The new administrative code provided for the monthly inspection of bridges and ferries and to employ an expert would cost the county a large sum. Mr. Holman asked that the engineering department of the city make the necessary inspections.

PORTOLA GIRLS ARE APPROACHING CITY

Rosarians in Full Uniform to Receive the Visitors Royally.

Tomorrow the Portola girls are coming to Portland and the Royal Rosarians will be their hosts. George Hyland's report of the attention given by San Francisco business men to the entertainment in Portland of the young women from the Bay City has impressed C. C. Chapman, secretary of state of the Rosarians, with the necessity for a very large representation of the white uniformed boosters.

The Rosarians are to assemble at the Union depot at 1:45 p. m. Saturday, in full Rosarian uniform, and escort the Portola girls to the Multnomah hotel after the arrival of the train at 2 p. m. They will assemble in full uniform at the Multnomah at 8:30 p. m. and escort the Portola girls to the Hotel Oregon, where a banquet will be served, followed by a reception and dance.

Sunday afternoon at 2 o'clock the Rosarians will gather at the Multnomah in civilian attire for a trip to the Automobile club, where dinner will be served. Monday morning there will be a seeing-Portland trip or department store inspection, optional with the girls. At noon the Multnomah hotel will be host to the young ladies at a luncheon to which Rosarians are invited.

Drinking Too Much?

A man eats too much! Does his wife who cooks his meals get the blame? Or does the restaurant man whom he patronizes have to stand up under popular criticism?

Let a man buy a bottle of wine or liquors. He takes it away with him. The liquor merchant knows not where or when he drinks. If he makes a pig of himself and drinks too much, does he get the blame? Oh, no! The liquor merchant must shoulder that.

It is a fact that for every person who drinks too much there are several who make gluttons of themselves in eating.

Both of these classes of men violate the laws of health and nature. Both suffer from it sooner or later.

Wines and liquors are not made to "fill up" on. They are produced for tonic and medicinal purposes. Rightly used they brace up tired and overworked nerves, give new strength to invalids, and they are invaluable in ailments like colds, coughs, etc.

We cater to this legitimate demand. Accordingly we sell only pure goods, and we never knowingly sell to the man who overdrinks.
