SHORTAGE IN APPLES FORCES HIGHER PRICE TO BE ASKED BY HOLDERS SUPERINTENDENT EXTRA FANCY STOCK FINDS GOOD CALL IN THE POTATO MARKET

Buyers for San Francisco Account C. Bidding \$1 Per Hundred at the Country Points for Best Selected Stuff; Others Not So Firm.

> Today's Produce Trade. Eggs holding firmer. Cheese situation strong. Butter market mixed. Potatoes steady to firm, Hop situation erratic. Country meats steady. More California grapes. Chickens moving well.

Extra fancy potatoes are finding a rather fair demand from the south. Buyers operating for the account of California interests are freely offering \$1 a cental for selected stock at shipping points, but are getting little encouragement from growers.

While there was a general shortage in the output of potatoes at Williamette valley, as well as interior points this season, the greatest loss is in offerings of extra good quality. The percentage of extra fancy potatoes this season is much smaller than usual, although the reverse was believed to be the case earlier in the year.

Ordinary stock and poor quality both show only a fair tone in the local trade at this time. Country interests are beginning to offer ungraded stock quite freely, and have been willing to take slightly lower prices. This has kept the jobbing market along the street from showing any real strength of late.

Shipping demand to the southwest is still unsatisfactory, but an improvement in conditions is soon expected. rather fair demand from the south."

EGG PRICES ARE GAINING

Prices in the egg market are gaining along Front street. While no higher than 47% a dozen is as yet being asked for fresh ranch stock, most interests are today quoting either 47c for the higher figure. Receipts continue small.

CHICKENS ARE MOVING OUT

There is a rather badly mixed tone in the chicken trade along Front street. Prices on springs are ruling from 14c to 15c. Some say they are not able to get the higher figure, while others say they are cleaning up. Heavy hens are firm at 15 4c.

MIXED CAR GRAPES ROLLING

A carload of Tokay and black grapes has started from Sacramento for this market. This is said to be the last car of mixed stock offering there. The shipment will arrive here early in the coming week. The market is firm.

CHEESE TRADE IS FIRM

Considerable strength is showing in the cheese trade. While it is quite possible for the trade to force the price 160 a pound higher at this time, the advance is not considered because it might force eastern stock in this direc-tion.

HOP MARKET IS MIXED

There is a rather badly mixed situa-tion in the hop trade. Orders are com-ing in an erratic way. One day the market is up 2c and then down an equal amount. There seems to be no steadi-ness in the situation this season.

PEACHES ARE DUMPED

Quite liberal stocks of peaches were sent to the crematory this morning on account of poor quality and the absence of demand for this class of stuff. The market is quite fair for good stuff at former prices.

FORECAST FOR SHIPPERS Weather bureau sends the following Weather bureau sends the following notice to shippers.

Protect shipments as far north as Seattle against minimum temperatures of about 44 degrees; northeast to Spokane, 34 degrees; southeast to Boise, 34 degrees; south to Ashland, 46 degrees. Minimum temperature at Portland tonight, about 48 degrees.

FEW APPLES REMAIN CRUP IS QUITE GOOD

Fruit Growers' Exchange, Says That Output Was Better Than Expected and Market Good.

The demand for apples this season and especially the stock of ordinary quality has been the most extraordinary

and especially the stock of ordinary quality has been the most extraordinary for many years. This is the assertion of C. E. Sanderson, vice-president and a director of the Yakima Fruitgrowers' Exchange, an affiliation of the North-western Fruit Exchange.

"The crop of apples this season in our section of the country was somewhat better than we had anticipated," says Mr. Sanderson, "in fact the quality was better than usual. My own orchard for instance which contains 25 acres in apples produced a crop of 11,000 boxes this season, while we had not expected more than 7000 boxes.

"One of the big reasons for the excellence of the quality of the apple crop in the Takima valley this season is the fact that we culled out more fruit than usual—that is we thinned more. This natural by made the crop of larger size fruit than usual.

"This has created a shortage in the supplies of ordinary quality apples, which together with the unusually good demand that has been shown, has cleaned up most of the stock in the valley. At the present time but nominal supplies of apples are available for sale in the Yakima section."

Mr. Sanderson left last night for Seattle. He will go from there to Cashmere and Wenatchee to study apple packing methods in those districts.

Stock Market Yields in Orderly Manner to Sellers; Foreign Affairs Are Being Watched.

New York, Nov. 8 .- The stock list yielded in an orderly manner. The buying was principally in the nature of short covering. There was not much news relative to affairs in Mexico, but it is nevertheless realized that conditions are critical. A world-wide lack of confidence, it is believed, will exert a pronounced influence on stock market sentiment and be restored by liquidation and other adjustments.

Among the Trade

F. M. Bryant this week finished seeding 132 acres to winter wheat on his farm north of Huntington. The crop this year averaged 36 bushels to the acre. Not at all bad for dry farming.

Hearty approval from business men and farmers is being met with on every hand by the suggestion of the Klamath Chamber of Commerce that there be held there at regular intervals a Market Day.

As a result of the phenomenal success of J. B. Frye, a Deer Flat settler under the Payette-Boise, Idaho, project, in raising potatoes, there will probably be some 15,000 acres set out to tubers in this vicinity next season.

William W. Hawley of Lorane has completed digging and sacking his 14-acre field of potatoes, which yielded just 1400 sacks. This crop he dug himself, which is quite a job to be accomplished by a man who has already celebrated his 62d birthday anniversary.

The Corvallis cannery is ready to take care of all pumpkins and squash in the county, Manager Tinker save he wants 100 tons or more,

The result of competition at their recent Canyon county fair at Caldwell, Ida., for the best yield of cats per acre, has just been announced by the officials of the organization. L. L. Young takes the premium with the magnificent showing of 168 bushels to the acre.

DISTRIBUTORS ASK A SHARP ADVANCE FOR. APPLES FROM TRADE

North Pacific Representative Quotes \$2 for Extra Fancy Spitzenbergs but Wholesalers Do Not Take Hold Readily; East Says Too High.

There is a firmer tone all through the apple market and Pacific Northwest interests are asking firm prices; for their limited offerings at this time. Through C. R. Rogers, their local representative, the North Pacific Distributors have forced a sharp advance in their asking price for apples, but so far as could be ascertained no sales were made along Front street at the higher figures.

The distributors are now asking \$2 for extra fancy Spitzenbergs, \$2.10 for Yellow Newtowns, \$1.75 for Northern Spy and \$1.50 for Baidwins, according to the Front street trade. These are fully 25c a box above the extreme values recently asked and fully 50c a box more than was ruling a few weeks ago.

An advice from New York first reported the asked advance there, but the trade is not said to be taking hold at the higher figures.

Why should we pay \$1.75 a box for Northern Spys at Hood River," says Charles Levy of Levy & Spiegel, "when we are actually selling better quality stuff from local places at the same amount."

Some other dealers were of the same opinion, but still others were inclined to believe that the advance would hold after awhile. for their limited offerings at this

Carranza Tells His Strength. Nogales, Sonora, Nov. 8.—General Venustiano Carranza, head of the Mexcan constitutionalistas in Sonora, de-clared today that he can put 100,000 men into the field the day the United States raises its embargo on arms and

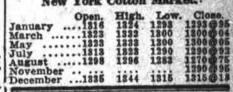

ammunition. Carranza is anxious to prove to the Wilson administration the strength of the constitutionalista movement. He received several messages today from his agents at New York and Washing-ton, which apparently caused him much satisfaction. He refused to divulge their

contents, however,
Quiet prevailed here today, although
rumors were circulated that a troop movement in the interior of Sonora is contemplated.
