Wilson's Diplomacy Precedent.

Portland, Oct. 20.—To the Editor of The Journal.—In the matter of the Mexican embroglio, some of the foreign governments are beginning to show symptoms of "diplomatic colds." They are now beginning to hedge from their prements are observed by political governments. A good definition of the phrase "political government" is as follows: "A government wherein the courts recognize as legal to the prement of Hurste as the courts recognize as legal to the prement of the prement of the phrase "political government" is as follows: "A government wherein the courts recognize as legal to the prement of the phrase "political government wherein the courts recognize as legal to the prement of the phrase "political government wherein the courts recognize as legal to the prement of the phrase "political government as a property of the prement of the phrase "political government as a property of the prement of the phrase "political government as a property of the prement of the phrase "political government as a property of the phrase "political government as property of the phrase "political government a mature recognition of Huerta as the head of the de facto government of Mexico, and President Wilson's patience, tact and foresight have established this ments are necessarily class governments, due to the aforesaid recogniprecedent in the conduct of diplomacy, tion, and depend on the civil officials that a defacto government in this en-What's the use of spending great sums on publicity, if we are going to keep the higher institutions of the state in turbulence and turmoil?

EDUCATION FOR FARMERS

ENATOR HOKE SMITH of Georgia has announced his intention to wash his agricultural.

tention to push his agricultural with the standard of the ancient Gauls. tention to push his agricultural extension bill through the sentex at at the earliest possible moment. This measure has been described as one of the most valuable pieces of constructive legislation that has been before congress in the past fifty years.

The purpose of the bill is to carry directly to farmers of every state and every county the educational advantages which are now limited, in large part, to students at agricultural colleges. The aim is to put into practical use the great wealth of scientific knowledge of farming which is now available to a comparative few in many of the states.

I tention to push his agricultural colleges are inserted fauls. They seem to view the present Mexican are inserted fauls. They seem to view the present Mexican in the past standard as they depicted the standard of the standard of the standard of the standard of the standard as they depicted the standard of the standard as they depicted the standard of th which is now available to a comparative few in many of the states.

The bill provides a fixed annual appropriation of \$10,000 to each state and further conditional appropriations to be apportioned on a basis of rural population. The conditional appropriations will begin with a total of \$300,000 a year, increasing by that amount annually until a maximum of \$3,000,000 is

PERTINENT COMMENT AND NEW

SMALL CHANGE

Perhaps the only wood use to which that new Arctic continent could be put by Russia would be to send all its rulers up there permanently. It is unlikely that in this country Mrs. Pankhurst will be considered more than one tenth as important a personage as she supposes herself to be.

Whether higher salaries for public employee are deserved or not most votors are against them, as they will show at the first opportunity.

A Washington state man, aged 113 has a son 86, who has a son 67; but what of the other three younger generations that should be in the story?

A piece of good news, if true, though small and of slight importance, comes from Paris—that Jack Johnson will never, never again set foot on American

From various small items, one can readily believe that King George of England must be a very unhappy man— and this not altogether because he is a

IN BRIEF

ELIGHTS

One of the obstacles encountered by the good roads movement is mentioned by the Rogue River Argus, which says: "We are very anxious to have good roads. We are very anxious to have good roads at no expense it goes along. A man comes along and puts up a guide board at no expense to us and before the next morning some hoodlum tries to tear it down. It is about time that some of the scapegraces be put where they will learn something."

URBAN RAILWAYS TEND UNDERGROUND

local standpoint. They are typical of demands made in other cities where the elevated system is in use. In Chicago, where elevated lines cover all sections where elevated lines cover all sections of the city and center in a downtown loop, affording mere convenient and more rapid transit than would have been possible through dependence on the surface lines, there is unceasing popular clamor for the removal of the unceasing the contract of the contract of

Mr. Wylie's Attitude Criticised. Verboort, Or., Oct. 20 .- To the Editor The Journal Taking notice of a communication dated October 14, in The Journal of October 16, in which one E. express an estimate of the estimable

ir. Wylis. "Towering geniuses are far above the Mr. Wylie. fast rules of grammar," says Mr. Wylle, Judging from the learned gentleman's own grammar he must be a genius him-took 40 acres with the self of the highest order. Just think of a man charitably sniffing! There's originality to begin with. We don't know what Wylle may be by extraction, but he seems to have a strong conten-tion against the Irish, and that may be he result of his deep learning and wide

charity. Now, as to the grammar part, that might easily be settled in favor of Shakespeare, for who knows but it was some towering genius of a printer's missome towering genius of a printer's mis-take? I opine that Wylle must possess a chronic temper against his Irish neighbor, otherwise he should be con-tent to indict the Hibernian only for his "most unkindest out of all." We know J. Hennessey out here, but we know of Mr. Wylle only by his contribu-tion to The Journal, and judging by what we know, we would bet 10 cents that J. Hennessey knows more about the Lord's Prayer than Wylle does about Lord's Prayer than Wylle does about "Home Rule." J. VAN LOM.

YOUR MONEY

By John M. Oskison,

Smith was the head of a family There were Mrs. Smith, one boy of ten, another of seven, and a little girl of

failure is written clear across history's hers to have a better opportunity, if pages.

If politics cannot make good in 5000 get on. And they would get on faster, she decided, if they were educated better the use? If the old house is unfit and cannot be made fit, build a new one. I will show you the design. If you and like it show it to others until society and like it show it to others until society will build a house or government after lege for about 13 years. But the real strain on the family resources would possible, than their father had had to strain on the family resources would not come until the oldest boy left the not come until the oldest boy lest the public school and the high school.

So much, Mrs. Smith figured out, and the she set about creating in her families are until the set about creating in her families are until the pitcher. then she set about creating in her family a conviction that every member must help to build a savings fund for the definite purpose of sducating the children. "Monday has always been wash day." said Mrs. Smith once. "Now, in this family let's make Monday bank day." Every Monday one of us must go to the savings bank with something to put in. "Til be the messenger for the first year, and every time I go to the bank I'll take one of the children with make Maybe next year Daddy can manage to go, and he'll take Tom with him. And by the time Tom goes to high school he can take our Monday savings to the bank."

"I came from the state hey have to pry to ar," said C. W. G ment across the may to not is now located. At that a stock ranch. The owner cell it at \$50 an acre. It n't the dearness of the land but the

people who had failed to make go placer mining with crayy to get east. They decided that California been overestimated and would never amount to anything. I reckon it is as Father Clinton Kelly says: 'It is lucky our foresight is not so good as our hind-sight for if it was we would all be rich and that wouldn't be good for us.'

'I came to Portland in February, 1862.

That spring Pat and Nick Simott and myself walked from The Dalles to Flor-ence, Idaho. We didn't stay there long. The two Sinnott boys came back to Pert-land and leased the old Columbia hotel Nick soon went back to The Dalles where he rented the Umatilla house where he rented the Umatilla house which he ran for many years. It is his

congress. 1
"I leased a claim on Meadow crewbere I made \$20 a day till it ran of I came back to The Dalles to get wo for the winter. The Oregon Steam Nagation company were building a portroad from Celilo to The Dalles. I go job with them as steward in charge of their mess house. I had over a hundred men to feed. I worked from 4 in the morning till 10 each night. A man named W. L. Brainard was roustabout. He sawed and brought in the wood for me

Canyon City and got a mining claim, We struck ground so rich that we got as high as \$9 on the point of a shovel. The claim was 'pockety.' There were four of us who owned it. We took over \$1400 of coarse dust and nuggets from less than 14 square feet of bed rook. When I had something over a thousand dollars in dust I sold my share for \$800. Brainard held out for more and they paid him \$2500. I left Canyon City just at the time Phil Metchan came. He started a butcher shop and prospered. "The winter of 1863 found me back in Portland. That was 50 years ago and I have been here ever since.

"W. L. Brainard, my partner, came here also and together we bought in the fall of 1864 160 acres just east of Monts villa. Rev. Lewis of the Taylor Street Methodist church had owned the place. He put up a well built seven room house that cost him \$1500. He had 36 acres cleared, a good well and 600 fruit trees set out. He borowed \$2000 on the place from Asahel Bush, the Salem banker. He could not pay when the mortgage came due so it was foreclosed and we bought it from Bush for \$2000. Lew Parrish was the real estate man who negotiated the deal. It was the first sale of farming land he had made, and his firm is still in business.

"When we bought the place Brainerd J. Wylie makes an attempt to severely and myself were both unmarried but criticise that well-known student of within a year I married Minerya A. Gil-Shakespearean English, J. Hennessey fam, the daughter of Captain N. D. Gil-Murphy, because the said J. Hennessey liam. He had 320 acres on the north fines fault with the grammar of Shakespeare, a hope you'll take it not amiss if I what is now Sixtleth street on Mount Tabor for one-half mile eastward and a mile north of the Base Line to the section line. He bought it in 1853, paying

"Brainard and I divided the place. I took 40 agres with the house on for my share and he took the remaining 120 acres. He boarded with us till he got

married.
"Ten years later people used to say that mine was the best improved 40 acre farm in Multnomah county. By 1874 I had four children and my wife and I wanted them to be near some good school. I sold my 40 acres with its orchard of 2000 pear trees and my other improvements for \$5000. I paid \$4200 for 40 acres owned by J. S. Newell, the father of W. K. Newell, the fruit expert. It was 40 rods wide and half a mile lt was to rods wide and hair a mile long and lay between Fifty-seventh and Sixtieth street on the west slope of Mount Tabor. I later sold two acres of this to the school board for \$2000, and they built the North Mount Tabor school

on it.
"In those days I knew every family
living east of the river. Today I get on
the Mount Tabor oar and I rarely see a
face I know."

Pointed Paragraphs

The less you say the more it counts Platonic love, like perpetual motion is all right as a theory-but it w

work. Some men will pay a \$50 cigar bill without a murmur—and then get real fussy over a \$2 bill for gas.

The summer girl who can keep half a dozen young men up in the air at once is the real thing in jugglers. If you think the average woman is

weaker minded than the average man, you are entitled to another think, Perhaps he is just that, Alonzo, but we wouldn't advise you to call the manager of a swimming school a dive

keeper.

The chestnut trees of this country may soon be extinct but unfortunately the jokesmiths are not dependent

them for their supplies. We are not surprised that a man gets nervous at his own wedding. It is probably the first time he ever saw all the bride's kin lined up.

The Woman's Page

The Journal each evening pre-sents a number of striking features. Many of them are of exclusive interest to wo-ment others are of general

They all are prorth while. Cultivate this daily feature page; you will find it prof-itable reeding.
