EDUCATION HAS RUINED INDIANS, THEIR LAMENT

At Denver Convention Cheyenne Chief Longs for Old Days Before Whites

(United Press Leased Wire.)
Denver, Colo., Oct. 29.—Education and the "refinements of civilization" have ruined the life of the Indian, if he had never tried to learn the white man's ways or read white men's books, he would have been happier.
These were the sentiments expressed in an interview by Chief Roman Nose of the Cheyenne tribe, who is here attending the first annual convention of the Society of American Indians. Roman Nose as a boy graduated from a white man's college but returned to his tribe in Oklahoma and forgot his education until he can speak English with difficulty.
"I wish I could have lived my life the old Indian way," he said. "We were free before and strong and happy. I want to see a real conference of all the Indians somewhere. Then they should make a stand for themselves and say they would govern themselves once more. I do not want to be an American citizen. I want them to rule themselves—to have their own nation."
"When Indian children who go to white men's schools return to us they are not Indians any more and they are not white. They are something that should not be. They cannot be white and they look down on us old Indians."
"Now we are weaklings. Reading books has made our hands so that they are not fit to use weapons. I learned to read, and see, I am blind in one eye because of it. I learned to write, and my hand is weak because of all those years I spent shut up in the white man's school room."

RIVAL CONTESTS RIGHT OF CARNEGIE TO TITLE

London, Oct. 29.—Andrew Carnegie sailed from Scotland last week fondly believing he could claim the title of Laird of Skibo without fear of challenge, owing to the recent death of the elderly Laird, E. C. Sutherland, who was always addressed as "Mr. Sutherland of Skibo."
But the Laird's son has now announced he is to be addressed as "Mr. Sutherland of Skibo," and challenges Mr. Carnegie to prove his right. At the same time the young Mr. Sutherland of Skibo has begun an action against Carnegie to recover Skibo castle.
The young Laird alleges that Carnegie bought the property, which had for years been in the Sutherland family, from the bank with which the late Laird did business, and that the transaction was similar to the business ethics of the late "Mr. Micawber."
