IS FINDING GOOD CALL

ight in the South Creates a Market for Northern Product; Several Cars Were Shipped This Week by Valley Growers.

Today's Produce Trade.
Eggs very firm.
Chicke's not so firm.
Cheese remains active.
Potato supplies short.
Cabbage going south.
California tomatoes come. Various prices for grapes.

Apple demand quite good,
Meat markets are unchanged.

Onions are firmly held.

Oregon cabbage is finding a steady and regular demand from California these days. During the last week two more cars were shipped from Willamette valley points to California, one car soing to San Francisco and another to Los Angeles.

coing to San Francisco and another to Los Angeles.

The extreme dry weather in the south is causing a great shortage in cabbage offerings there, and California interests have been compelled to come to Oregon for their needs of first class quality. As long as the dry weather continues there will be an excellent call for northwest supplies in the south, but a few rains will quickly ruin the market there for the northern product.

Considerable strength is shown in the local market for cabbage on account of the withdrawals for the outside. This is forcing the price rather high here, and crated stock of best quality is holding firm at \$1.25 and \$1.50 a cental.

Only a few growers are offering supplies at the moment, and they are holding their prices very firm. As long as the outside wants the supplies a similar condition is expected.

CHICKEN TRADE IS EASIER

There is a somewhat easier feeling in the chicken trade along Front street, and prices are slightly lower. While the general market is not lower, some cleanups of hens have been reported down to 15c a pound.

TOMATOES FROM CALIFORNIA

Although local offerings of tomatoes are still quite fair, some supplies are being brought in from California. The shipments are in lug boxes, and sales are reported at \$1.50 today.

Price Is Moved From \$1.50 to \$1.60 and a Further Advance of a Nickel Is Being Asked; Trade Is Ruling Rather Brisk at Present.

The market for Jonathan apples is coming. Everywhere there has apar the greatest of the season to date. great has been the call for this So great has been the call for this variety from the middle west that the Northwestern Fruit Exchange forced an advance of a dime a box in the price—and got it. This clearly demonstrates that the market is still in a safe condition. The same selling agency has advanced its price another nickel to a dime. Sales were made today at \$1.60.

"I believe that the present strength of the demand for Jonathans justifies this last advance in the price we are asking," says W. F. Gwin, head of the selling forces of the Northwestern Fruit Exchange.

asking," says W. F. Gwin, head of the selling forces of the Northwestern Fruit Exchange.

"We have been in a position this season to obtain far better prices for shippers than other organizations for the reason that we have better quality to offer as well as requisity established connections throughout the world. New organizations with men little acquainted with the fruit markets of the world are always liable to find themselves selling their fruit for far less than it is worth.

"Ve have believed all slong that the apple market justified higher prices than some of the organizations were asking. We held out for these prices and in practically all instances won out. The grower is entitled to get all that is possible out of the sale of his fruit and this is one of the years when he should be able to harvest some "coin." Foreign markets for American apples continue in good condition, especially for red stock. The Jonathan is finding a ready demand in Europe and late sales there indicate still brighter prospects for the future.

There is one thing that growers in many districts should learn—that is to play fair with the buyer. Quality should always be up to expectation and contract, or else the time is coming when the growers themselves will suffer. Quite a few reports of failure to keep apples up to contract grade have been received from the east and it is up to Northwest growers to see that their reputation is not ruined by such methods,

FARMERS ARE PREPARED

Have Crops All in Bins and Silos; Good Production of Corn in Polk County.

Various prices are today ruling in the pear trade. Sickles are scarce and are quoted at \$1.50 @ 2.00 a box. Anjous are selling at \$1.00 @ 1.25, while fall butter and Dutchess are ranging around the same figures.

HUCKLEBERRIES ARE HIGHER

About the only huckleberries now coming are from the Newport section. Supplies are scarce, and best quality is quoted at 12½ a pound. Shipments from the north have practically ceased.

POTATO SUPPLIES LIMITED

Supplies of potatoes in the local marget are rather limited. The trade has been a remarkable increase in the production of cream in Polk county. At a present there are many who are drawing monthly cream checks. As proven by the Monmouth is and Independence creameries, there has been compelled to pay around \$1 a sack for good supplies here. This means practically 90c a cental. Yakima is freely offering to land supplies here at that figure in carload lots.

GREAT SCARCITY OF ALFALFA HAY IS SHOWN AT INTERIOR POINTS METHOD OF AMATEUR

Even Yakima and Stanfield Have Practically None to Offer at the Moment and Values Are Firmer in the Portland Market.

WHEAT CARGOES DULL London, Oct. 18 .- Wheat cargoes on passage English country markets quiet.
French country markets steady.
PORTLAND GRAIN RECEIPTS

There is a very-firm tone in the hay market. Even such leading growing district as Yakima and Stanfield are unable to make further offers of supplies to the outside markets. One of the leading livestock and grain men of the latter section wrote a local dealor that supplies were extremely hard to secure; in fact, he was not able to purchase a sufficient supply for his livestock feed needs.

There is a quiet tone all through the grain trade generally. While there was a slightly improved tone abroad today, still the general situation is not better so far as wheat is concerned.

The oats market is stagmant and there is practically nothing passing in the barley trade at the moment.

J. H. Klosterman & Co. of this city report the condition of the hay market as follows:

as follows:

"Marked firmness has developed in the market for alfalfa hay. Within the last four days the price on alfalfa has advanced in the country 50c per ton, and offerings from the interior are daily falling off. Reports received from stock feeders in sections on the O.-W. R. & N. where alfalfa is heavily grown, are to the effect that alfalfa has been practically all bought up, and they are experiencing trouble in buying hay of sultable quality for feeding. Where six weeks ago alfalfa could be purchased for 35 to \$5.50 per ton in the stack, growers are now asking as high as \$5, and feeders are being forced to purchase at higher prices in order to accommodate their needs.

"In, the Walla Walla bountry ship-

commodate their needs.

"In, the Walla Walla country shipments of alfalfa are going to northern Idaho points at prices above those afforded by the coast markets. So fai as is known, none of the southern Idaho alfalfa has this year been shipped west, the total surplus being taken by eastern purchasers. Several shippers in the Yakima country report that the crop of hay has been entirely sold and is nearly all shipped out.

"With the above conditions in effect at the opening of the alfalfa season in the northwest, the outlook is for a short supply throughout the season, and it is fally expected that a sharp advance will quickly come in the price of this variety

Chicago Oct. 18.—There was a sharp advance at the opening of the wheat trade today. December started with a rise of %c, while the May was up %c. Closing figures were %c above yester-day for December and unchanged for

day for December and unchanged for May.

The advance at the start was due to it the leas favorable report of the total acreage in Argentina. This caused short covering, but after the start the fright of shorts disappeared.

Bromhall cabled from Liverpool that the steadiness in Winnipeg yesterday and the forecast of smaller American shipments this week, as shown by Bradstreet's yesterday, caused some covering at the opening. Later there was an advance with continued bad reports from India and an improved demand from the continent and firmer European new crop offers. Towards midday there was a slight price recession on the free offers of Manitobas and expected liberal American shipments to Liverpool, aggregating about 1 loads.

RECORD SALE OF HOPS NOW REPORTED AS A REJECTED PURCHASE

Lot Reported Sold at 2714 Cents Is Now Said to Be a Deal Closed Some Time Ago and Rejected; No Orders Now in Sight.

It developed today that the record hop market price reported yesterday for the Elwood lot at 274c a pound was not a new transaction, but was made several weeks ago. It is understood that the buyers rejected the hops when the market went down, but later came to the conclusion that they must take them in The report therefore is somewhat out of line with latest conditions.

The market for hops today is extremely weak. There is a general lack of business in sight. Leading interests are now quoting hops no higher than 24c a pound for best, and say they have no orders on hand at the moment even at this.

Foreign conditions are weaker, and

at this.

Foreigh conditions are weaker, and there is a general showing of weakness, One local dealer today received the following cable from London: "Market weaker with declining tendency." This was about the only scrap of information obtainable from the other side, there being a general inclination among the trade to ignore offers of hops from this side.

McNeffs Buy Hops. North Yakima, Oct. 18.—McNeff Bros have purchased 309 bales hops from the Reservation Produce company at 25 cents. Hops remaining unsold here are 7000 bales.

Stock Market in New York Is Aided by Buying Movement; All Are Gazing at Washington.

New York, Oct. 18.—Covering movement for stocks was resumed with shorts being the principal buyers. The Mexican news was construed as being somewhat more favorable, though nothing definite really transpired and in connection with the proposed banking and currency legislation the Washington advices suggested that the disposition is becoming more pronounced on the part of the framers of the measure to accept the counsel of those whose experience in banking affairs and whose knowledge of economics have prompted various suggestions and many alterations.

Sentiment in eastern financial circles Sentiment in eastern financial circles is generally governed by action of the stock market, so that the rally in quoted values which started yesterday had produced, at least on the surface, a more cheerful feeling though there are no indications of the upturn in values being anything more than a natural reaction following a state of depression during which moderate support has been tendered.

HOOD RIVER HAS ANTI-RECALL ORGANIZATION

Hood River, Or., Oct. 18 .- A mass meeting of the anti-recall citizens of Hood River was held at the Commercial club last night and active measures were taken to inaugurate a campaign for the defeat of the recall of County Judge Castner and Commissioners Mo-Judge Castner and Commissioners Mc-Curdy and Putnam. It was estimated that these present represented fully 70 per cent of the taxable property of Hood River county. The Anti-recal league will open headquarters in the city and an active member will be placed in charge to manage the affairs of the campaign. Dates will be ar-ranged and public speakers will be se-cured to hold mass meetings at each of the districts in the valley to discuss the the districts in the valley to discuss the issues involved.

Issues involved.

The promoters of the recall in turn welcome the campaign and have estimated that they will be able to carry the county by at least 250 majority. The recall petition that has been filed carries approximately one-third of the names of the legal voters in Hood River county. A mass meeting will soon be held by the recall petitioners to name candidates for the office of county judge and commissioners.

Banks Has Fire. Forest Grove, Or., Oct. 18.—J. M. Miller's saloon and residence at Banks, six miles north of here, burned last night with a loss of \$8000, partly covered by insurance. A ton of flour and 25 cords of wood were part of the loss. Miller's saloon had long been a mecca for joy riders from Hillsboro and Forest Grove.

Reed's alleged offense consisted of making a fake arrest of a Mr. Parker, connected with the "Modern Specialisis" at Second and Morrison streets, because Parker was spracticing without a license. On the stand yesterday afternoon Reed declared that he had been hired by physicians of the state medical board to get evidence against Parker so that he could be prosecuted for practicing without a license.

Dr. A. P. Smith, formerly occupied the quarters at Second and Morrison, where the "Modern Specialists" are now located. When he moved out he left a big sign over the door bearing his name, and a smaller one painted on the office door.

According to the testimony, Dr. Smith found that his signs were still being used, the "Modern Specialists" working under his name.

Witness Has Disappeared.

Because the evidence was considered not sufficient against A. C. Snell, held on a statutory charge involving a girl under 16 years old, the charge against him was dismissed yesterday by District Judge Jones with the approval of Deputy District Attorneys Jones and Delch. The leading witness against Snell has disappeared.
