvin S. White. Besides Rev. Mr. Murphy's little daughter, little Esther Markwart, daughter of Mr. and Mrs. Julius Markwart, and the 16-year-old daughter of Night Police Officer Joseph Jones, Jack Holland, a blacksmith in the employ of the St. Johns Lumber company, is receiving the Pasteur treatment at the Portland state health office. While Holland was walking on the street with his

hands in his pockets, the dog sprang at him and bit his hair. The treatment administered twice during the three days and then daily for a week. At the last St. Johns meeting City Attorney Gattamora ordered to prepare an amendment to present municipal ordinance to require muzzling all the year instead of from June 15 to September 15, and the amendment will be passed at Tuesday's meeting. Dr. White's declaration that there is an epidemic of rabies in Multnomah county is substantiated by the fact that seven cases are now undergoing treatment. This is a greater number than there has ever been before at one time in the whole state. Five are being treated at the state health office, one from Burlington and four from St. Johns, while the two additional cases are being treated at Burlington by private physicians, who buy their virus from manufacturing chemists.

The Unaccented Vowel.

Robert J. Menner, in Atlantic. In all unaccented syllables, the American pronunciation is characterized by a general disregard of the vowel. The vowel in the final syllable of "profligate," "target," and "sprit" often has in ordinary conversation the same phonetic value as the "u" in "Farragut." Though it is perhaps pedantic to give such final vowels their full value, to make no distinction at all between the unaccented vowels is certainly unrefined. That the endings "ment" and "ness" should be allowed to degenerate into the vague "munt" and "nuss" is really deplorable. This negligence is even more noticeable and inexcusable in words at the beginning of words. The ordinary pronunciation of "enough" and "opinion" might be represented by "un-pough" and "uppinion," though the first syllable is, in fact, nothing more than a grunt. No distinction is made even between such confusing words as "affect" and "effect." The Sunday school children sing invariably of "Jerusalem the golden," and loudly praise the "blessed

Trinity." Let those who pride themselves upon their pronunciation beware of the unaccented vowel, lest this one weakness in their speech bewray them! Richard Grant White declares, unhesitatingly: "It is in the delicate, but firm, utterance of the unaccented vowel with correct sound that the cultured person is most surely distinguished from the uncultured."

For feminine motorists a new veil has a sheet of mica set in the front to save wearing goggles.

Praises This Remedy for Lung Trouble

Many people are led to believe that Lung Trouble is a disease which cannot be conquered. This is wrong, as many have fully recovered their health. A change of climate has helped some, but many more have been restored to health by breathing the freshest air, eating well cooked wholesome food, being temperate in their habits and adding the tonic qualities of Eckman's Alternative, a medicine for Throat and Lung Troubles. Investigate this case: Bowling Green, Ky., R. No. 4. "Gentlemen: The spring of 1908 I had a severe cough for six months. I tried all the medicine that my doctor recommended to me, but no results came for the better. I had night sweats and would cough and spit until I got so weak I could hardly do anything. But, at last, James Eschering of Glasgow Junction, Indiana that I try your medicine. In one week's time there was quite an improvement in my condition, and after I had taken several bottles I felt as well as ever in my life. I firmly believe that Eckman's Alternative will relieve any case of lung trouble if taken before the last stage."

(Friday), A. C. BETTERTHORTH. (Above abbreviated; name on request.) Eckman's Alternative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stubborn Colds and is upholding the system. Contains no narcotics, poisons or habit-forming drugs. Sold by The Owl Drug Co., Write the Eckman Laboratory, Philadelphia, Pa., for booklet telling of recoveries and additional evidence.
