WAR TO DEATH PROMISED IN UNABLE TO DISCOVER

Efforts Made to Find Official Fail and Substitution of Ice House Stock for Fresh Ranch Is Reported General.

> Today's Produce Trade. Egg law violated. Fresh eggs scarce, Butter fight waging. Veal trade firm. Hops about steady. California onions arrive. Grapefruit is firmer. Cabbage for California,

For several days efforts have been made to find the dairy and food commissioner, in an effort to secure enforcement of the law against the selling of cold storage eggs for the strictly fresh stock.

VEAL MARKET IS FIRM

Market for yeals remains very firm along Front street, but no further change in price is announced. Receipts are fair again and the demand is at present being supplied at the prices quoted. Hogs are weaker.

Of its Decline but Loses

MORE CABBAGE FOR SOUTH

Three more cars of Oregon cabbage have been sent to the San Francisco market and there is a demand for additional offerings. These three cars were obtained at Corvall's because of the lower prices ruling there.

FLORIDA GRAPEFRUIT FIRM

There is a firmer market for Florida grapefruit. The market in the south is firmer and 60c a box higher. The next carload here will probably be quot-ed at the advance. In the meantime the Florida stock has driven the California article, out of the Portland market.

JACK RABBITS NOT WANTED Seemingly, there is practically no demand for jackrabbits in the local market at the moment. While the receipts are heavy, the trade is not taking hold, and prices have dropped to the bottom It is stated that weather conditions are

against the sale of jackrabbits,

Further advances in the price of roasted boffees are reported by local roasters on account of the sharp advance. In the price at producing points. The Brasilian coffee trust is said to be squeezing consumers harder than over

CALIFORNIA ONIONS ARRIVE

Two carloads of California onions have reached the local market and have been placed on sale along Front street at \$2 a cental. The stock consists of Australian browns and was in excellent condition. The ears cost \$1.75 a cental to land here.

FORECAST FOR SHIPPERS

Weather bureau sends the following forecast to shippers:

"Protect shipments as far north as Seattle against minimum temperatures of about 44 degrees; northeast to Spokane, 35 degrees; southeast to Bolse, 30 degrees; south to Ashland, 46 degrees. Minimum temperature at Portland tonight, about 46 degrees."

PORTLAND JOBBING PRICES

These prices are those at which wholesslers sell to retailers, except as otherwise stated; BUTTER — Nominal, Creamery cubes, 34c; etty prints, 34c;35c; state creamery, 31@32c; ranch butter, 22c.

Groosries.

BUGAR—Cube, 35.50; powdered, 56.30; fruit

Stocks Are Practically Cleaned Up Declaration of Hostilities Formally According to Northwestern Fruit Exchange and Firm Bids Are Being Made by Eastern Interests.

The country has gone Jonathan mad. Everyone is crying for this apple and it has enjoyed a far better demand this season than ever before in its history, and that is saying considerable for this variety, because it is counted one of the most popular apples in the market. "We are literally being swamped with offers to buy the single carload of Jonathan apples that we still retain," says A. A. Prince, assistant sales manager of the Northwestern Fruit Exchange. "We have but one carload of Jonathans unsold and this is from Cash-

missioner, in an effort to secure enforcement of the law against the selling of cold storage eggs for the strictly fresh alock.

Numerous violations of the law are reported; storekeepers in various districts displaying big signs offering "Oregon ranch eggs" at from 8c to 10c a dozen less than the stock can actually be purchased in the wholesale market, if it can be secured at all. In fact one louse was offering more "Oregon rench eggs," at 15c a dozen than were being received by all the wholesalers of Front street combined during a single day. The practice of substitution of cold atorage eggs for the fresh ranch product is said to be quite general. For a while the practice, was seemingly brought to a stop, but recently the fake system has broken out anew.

Fresh ranch eggs are very scarce along front street, and these are finding a rather eager demand at 426 44c a dozen generally. Not enough stock is coming forward to supply more than a fraction of the demand. Cold atorage eggs are generally being offered by wholesalers at 32c a dozen for good quality. Even these cannot be sold by retailers at a profit under 40c a dozen.

VEAL MARKET IS FIRM

Thicago, Oct. 30.—The carly loss in the wheat market oday, \$\(\) in December on the somewhat better weather conditions in Argentina. Closing prices for the day were but \$\(\) to \$\(\) covering the somewhat better weather conditions in Argentina. Closing prices for the day were but \$\(\) to \$\(\) covering which forced both options to the price of the previous clossing but the loss of seaterday. After the early weakness there was a fair amount of short covering which forced both options to the price of the previous clossing but the December lost \$\(\) covering the morning the big city creameries are forced to pay only 29s for fresh butter. I know of butter sold at that price. According to the quotations in Argentina. Broomhall cabled from Liverpool that the firmness in American cables was offset there by better weather reports from Argentina. Realising caused a decline at the opening. Later there was a further decline on liberal Manitobs of fers with demand here quiet and our agent reports the whast various in Argentina. Realising caused a decline at the opening. CREAMERY

Made and Each Side Is Doing Some Scheming-Artificial Values Ruling in the Trade.

The fight for control of the butter market of Portland is the most bitter ever seen here. The war was started by the city creameries in their war of

ever seen here. The war was staticd by the city creameries in their war of extermination against the country makers. The latter have taken up the challenge and the result is a war that might possibly disrupt the entire dairy industry of the state if allowed to continue to an extended period.

Ever since big corporations secured a foothold in the creamery business and established their main plants in the cities, there has been more or less friction between the city and country makers. Just what caused the starting of the present fight here none are able or willing to state.

The trouble started last week when the city creameries began to cut their price of prints is to 2c a pound, while making no change whatever in the price of butter fat or cream. The price of cream is generally maintained from 1½c to 2c a pound below the price of butter fat or cream. The price of cream is generally maintained from 1½c to 2c a pound below the price of butter in prints, or the same value as cube butter. This, together with the "overrun," is the profit that creamery interests secure.

By cutting the price to prints and allowing butter fat to remain unchanged, it simply means that the makers are receiving nothing whatever for their work of manufacture; in fact, are losing money. This would seem at a glance to affect both interests, thereby causing many to wonder why the city creameries would cut off their profits even though they would war upon their country brethren.

At this time of the year, far the greatest business of the average city creameries would cut off their profits even though they would war upon their country brethren.

At this time of the year, far the greatest business of the average city creameries would ent off their profits even though they would war upon their country brethren.

On the other hand, the country dreameries handle practically nothing

List Shows Loss With Sharp Advance in Call Loans to Six Per Cent During Session.

New York, Oct. 30.—Lower prices were forced all through the stock market for the day. Call loans advanced to 6 per cent or the high mark for the season. Loans opened at 5 per cent, advanced to 6 per cent, dropped back to 5% per cent and finally closed around 5% per cent.

BOND PRICES TODAY

Are Lower Than the Average of Any Year During the Last Two Decades

At rare intervals, like the present, opportunities arise offering the highest returns without sacrificing safety.

Shrewd investors are recognizing this as an opportunity to be grasped, and are taking advantage of our unusual offering of four well secured bond issues at prices to yield 6% and over, with the choice of a short or long term investment. Send for circular P-50.
