

TENTATIVE PLAN OF SALARY STANDARDIZATION IN SOME CASES COMMISSIONER-BIGELOW ASSERTS UNJUST CUTTING CAUSES HIM TO WITHHOLD APPROVAL.

Declaring that the salary standardization system in the present form, which fixes classification for all of the 1500 employees, was distinctly unfair to members of the employes, C. A. Bigelow, commissioner, this morning in the council meeting refused to vote for an emergency ordinance establishing the system, and as a result that ordinance will not come up for final action until next August 1st. In the time intervening an attempt is to be made to place the classification on a different basis.

When the measure came up for action this morning Commissioner Brewster asked that an emergency clause be attached making the ordinance effective immediately if passed. Commissioner Bigelow then stated that he was not ready to vote on the measure, pointing out many examples which he deemed unfair. These were cases where salaries had been cut.

System Must Be Changed.
"The more I go into this standardization," said Commissioner Bigelow, "the more I think it is unfair. I positively will not vote for it in its present shape and if it is not on a fair basis when it comes up for a final vote I shall vote against the ordinance adopting it."

Commissioner Bigelow stated that from what he knows of the classification it seems that in some cases personalities had been brought in when the final selection was made. He urges classification fixed solely on efficiency and not on personality.

Commissioner Dieck urged the adoption of the system immediately and stated that if there were to be changes in salaries these could be made later. He then introduced an amendment to the classification to be made by the department, he left as it is at present. His salary had been previously ordered out from \$1100 to \$1800 a year.

The amendment coming for a vote was carried over the dissenting votes of Commissioners Daly and Brewster. Commissioner Daly stated that the action was just what was trying to be avoided, as it meant raising his salary and the raising of others would cause trouble.

Commissioner Bigelow also stated that he was opposed to the three-year system for the fire department as proposed. He further stated that the chiefs were not altogether in favor of the scheme. Mayor Albee stated that the chiefs had agreed to the idea and had told him they regarded it as a good plan.

GREENE AND RITZ NOT IN TURBID RIVER TRAVELING MAN'S MEMORY APPARENTLY AFFECTED BY RUN- AWAY EXPERIENCE.

(Special to The Journal.)
Grants Pass, Or., Oct. 18.—William E. Greene, the representative of the Blake, McCall company, of Portland who disappeared following a runaway on the train he was riding near Brownville Wednesday, and who was found in this city last night, left for his home in Portland on train number 14 this morning.

Greene arrived in Grants Pass Thursday, but his memory of the circumstances following the runaway on the banks of the Calapoopa river seemed very indefinite, though before leaving his mind was searching. He was found by K. E. W. Kosh, a fellow traveling man, but at first denied that he was Greene and seemed to have no recollection of events since the accident.

He purchased a ticket to Eugene, saying that he recalled the runaway, a wheel of the buggy breaking down at the Calapoopa ford. With the breaking of a line he lost control of the team.
