there a widow in this city or any other place in the United States that can sup-port two children on \$10 a month? There is a widow here in Portland that has two children that dhe is try-ing to make a living for and keep in school. So far she has made them a good home, but with many hurd licks, She is able to work but about half of the time and has no income whatever. She has to do anything she can get to She applied for a pension and
