

### HUERTA ASKS FRANCE TO INTERMEDIATE BETWEEN MEXICO AND THE U. S.

#### France Doesn't Reply, Fearing to Offend; Wilson Favors Lascurian as President.

Washington, Nov. 5.—Back at his desk today, President Wilson told callers that he did not believe the situation resulting from the demand he was said to have made on President Huerta, of Mexico, for the latter's retirement was as serious as the newspapers have represented. But the president did not say, in so many words, that such a demand was sent.

In an evident desire to lessen the public's interest in Mexican developments, the administration plainly had done everything possible today to cut off all sources of news from the southern republic. It was clear, too, that the president wanted people to think no such thing as intervention was under consideration.

It was learned that Mexico had asked France informally if the latter would mediate between Mexico and the United States. "Fearing to offend" America, France did not reply.

The Washington administration, it was said, favors Pedro Lascurian as provisional president of Mexico, between Huerta's retirement and another election.

General Carranza, the Mexican rebel leader, notified Secretary Bryan, through Dr. Henry Allen Tupper, that if permitted to import munitions, he can guarantee speedy peace and constitutional government in Mexico. He opposed intervention strongly.

Word was received of the arrival of four more American warships at Vera Cruz.

The scout cruiser Chester was ordered from the Philadelphia navy yard to Mexican waters.

A strong federal force was reported heading for Torreon, Mexico, recently captured by the rebels.

"New York's public spirit is again in the ascendency, but Tammany always has shown such wonderful powers of recovery that it would be extremely rash for New Yorkers to regard the result of the election as Tammany's obsequies. They must show their wisdom is equal to their enthusiasm if they wish to hold the ground they have won."

### MRS. COE REPLIES TO HUSBAND'S CROSS BILL

#### Wife of Physician Says She Straightened His Affairs and Was Given Property.

Answering her husband's cross bill to her suit for an accounting, Mrs. Viola M. Coe, wife of Dr. H. W. Coe, alleges in her reply filed this morning that she straightened out Coe's affairs after he had gone to the Orient to escape his creditors and regain his health. She alleged that in consideration of this she made a settlement with her by which she received property which he now seeks to recover.

According to Mrs. Coe, the sanatorium business which is in litigation was built up by their united efforts, and finally incorporated as the Sanatorium company for convenience. She said that she took but one share and she took the rest, although she was entitled to half.

Later Mrs. E. L. Gillespie and W. T. Williamson bought into the Sanatorium company.

In 1908 he organized the Columbia Land company, to handle the selling of lands under the Finnish irrigation project near Stanfield, Or. Then, according to her answer, his troubles began. W. J. Furnish, a stockholder, charged Dr. Coe with misappropriating \$50,000 of funds belonging to the inland irrigation company, she alleged, and that and business worries drove him to seek rest in the Orient.

She alleges in a settlement with Dr. Coe, he gave her certain real estate and 50 per cent interest in the sanatorium company and in consideration she released him from payment of a \$23,000 mortgage she had given on the home to help the land company. She said she also was to pay a \$10,000 note he had signed.

### FRENCH TRAINS CRASH NEAR PARIS; 40 KILLED

Melun, France, Nov. 5.—After 16 corpses had been taken today from the debris of the Paris-Marseilles express, wrecked in a collision near here last night, rescuers estimated that the total number of dead would prove to be at least 40. Of the injured there were scores, and it was certain that several of them would die.

Among the victims was Captain Amie of an infantry regiment in southern France, who, after suffering agonies for ten hours, begged the doctors to kill him when he was at last found, and it became evident that much difficulty would be experienced in extracting him. The physicians gave him morphine to stop the pain, and he died, still pinned under the wreckage.

The engineer of the train admitted that he disregarded a danger signal. The express derailed at terrific speed into another train, and seven cars crowded with passengers, were smashed to kindling wood.

President Poincaré and his wife motored from Paris to the scene of the wreck today, and for several hours watched the rescuers at work.

### O'LEARY WALKS TO S. F. IN 15 DAYS, FIVE HOURS

### MULTNOMAH'S VOTE IS LESS THAN THIRD OF TOTAL REGISTRATION

#### Difficulty in Finding Polling Place Blamed, in Part, for Small Turn Out.

Less than a third of the voters registered in Multnomah county went to the polls yesterday. The total registration, according to figures furnished by County Clerk John B. Coffey this morning, was \$4,111. The largest vote cast was in connection with the interstate bridge bonds—a total of 25,524 affirmative and negative votes.

This means that 55,787 registered voters in Multnomah county either ignored yesterday's election or were deterred from voting by difficulty of finding polling places in their new locations.

It is apparent that the difficulty of finding voting places explains a considerable proportion of the small vote. Not only were booths removed, in some instances, several blocks from the locations where voters were accustomed, but back rooms insufficiently placarded were utilized. In one precinct voters found it necessary to follow a narrow path between two buildings to a back door opening into a large room. In another precinct the room was found to be crowded by the election officers without the addition of voters.

It is not disputed that there was a considerable degree of apathy in the public attitude toward referendum measures. Undoubtedly the interest was greatest in the bridge bonds, as was shown by the voters, and this interest contributed to the total of votes on other measures.

"Of the 34,111 registered voters in the county," said Mr. Coffey, "11,184 were former registrants and 22,927 were registered since last June in conformity with the new election laws passed by the last legislature."

Kelly, Circuit Judge Cleeton this morning removed Frank Kelly as administrator of the estate and appointed David Davis in his place. Kelly had been charged by his brother Thomas Kelly, with delaying the administration of the estate and with having involved it in unnecessary litigation. Judge Cleeton said that no reflection should be cast upon Frank Kelly by his removal and that it was not on account of the charges that the removal was made, but to save the estate from as great expense as possible. The estate is now valued at approximately \$150,000.

#### Shelby Shaver Struck and Mangled When Car Backs Up.

Oregon City, Nov. 5.—Shelby Shaver, the 18-year-old son of George Shaver of Portland, was struck and instantly killed by a south bound Oregon City car about 5:40 last night near Jennings Lodge.

It appears that the car stopped about 50 yards past the station and Shaver alighted from the car and started towards the station. The cars started back and struck him. Three cars passed over the body and it was so badly crushed and mangled that it was almost beyond recognition.

Mr. Shaver was employed in the Southern Pacific car shops in Portland and was on his way home when the accident occurred. He was a graduate of the Oregon City high school in the class of 1913. During his high school life he was considered as one of the most popular boys in the school, having been a member of the high school debating team and manager of the baseball team.

At the time of the accident he was living with Mrs. William Jacobson of Jennings Lodge. His mother died several years ago, and his father lives in Portland, being an employee of the Singer Sewing Machine company. He has one sister, Mrs. Roy Kelly, of Leoti. He was born in Wisconsin in 1895, and came to Oregon about seven years ago, at first living in Portland. Four years ago he moved with his parents to the Jennings Lodge, where he has lived ever since. He attended the Gladstone schools and the Oregon City high school.

### EAST SIDE TO HAVE 2 FESTIVAL PARADES

#### Board of Governors Plans to Hold School Children and Vehicle Events There.

According to plans outlined at last night's meeting of the board of governors of the Rose Festival association, two big parades will be held on the east side during the festival, one the school children's parade and the other the vehicle parade.

The parade of school children, if it can be arranged, will be held exclusively on the east side but the vehicle parade will be held on both sides of the river.

In this connection, Superintendent of Schools Alderman told the board last night that he and the school principals and teachers would cooperate to make the parade possible.

In the letter, Chairman Charlton, of the Transcontinental Passenger association, at Chicago, stated that the passenger agents meeting recently decided that the Rose Festival has grown to such a big feature that all lines in the east will establish lower round trip rates than obtained before. The rates will be the round trip and one-third fare for the round trip.

The robbery is supposed to have occurred between 3 and 4 o'clock this morning, residents having been awakened at that time by an explosion, though it was not traced to the postoffice until later when the robbers had looted the safe and escaped.

The officers are hunting for hobs who were in Glendale Tuesday evening, though there is no evidence connecting them with the burglary.
