The vision of things to be done may come a long time before the way of doing them who distrusts the vision .- Jenkin Lloyd Jones,

#### VOTED AGAINST CHANGE

HE electorate gave a round ma- roads will ultimately benefit. jority both for the repair fund and for the building fund for the state university.

It is the better way. The last thing in the world with which we should tinker, is education.

No state that has established its state university and agricultural college as separate institutions has ever solidated them. No state is now agitating such a step except Oregon. Nothing would be gained by the change. Texas spent \$25,000 and two years time investigating the question of uniting her university and agricultural college and recomnended that they be continued as eparate institutions.

That is practically what is meant Oregon people in the vote last Tuesday. Consolidation was in realfly an issue in the balloting, as is own by the fact that the repair

the building appropriation. We should now agree to mainain the two Oregon institutions as service. arate establishments, each in its wu distinctive and typical field. nand that each give back increasfugly effective service.

> Eight years of grammar school, four years of high school, four years of college and four years for a profession are a mighty long educational journey. Yet that is what we require, and to make it the more exacting, we are daily jamming more and more frills, more and more fustian into all the courses. If the sociologists keep on narrowing down the time when men must retire from active life and the professional educationalists continue to extend the period of studentship, it will not be very long until the date of retirement and time of final graduation into the world will overlap.

The new and strange note for shortening the period of studentship by rationalizing the courses is as sane as it is welcome.

#### SMALL CHANGE

What the people decide at the polls

The most sinister feature of Tam-manyism has ever been Tammanyised

Even back east elections are not what they used to be; not so much partyism

It wasn't expected that the president of the National Woolgrowers' associa-tion would like the new tariff.

Castre, a news item says, has been missing for three months. Let nobody advertise a reward for his discovery.

Some people hate all dogs, but quite frequently a dog, by prompt, intelligent and heroic action, saves a child's life. Recipients of Carnegle prizes and medals for heroism doubtless deserve them, but no more than others who get

A Mexico City paper declares that the alleged votes for Huerta were "influenced," if not manufactured. The editor's liberty, if not his life, is probably precarious.

The Woodburn Independent chides one of its exchanges—not naming it—which "comes to us week after week and year after year without a line of aditorial." The Independent says this "seems to us exactly like a human organism destints of a heart."

OREGON SIDELIGHTS

Wheeler Reporter: Operations are being resumed at the Necarney City oil well with a view to determine without any question whether there is oil to be found in the valley. A new hole will be started as soon as the standard drilling outfit arrives.

"If there is any state in the union that should observe Apple Day in the fullness of the spirit of the occasion. It is Oregon," says the Grants Pass Courier, "This is the premier apple state when quality is considered, and in quantity of production it will be found in the very front rank when the great acreage now planted comes into bearing."

Rebuke of the voter of the delinquent or non-voting variety in Newberg Graphic: "Claude Lewis, who is a medical student in Portland, came home Tuesday to vote, while some fellows who were in easy walking distance of the voting places did not manifest enough interest to go and cast their ballots. But probably it is just as well for people of this class to stay at home."

### COMMENT ON CONGRESS

about the domination which President Mark Sullivan in Collier's Weekly. Wilson has established over congress enters about the question whether or With them it is not a matter of renot a currency bill will be passed present session. Failure to pass it will be a severe indictment of the efficiency of our present form of government. If the speed of congress is now limited to two major measures a session, it is obvious something must be done to take care of the constantly en-larging field of federal legislation. Meantime there is plenty of evidence that, although congress isn't able to pass a currency measure, it isn't very busy with anything else. These words Newark (N. J.) Evening News: were spoken in the course of the debate on the currency bill by Congre

Jeremiah Donovan of Connecticut: "It is nearly criminal. You ought to have stated here, and let it go into the Record, that the leaders of both sides have abandoned this bill and have it in the hands of new members and in-experienced ones. • • • Why did not you say that for months there has been barely a quorum here, and that most of the time less than half a quorum has been doing business? Take a great state its members present, and other great states, and there is a very small percentage of them present.

One reason why congress is resentful

President Wilson to pass the currency oill is rather sordid. If they are kept in Washington until the last day of November, obviously they cannot collect mileage. Some years ago, on an occasion when one session lasted until oon of the fourth of March, and Presiient Roosevelt had called a new session tive recess." rseclution giving themselves the mileage to which they would have been en-titled if they had gone to their homes Although this "armchair mileage" episode happened as far back as 1905, the memory of the public disapproval of it is still vivid, and no one wants to try that device again. mileage is a fairly important part of the compensation of many members. It is given at the rate of 20 cents a mile, war and for some of the members runs over grudge the mileage to members of con-gress. The salary, \$7500 a year, is by understand it better and better. Sooner no means too large, considering the term is but two years long, and that every second year, in most cases, the member must spend a good deal of money even in the most modest and igidly legitimate expense of securing his reelection. Moreover, many members are compelled to maintain homes both in Washington and in their own To another anonymous critic on the districts. It would be better all around if the lower house, now numbering 435, were cut down more than half, to 200, and each then given a salary of \$10,000

A man comes into the country and locates on a piece of wild sagebrash land, clears it, digs a ditch, cultivates it, buys horses and cows and chickens, builds him a little home, and lo! down comes the assessor and levies on him at a for several years. He has performed the function praised by philosophers of all ages: "made two blades of grass formed a desert into a home, a wilderness into a farm; and he must be pun-

# IN EARLIER DAYS

By Fred Lockies,

They call him "Big-Hearted Bill," though William Shearer is the name h signs to his checks. He lives at Tep Wash, He has a 1700 acre

Shearer, "when I was 18 years old, by getting a job as a messenger boy with the Burlington at \$5 a month. I stayed with the Burlington for a good many years and finally went over to the Northern Pacific and worked for 14 years for them. I came to Toppenish when the only building here was a water The land was Indian land at that I was appointed postmaster and for 15 years was postmaster here. few years ago Archie McDonald came to me with a proposition to go in with him in a big way in raising alfalfa had saved about \$12,000. We leased a lot of Indian land on a five year least and we bought some heirship land. I We planted 1200 acres to alfalfa and 500 acres to timothy and clover. I be-Oregon or Washington.

"We cut three times during the sea-We get from 5 to 51/2 tons to the acre have cut this season so far, 500 tons of alfalfa, 1200 tons of timethy and 200 tons of clover. We cut continuously from June 1 to October 1, em-ploying about 75 men to do the cutting and baling. Our warehouse holds about our hay pretty well shipped out. We have siready shipped 2000 tons of alfaifa hay this season, most of it going to Portland. We get \$12.50 a ton laid down in Portland. That brings us, less the freight, about 2.50 a ton. We have already made our third cutting so we have 4000 head of sheep pasturing on the alfalfa now. We get a double benefit from this. The profit on the sheep and the enrichment of the land. We keep 60 head of horses at work most

of the time. When the hay is out we let it dry for a couple of days and then rake it into winrows. In place of hauling it on sleds, as most ranchers do, we us a rake to rake the winrows into hay-We leave the haycocks one or two days, depending on the weather and then with a buckrake we take it to the The rakes are driven across big slings which elevate the hay to the top of the stack. It should stay in the stack for at least 30 days to let it sweat

stack for at loan before being baled. "Farming on a big scale as we do costs about \$2 a ton to raise the hay and put it in the stack If you figure in your interest on the money invested in the land or for the rent, as well as the cost of cutting, baling, hauling and delivery at the depot, you will find it costs you about \$6 a ton. This leaves a net profit of from \$10 to \$15 per acre per year.
"The best way for you to appreciate

what the hay industry means to Top penish is to go out with me in my machine and see for yourself"
Fred Wiggins and Charles Atwood of the Toppenish nursery, Mr. Robert Johnson, Mr. Shearer and myself, went gut in Mr. Shearer's automobile and visited in Mr. Shearer's automobile and the Toppenish district.

From the crest of a rolling hill we counted 47 haystacks, "Most of this land," said Mr. Shearer, "is in the Indian reservation and is leased by white men. The leases esually run for five years. The renter pays from three to five dollars an acre a year. Over 59,000 tons of alfalfa is tributary to Toppenwhile over 100,000 tons alfalfa is raised in this district. Much of the owned land-that is the heirship lands purchased by the whites is approximately 20,000 acres of alfalfa grown in the vicinity of Toppenish. A good deal of the alfalfa is sold in the stack to stockmen who drive cattle and sheep in here to be finished for the market. We have shipped out something over 2000 cars to outside points. We have found the most successful way of raising alfalfa is to level the land with Fresno scraper and sow eight pounds of seed to the acre, Some sow as high as 10 or 12 pounds to the acre. We disc the ground until it is as fine as flour. When the alfalfa has been planted we run a 30 foot leveler over it to fill in low places. The seed should not be drilled in deeper than a quarter of an this function from him, whether it be inch. Some of the farmers here use the ditch system, plowing irrigation chan-nels two and a half feet between the rows, while others use the check system. Personally, I prefer the check

> "I usually plant alfalfa some time between June and August though it can be planted at any time between March and October. New land is thirsty so you have to put more water on than when the alfalfa has been grown for several years. When the alfalfa is up about an inch we irrigate it again and after the third year we so over the field with a disc harrow or spring tooth har row. It looks as if all the alfalfa would be plowed up but of course it does not injure it any. It lets the air in to the roots and increases the fertility of the

tem were once in operation the wealthy man would take more interest in expenditure of funds and the saving would by the whites and while the Toppenish reduce taxes in so great a degree there district is already rich and productive. would be less occasion for complaint. it will be one of the richest sections of Washington in the next few years when all of our young orchards have come into bearing and more of the Indian land has passed into the hands of

Love is responsible for most of the happiness and unhappiness in the world,

About the cheapest brand of amusement is watching a pretty woman eating corn off the cob.

Every properly constructed mother thinks children were a lot more obedient

# Help Those Who Help YOU, Mr. DEALER

There is no copyright on the Golden Rule, and it is not open to improvement. It works mighty well in business—works for your pocketbook.

The manufacturer who goes into your newspapers like The Journal with his advertisements of goods on your shelves is trying to help #ou. The least you can do is to help him by showing his goods and pushing them. (If they were not worthy of it you wouldn't have them in stock, would you?)

Just make this one of the golden rules in your business to help the manufacturer who helps you.
