done to provide a place for any women where there could not be a like a women where there could not be a like a women of the larger colleges.

A striking illustration of the necessity of the educational influence to combat another tremendous force that is now making itself feit in this country was the larger by Mr. Isvine.

making itself felt in this country was given by Mr. Irvine.

Street Speakers Harphems.

"Last night I was at Sixth street and I saw people arrested there," he said.

Personally, I have no objection to people speaking on the street. But I have heard some things said there that are objectionable. I have heard speakers revile Jesus Christ, sneer at the church, blaspheme Almighty God. I have heard these things happen under the very steeples of your churches and in the shadow of the courthouse and the city

"I have heard the constitution denies and our flag reviled and every official from the president down denounced in the flithiest language. I have heard those utterances applauded to the echo. These things did not happen years ago.

Such a condition is most startling. "There is a workless army here and a considerable army that does work, of men and women, up and down this country who are advising and preaching those kind of things that I have been telling you about. They are advancing the terribly hideous doctrine of sabotage, the most atrocious gospel ever

"It is talked by people who are filiterates. There is the story of the atroclous doctrine.

"I am for the university. I am for education. I am for a school on every corner. I am for giving these people that protection of education that will banish this thing from their minds. I am for the thing that will protect your boy and mine from the mob.

"It is a lot cheaper to underwrite education than it is to finance revolu-

"There is only one thing for do when you go into the ballot box Tuesday. And be sure to vote. Let your ballot be for the university appropriation. They haven't had a new building down there in six years. The enrollment has doubled in that time. It only costs us 18 cents per \$1000 of wealth. It was 77 cents in Wisconsin."

Mr. Irvine warmly indorsed the workmen's compensation act, which

Liability Law Is Good. Mr. Madson sketched briefly the legslative labor condition as it exists in Oregon. Our employers' liability law, he said, is without comparison, and it is about as satisfactory as a law of its nature can be. The liability law has reduced accidents but it does not offer compensation to the injured workman,

attorney always gets 50 per cent of the award. The workman has to run the chances of a judge, jury and the appeal. Because of this, only 30 workmen out of 100 who are injured ever get anything out of a suit. "The new law provides for its ad-

Y WILL STRENGTHEN AND CURE YOU

This Modern Method of Electric Treatment Is Curing Men and Women After Doctors and Drugs Fail--It Builds Up Broken-Down Men, Restores Their Youthful Vigor, Cures All Ailments Resulting From Weakness of the Nervous System. Don't waste your time trying to cure a chronic ailment by doping yous system with stimulants and poisons. Such complaints as nervous debility, rheumatism, lumbago, neuraliga, sciatica and stomach, kidney, liver and bladder troubles are due to a weakened condition of the nerves or vital organs. Your body needs new strength and vitality, and that is what you must have before you can get well. Taking drugs into the stomach won't help you. You know that if you've tried them. They really leave you in a worse fix than ever.

Electricity, properly applied, will restore the strength and activity of every weak, sluggish organ of your body. Wear Electra-Vita while you sleep. It is the only successful electric body appliance made and the only one that infuses the current into the system in the right volume to effect a cure. Under its powerful influence your pains and aches vanish like mists before the morning sun. The blood courses through your veins with renewed vigor. The glow of health returns to your cheeks and you feel the thrill of new life that comes with increased vitality and nerve power.

Wouldn't you like to be the man you were a few years ago; to have the same ambitious spirit, the strength and vitality that you used to possess? Wouldn't you like to be free from pains and aches and to feel that you are the equal in strength of any man of your age? You can be if you obey the appeal here made to you.

All that you lack is vitality—new life. You are like an engine without steam—you haven't the motive power to keep the machinery of your body working properly. Anything that will restore your "steam" will make a new man of you. Drugs have been tried and have failed. You know that; but Electra-Vita will not fail; it is electricity, and "electricity is life." That is what you require, and the proper use of Electra-Vita will give you health and happiness.

Electra-Vita is a scientific device for saturating the human body with a powerful but soothing current of electric life, for hours at a time, without the least shock or unpleasant sensation. It generates a constant, unbroken stream of electricity, which it sends through every nerve and tissue of the body restoring vitality and strength and giving every weak and inactive organ the power to do its work as nature intended. When your body has sufficient electric energy to satisfy the demands of nature, disease can not exist.

and other contrivances you may have seen or used. Men who are nervous, run down, and unambitious will find that electricity as supplied by Electra-Vita will quickly put them in good condition.

Electra-Vita is a self-charged body battery for home use. It is not like electric belts, faradic batteries

The man does not live who can not be made a better man by the application of Electra-Vita. Those who have used it say that it is the grandest invigorator of the age.

Because you have experimented with faradic batteries or taken electric treatment from physicians, or used so-called Electric Belts without being cured, is no reason why our method should prove a failure. The doctor's battery can only be applied for a few minutes at a time, and that is not enough to effect a cure. Besides, that method is inconvenient and expensive. Electra-Vita can be used all day or night without interfering with your work or rest, and is without a doubt the best and most convenient method of applying electricity to the body. Read what those say who have used it—this is positive proof that Electra-Vita cures.

Beautifully Illustrated Book Free

Just put your name and address on this coupon and mail it to us. We'll send you full particulars regarding Electra-Vita, together with our free 90-page book, which explains many things you ought to know about the disorders of men and women. This book tells in plain, simple language how you can be cured in the privacy of your home, without the use of drugs. It tells how various disorders are brought on through neglect, and how they are easily conquered by electric treatment. It is beautifully illustrated with pictures of well-developed men and women, showing just how Electra-Vita is applied. Don't fail to get this book. Cut out the coupon now, or just write for the book.
