### **WASHINGTON MAY GET POST-SEASON CONTEST** WITH LINCOLN'S TEAM .

Matter Is Now Before Principals for Decision; Earl Men Were in Poor Shape.

The Lincoln and Washington high school football teams may meet in a post season game. The arrangements for the game have not been practically completed as yet, but it is more than likely that Coach Borleske's Cardinals will line up against the Washington team once again this season,

It is likely that the principals of the schools will get together in the near future and arrange to have the teams winning the league pennant in football and basketball play a post-season game with the team finishing in second place. The matter is up before the principals of the Lincoln and Washington schools regarding a post-season game. This contest would prove a great drawing card, as there are many football followers in the interscholastic circles who believe that the Washington team would be able to give Lincoln a closer game than it did during the middle of the season. The game would also prove to be of great financial benefit

to both schools. This year Lincoln and Washington played each other a few weeks after the pening of the season. This game has always in the past few seasons been considered the championship high schoo game. Washington was not in the bes of form when it played Lincoln because Coact Earl had little game practice, be fore meeting Borleske's team, which had played four games.

# EXPERIMENTAL FARM

What Section Offers in Agricultural Way.

(Special to The Journal.) Klamath Falls, Or., Nov. 8. - The first steps have been taken to get an experimental farm for Klamath county. The county court has been asked to make a special levy to employ an exastest games of the season.

The Whits team put over the first asket in the first half when the teams vere fresh. A pass from Mrs. Toung

conducted under an expert should prove of material assistance to the early de-velopment of the farm lands of the vast area embraced in Klamath county. Rapid strides in farming have been made in recent years. Only seven years ago the idea that potatoes could be grown successfully was hooted. Today Klamath county ranks foremost among the potato producing sections of Ore-gon. Lands that were considered worthless for farming are now produc-

ing paying crops.

Agricultural pursuits in this section date back only a few years and at this time it is impossible to predict the most remunerative crops that will some day be grown. The experimental farm would not only help determine the best paying crops, but would also determin the best methods for cultivation.

## DRUGLESS TREATMENT A GREAT SUCCESS

What Others Say:

I will be more than pleased to recommend Electra-Vita, because it has proven a great benefit to me. I thed the appliance for weak back and it has given satisfactory results in every way.

I will gladly recommend Electra-Vita, because I feel that it is all that you claim it to be. Yours truly, R. A. WENDLAND, 1626 Division St., Portland, Or.

Cures Lame Back, Rheumatism, Stomach Trou-Electra-Vita cured my Rheumatism and Lame Back, and restored my Stomach and Bowels to their normal condition. I consider it a fine treatment for such troubles. J. R. SPENCER. 1290 Lewis Street, Cheballs, Wash. have the same ambitious spirit, the strength and vitality that you used to possess? Wouldn't you like to be free from pains and aches, and to feel that you are the equal in strength of any man of your age? You can be if you will obey the appeal here made to you. Everybody admires the strong, virile, red-blooded man. He is the fellow that makes his mark in the world-the man who succeeds where others fail.

Look at the men who have accomplished big things-the successful man in all the walks of life-and you will see men of strength and power, men who have confidence in themselves and who are fairly bubbling over with energy and enthusiasm.

Men who suffer in any way ought to know by this time that drugs cannot help them. All that medicine can uo in such cases is to stimulate-to borrow from your reserve force; and when that is used up you are worse off than ever.

There's only one way to restore your vital energy, and that is by putting new life into your nerves. Every function of the human body is governed by the nerves. If an organ is weak it is a sign that the nerves which control it lack power, and this nerve power

is nothing more than electricity.

Electra-Vita is a self-charged body battery which pumps a steady, unbroken stream of galvanic electricity into the nerves and vitals for hours while you sleep, infusing them with new energy and building up the entire system to a strong, healthy condition. Electra-Vita does not shock or irritate. It generates a powerful current, which can be regulated to any degree of strength. There is no charging to bother with. All you have to do is to apply Electra-Vita when you go to bed at night and remove it in the morning:

While you are sleeping it is pouring a continuous current of life-giving electricity into your system. The weak, starving nerves absorb and retain this force and grow strong under its vitalizing influence. You wake up in the morning with a feeling of exhilaration. Your old-time energy quickly returns; you feel the tingle of new life in your veins; you walk with increased vigor. The dull, tired sensation, the headaches and back pains all disappear, and soon you are a rejuvenated man, in possession of perfect health and strength.

To the man who is skeptical about our treatment we say: Just ask those who have used Electra-Vita what it has some for them. Thousands of men can tell you that Electra-Vita cured them. We will be pleased to give you the names of some of these men if you will call and see us or write to us.
