

HUERTA HAS FUNDS TO RUN GOVERNMENT THROUGH NOVEMBER

Apparent Purpose of Dictator Is to Delay Until Mexican Congress Convenes Nov. 20

(By the International News Service.)
Mexico City, Mexico, Nov. 8.—President Huerta's backbone has been stiffened by the receipt of sufficient funds to operate the government until the end of the present month and the implied promise of further financial aid if the new congress should act favorably on certain oil land concessions.

The loan, which has enabled the government to pay its employees some days in advance of the regular time has been obtained, it is understood through the influence of Lord Cowdray, head of the Pearson syndicate.

It was hinted today that the long conference last evening between Special Envoy Lind and Sir Lionel Carden, the British minister, may have had something to do with the activities of the Pearson syndicate.

No apparent change has come over the situation during the day. Recruiting activities continue and foreigners of all nationalities are still preparing for flight in anticipation of an outbreak.

Huerta's Announcement Premature.
No official announcement has been made regarding the report that Huerta is determined to retire, but it is generally believed that the announcement was premature, notwithstanding the reliability of Sanor Rabasa, by whom it was made.

The apparent purpose of Huerta and his supporters is to delay a definite reply to the United States until after the formal opening of congress, November 20, and a month or so longer if possible. The congress is expected to approve the oil concessions already planned, which will result in an immediate acquisition of needed funds by the government. Then a large shipment of arms and ammunition is expected from European sources on December 1, and a heavy shipment of French cannon in January.

Europe to Be Held Up.
After that the government would feel better able to openly defy the United States, relying on the influence of the concessionaires to obtain further aid from Europe.

It is asserted by friends of Huerta that he believes firmly that Great Britain would interfere in his behalf in the event of any aggression by the United States and would even go to the extent of invading the United States by way of Canada.

Only one member of the cabinet has had the temerity to combat this exaggerated notion—Senor De La Lanza, minister of finance.

OFFICIALS SUSPECT ACCUSED IS INSANE

Calvin W. Flynn, a federal prisoner in county jail, may never be tried on the charge that he hanging over him, for government officials strongly suspect that the man is insane. He was indicted for forging recommendations in his application for a civil service position as timekeeper, and was later arrested at The Dalles.

Saturday an insanity commission composed of Drs. W. F. Williamson and A. C. Anthony, the latter the government physician, examined him, and afterwards they expressed the belief, along with the attorneys present, that something is wrong with Flynn.

Flynn admitted being an excessive user of cocaine, and a former assistant United States Attorney Rankin has found out that Flynn has been confined in asylums in Minnesota, Wyoming, Montana and Washington, and in every instance his confinement was due to his drug habits, or through drinking.

TWO MEN ARE INJURED WHEN CAR HITS WAGON

Returning to the barn last evening with an express wagon, H. C. Zinner, of the Brooklyn Transfer company, and Boyd J. Boyce, Lents, were knocked from their wagon by a street car at East Forty-first street and Gladstone avenue. Zinner is at the St. Vincent hospital with a fractured skull, his injuries being serious. Boyce has a broken left arm and other minor bruises.

The two men had delivered a load of furniture on Gladstone avenue. They drove off that street to Forty-first street, the car striking them near the intersection of the two thoroughfares. They were assisted into the home of John E. Coffey, county clerk, and later removed to the hospital by the Ambulance Service company. Zinner lives at 691 Clinton street.

MEETING IN INTEREST OF STEPHENS SCHOOL

The Parent-Teacher circle of Stephens school met Wednesday afternoon, the president, Mrs. Thronson, presiding. The program consisted of a recitation by Leon Peterson, a recitation by James Freeseon, and folk dances by the first grade pupils. The program was followed by a business meeting.

Mrs. J. Allen Gilbert of the Irvington circle read a paper on "Characterizing the Mother and Mothering the Teacher" which was greatly appreciated by all. After the meeting adjourned refreshments were served and a social time enjoyed during which a number of names were added to the roll.

There are about 37 pine native to the United States of which 25 are western species, and 12 eastern.

DAIRY INDUSTRY WILL BE GIVEN ATTENTION

The Oregon Butter and Cheesemakers' association will hold its adjourned session at La Grande on December 8, in connection with the farmers' congress and tri-state dairy meeting, to be held there at that time.

The session will be devoted to the raising of dairy foods, care of the dairy herd, the hog, horse, as well as the manufacture and marketing of dairy products. The evening session will be devoted to the election of officers, appointment of committees and business for the ensuing year.

Among the speakers who appear on the program are Dr. James Withycombe of Corvallis, Prof. French of O. A. C.; O. M. Plummer of the Portland Union stockyards; J. D. Mickle, Oregon state dairy and food commissioner; I. W. Hansen, deputy dairy and food commissioner of Washington; Commissioner Wallace of Idaho; G. M. Lambert, United States dairy division of Washington, D. C., and many others.

Large cash prizes will be offered to the Oregon creamerymen, and a handsome silver cup, donated by Balfour Guthrie & Co., will be given as a grand sweepstakes prize, and will be open to the creameries of Oregon, Washington and Idaho.

This is the first time that a session of this kind has been held in eastern Oregon, and the people of La Grande are putting forth every effort to make this a success, and are preparing some special features. It is hoped that a sufficient number from Portland and the Willamette valley will make this trip, to permit of the chartering of a special train for the occasion.

President T. S. Townsend is putting forth every effort to make this one of the most educational meetings of the kind ever held.

Mrs. Laura P. Van Meter, mother of Edward M. Van Meter, dictionary operator for several of the court reporters in the circuit courts, died suddenly in her apartments in the Cumberland early yesterday morning. Apoplexy was given as the cause of her death.

Mr. Van Meter, who has an office in the court house, was working late and left her in the best of health at dinner. He was called home about 1 o'clock and found Mrs. Van Meter was about 65 years of age. She and her son came from Kansas City, Mo., several years ago. Funeral arrangements have not been completed.

The party journeyed to Salem Friday to investigate the cottage system of the home for the feeble minded, and learned many instructive ideas which will be put before the whole executive committee of the juvenile court at a meeting tomorrow morning. The committee is making plans to have the cottage system introduced in the Frazer Detention Home, and received encouragement from the county commissioners a few days ago.

Paraguay has valuable forest resources, the most important of which is quebracho, particularly rich in tannin.

THREE COUPLES FREED FROM MARRIAGE BONDS
R. G. Busse had a wife for two weeks 18 years ago and then she fled into the remote distance, he told Circuit Judge Kavanaugh. He and Annie A. Busse were married July 1, 1895, in Tacoma, and two weeks later he said she left him. The decree was granted.

Charles C. Allen was allowed a divorce from Charles M. Allen, a "spoiler" at side-shows, because of cruelty. They were married in 1910. The suit of Anna Coleman against Harry Coleman on grounds of cruelty was taken under consideration for a few days. They were married in May, 1911.

INDUSTRIAL HOME IN SALEM HIGHLY PRAISED

Portland Delegation Studies Cottage System of Home at State Institution.

The most homelike institution under state control is the verdict of a party of prominent Portland women interested in juvenile court work and Circuit Judge Gatens after their visit to the industrial department of safety for young women, and Mrs. Aristene Felts, president of the Oregon Congress of Mothers. The latter two are members of the state board of control.

The party journeyed to Salem Friday to investigate the cottage system of the home for the feeble minded, and learned many instructive ideas which will be put before the whole executive committee of the juvenile court at a meeting tomorrow morning. The committee is making plans to have the cottage system introduced in the Frazer Detention Home, and received encouragement from the county commissioners a few days ago.

LINN COUNTY CAN NOT AFFORD BRIDGE

Dividing Line Complication is Given as Reason of Lane County's Refusal.

Eugene, Or., Nov. 8.—That no wagon bridge will be built across the Willamette river at Harrisburg next year was the announcement of County Judge D. D. McKnight, of Linn, here today, after an interview with Lane county court, which refused to place in its budget for next year \$40,000 for Lane's share of cost of span. "That settles it," said Judge McKnight. "Linn county cannot afford to build the bridge alone."

One reason for Lane county's refusal to cooperate with Linn is that the dividing line between counties at that point is not in the center of the river, but several rods south of the banks and the entire bridge would be in Linn county. Either the county lines will have to be changed or another site for the bridge chosen.

COMMISSION FORM DISCUSSED IN LENTS

Grange Holds Interesting Session; Four Candidates Are Initiated.

Lents, Nov. 8.—A commission form of government for the state, with both the senate and house of representatives abolished, was the main topic of discussion at the all-day session of the Lents grange in Grange hall today. It was stated that C. E. Stence, state master of the grange, would take steps toward campaigning for this change upon his return from the National Grange convention. The present commission form of government in the city was also discussed.

COUNTY ROAD MAPS MADE BY ASSESSOR

County Assessor Reed has had prepared maps showing all roads in Multnomah county. Close examination of 15 roads was necessary to complete this work which was undertaken by the drafting department of the office following the completion of the 1913 assessment roll.

SALES OF STOLEN GRAIN WILL BE INVESTIGATED

A grand jury investigation of wholesale thefts of wheat from the Crown Mills is to be the result of a hearing given 10 boys in the juvenile court yesterday. Judge Gatens continued the cases until next Saturday pending the investigation. The boys admitted the thefts and told of selling the wheat to various persons for an average price of one cent a pound. These sales will be investigated under the statute making it a crime to purchase stolen goods.

Many worked out coal mines in Pennsylvania are being filled in with sand and other waste material to prevent their surfaces caving and damaging valuable property.

MORE THAN 91,000 BALLOTS ARE CAST IN OREGON ELECTIONS

Returns Nearly All in and Official Canvass Has Been Made; Results Given.

Returns from last Tuesday's referendum election are practically complete, though a few precincts in remote parts of the state are still missing. In all the larger and more populous counties the returns are all in and the official count has been made.

The total vote cast was probably a little in excess of 91,000. The results of the election as shown by the figures now at hand are as follows:

Yes	University Regain Fund	55,096
No	University Regain Fund	37,078
Yes	University New Building Fund	50,791
No	University New Building Fund	39,333
Yes	Sterilization Act	59,833
No	Sterilization Act	50,335
Yes	County Attorney Act	51,677
No	County Attorney Act	35,845
Yes	Workmen's Compensation Act	53,233
No	Workmen's Compensation Act	38,599

Not the One She Meant.
From the Philadelphia Telegraph.
Here is one that was told the other afternoon by Congressman Sereno Payne of New York state when the conversation turned to scenes and incidents in the court room.

Some time ago the congressman said, a civil suit was tried in one of the New York courts, in which a pretty young woman from Texas was one of the principal witnesses.

"And now, Miss Smith," remarked the examining lawyer, after the witness had been duly sworn, "you reside in the state of Texas, do you not?"

"Yes, sir," easily answered the fair witness, "in Galveston."

"How long, Miss Smith," continued the lawyer in the same formal tone, "have you lived in Galveston?"

"Ever since the flood, sir," was the prompt response of Miss Smith.

"Ever since the flood?" gallantly remarked the judge, sitting up and beginning to take notice. "My dear young lady, you don't look your age by 4000 years."

Electrical apparatus taking current from a light socket has been invented for forcing the growth of plants indoors.
