

JULY 1, '14, MAY BE DATE FOR SEPARATING SALOON AND BREWERY

City Council Considers Question, in Relation to Transfer of License.

A certain date, probably July 1, 1914, will be fixed by the mayor and the city commissioners as the limit for breweries and big liquor interests to sever all connections with retail liquor stores and saloons. This was the decision of the city council this morning, and a time is to be set soon to thoroughly go into the matter.

The conclusions followed the discussion over the consideration of the mayor's denial of the transfer of a liquor license by Nicholas Helser of 320 Morrison street to Walter Kercher. The mayor denied the transfer some time ago, stating that the lease had been secured from a brewery, and part of the purchase price of the place was secured by a note to the brewery.

SALARY CUTS ARE BEGUN

Budget Undergoes Trimming Under New System.

Cutting the salaries as proposed in the budgets of the various city departments to conform with the new standardization system was begun yesterday afternoon at the committee meeting. Some further changes were also made in the budget for the health department.

While the budget of the department was under consideration, Commissioner Brewster stated that enough had been already lopped off and it should be left as it is. He added that it was being given altogether too much attention. To this Commissioner Bigelow stated that there had been allowed more for that department in proportion than to any of the other departments. He argued that further cuts still be made.

WILL LOWER WATER MAINS

City Council Arranges for Financing Project.

To care for the first payment of \$65,000 on the cost of raising and lowering the Butte water pipe crossing the Willamette river, the city council this morning authorized the sale of \$22,000 worth of water bonds to A. C. U. Berry at 93.75. The Lumbermens National bank bid for the entire amount at 92 was rejected.

Tuberculosis the Cause.

Tuberculosis is causing the death of animals in the zoo at Washington park, in the opinion of City Veterinarian Mack, after a post mortem examination of the elk which died with no prospect of dismissal until January. The woman, who is entirely worthy, needs a baby carriage for her youngest child. Anyone able to assist her should communicate with the Associated Charities.

Arrests May Follow.

Arrests by the wholesale are expected to follow the issuance of warrants yesterday by the city license department for those who are delinquent in the payment of license. These delinquencies have existed since July 1. Warrants were issued for 110 license holders.

WOMAN IS IN NEED OF BABY CARRIAGE

The Associated Charities reports the sad case of a mother with six children ranging in age from 7 months to 9 years and whose husband is confined in local hospital with no prospect of dismissal until January. The woman, who is entirely worthy, needs a baby carriage for her youngest child. Anyone able to assist her should communicate with the Associated Charities.

CHAMBERLAIN'S BILL FOR LAND RESTORATION

(Washington Bureau of The Journal.) Washington, Oct. 31.—Senator Chamberlain has introduced a bill granting Oregon 4239 acres of swamp lands in townships 37, 38 south, range 10 east, Willamette meridian, heretofore considered Indian lands. He also introduced a bill authorizing a preliminary examination and survey of the mouth of the Umpqua river.

W. C. T. U. DELEGATES LAUD BRYAN'S STAND

Asbury Park, N. J., Oct. 31.—With 600 delegates, representing nearly every state in the union, present, the fortieth annual convention of the Women's Christian Temperance union opened today. Mrs. Lillian M. Stevens, the organization's president, lauded Secretary of State William J. Bryan and Congressman Hobson of Alabama in her opening address.

Fruitless Search for Slayer.

Los Angeles, Oct. 31.—Although city and county detectives are conducting a minute search for Manuel Cabral of a San Diego, wanted in connection with the murder here of Mrs. Elvira Garcia, they had made no progress today.

HALLOWEEN IS HERE, ALSO PUMPKIN PIES

Ghosts and Merry-Making in Order Tonight; No Rowdiness to Be Allowed.

October 31 having rolled around once more in the course of human events, the feast of Halloween has come again. Originally a church feast day, the day or rather evening before All Hallows or All Saints' day, it has become to be synonymous with merry-making and autumnal games.

Halloween is the only day of the year devoted to those grand old games of bobbing for the apple and blind man's buff. No one ever thinks of toasting marshmallows except on Halloween, or popping corn, or playing forfeits, or playing those peculiarly delightful games in which the supreme object is to find out how many wives or husbands you are going to have.

No doubt there will be many homes in Portland tonight turned over to these pastimes, although the conventional Halloween celebration nowadays is in form of a dance. Small boys have gotten away from the pranks of the small town, lighting doorbells, tying the clapper in the schoolhouse bell, using tickle-bags, and bean shooters have become more or less obsolete. Instead, the youth of the land is devoting itself to the consumption of pumpkin pie and judging by the display of this vland in the bakery windows of the city, there will be considerable celebrating at the family board tonight.

As regards tonight, Chief of Police Clark has issued an order to the police to keep the city to stop rowdiness. Any man, woman or child caught defacing property will be prosecuted. All the patrolmen of the city will be on duty during the fore part of the evening.

RICH GOLD STRIKE IS REPORTED IN SONORA

Douglas, Ariz., Oct. 31.—Reports of what is claimed to be the richest gold strike in the recent history of Sonora reached here today. The new gold territory lies 100 miles south of the International border, near the famous El Tigre mine.

Prospectors from this district reached Douglas today with what they claim to be samples of the ore. It is reported that the new discovery is heavily guarded.

PASSENGER WHO WAS ROBBED FILES SUIT

Because Charles R. Davis, sales manager of the Davis-Scott Heating company of this city, was robbed of \$60 while asleep in a Pullman sleeper, according to his complaint, and afterwards was abused and vilified by the manager of the Pullman company to whom he protested at Seattle, he is suing the Pullman company for \$5076.13.

The bill was filed today in the United States district court. The complaint alleges that Davis was in a sleeper attached to a Northern Pacific train, between Portland and Seattle the night of July 13 when the "touch" was made. Wounded feelings and humiliation account for \$5000 worth of the damages, due to the alleged insults of the Seattle Pullman manager; \$15 it cost him to lay over in Seattle while awaiting more funds and the balance, of something over a dollar, in addition to the \$1000, is due to telegraphic expenses incurred in securing more money from Portland.

NEW CLERK ASSIGNED IN FEDERAL COURT

A new face will be behind the clerk's desk in the United States district court tomorrow, for Frederick H. Drake, chief deputy clerk under Anderson M. Cannon, has resigned to take up the private practice of law in this city, and George W. Marsh, who was formerly clerk of the United States circuit court here before it was abolished, takes his place. Marsh held his former place almost three years, and when the new federal court statute went into effect his position was done away with. That occurred January 1, 1912.

Drake has been connected with federal clerkship work for the past 10 years. Although an Oregonian and graduate of Leland Stanford university in 1901, he was clerk of the courts at Butte, Mont., for eight years and was an official in the court where F. Augustus Heinz was tried in the celebrated amalgamated copper cases prosecuted by the government.

Hurt at Coburg.

Cottage Grove, Or., Oct. 31.—Word reached here yesterday of the serious injury of C. J. Chandler of this place while working in a Coburg mill. His hand was so seriously injured that amputation may be necessary. Mr. Chandler is at a Eugene hospital.

M'INDOE'S SUCCESSOR WILL BE NAMED ABOUT NOVEMBER FIFTEENTH

Major McIndoe Talks Over Oregon Work With Chamberlain in Washington.

(Washington Bureau of The Journal.) Washington, Oct. 31.—Senator Chamberlain discussed with Major McIndoe today the work on the Columbia on which he has been engaged and also the Chamberlain bill regarding the ceding of Sand Island to the state. Major McIndoe reported adversely to the house lands committee on this. He told Senator Chamberlain that the island may be needed in connection with the north jetty. After completion of the jetty the island will fill out to shore and be valuable for military purposes.

Senator Chamberlain suggested that the income from the island, some \$10,000 a year, might be turned over to the state for salmon propagation. McIndoe said the funds of the treasury are not to the war department. It would probably be necessary to enact a bill at every session of congress to give the state the money. Senator Chamberlain will insist on his bill.

Major McIndoe says work is progressing well on the Columbia improvements, and with the half a million contributed by the state he thinks it will be enough money to complete work on the north jetty until another appropriation can be made by congress. Major McIndoe thinks it more essential for congress to put under a continuing contract than to give a big appropriation at one time, but Senator Chamberlain will not cease his efforts to get an appropriation, and at the regular session will endeavor to have it put under a continuing contract by amendment to the rivers and harbors bill.

Major McIndoe is of the opinion that dredging has accomplished good results in deepening the channel at the Columbia's mouth, and thinks the work ought to be continued. He says the Chinook is doing good work, but he feels that another and larger dredge ought to be constructed for that work, as the \$60,000 available from any district where government work is progressing. Senator Chamberlain will endeavor to get an appropriation for a dredge to meet all requirements. Major McIndoe will start back home tonight.

"In my opinion," said Senator Chamberlain, "a man will be assigned to Mr. McIndoe's place who thoroughly understands the situation, and who will be entirely satisfactory to the people of the whole state. Announcement of his name will be made about November 15."

WOMAN BEATEN AND CHOKED BY INTRUDER

Mrs. Gellinsky Attacked in Own Home; Suspect Is Finally Caught.

Beaten, choked and thrown downstairs by a strange man who entered her home while she was seeking a needle and thread the fellow had requested, Mrs. W. E. Gellinsky, residing at Lakewood, a station near Milwaukie, saved herself from further harm by breaking from the man's clutches and telephoning for help. A man supposed to be the one who attacked her was captured two hours later by a posse headed by Sheriff Maas of Oregon City. The man was found hiding in the brush about a quarter of a mile from the Gellinsky home.

Mrs. Gellinsky was alone in the house when the stranger approached and asked for a needle and thread to sew up a rent in his clothes. She went upstairs to secure the articles and on the way down met him on the stairway. "Give me a kiss," demanded the stranger. At the same time he seized her. Terrorized, the woman screamed for help and the fellow choked her, beat her around the shoulders and then threw her down stairs. He attempted to take hold of her again, but breaking from him she sped to the telephone and the man ran out of the house.

Mrs. Gellinsky called the telephone operator at Oak Grove. The operator in turn notified people residing in the vicinity of the Gellinsky home, and in a short time citizens were beating the brush. Later Sheriff Maas joined them, and the capture of the alleged culprit resulted.
