These figures do not include the assessed value of public utilities, which assessments are made direct by the state tax commission.

The state tax levy will be made in early summer which is given weight by

state tax commission.

The state tax levy will be made in December. Last year it was a little more than 1.2 mills, but this year it will probably be four times as high according to an estimate made by Chairman Charles V. Galloway of the tax commission.

This large increase will be due to the fact that the levy is to provide for the appropriations made by the last legislature. An amendment to the law will easible the tax commission hereafter to equalize the tax levies so they will be more nearly uniform each year, this property.

Ease Stiff, Sore Joints and Musache Promptly Vanish.

Most all rheumatism is due to one ause-weak kidneys," says a noted authority. The kidneys become clogged up, get sluggish and filter or strain out only a part of the poisonous waste matter and uric acid, all the rest remains in the blood and circulates through the system, where it lodges in the joints and nuscles, and causes all the trouble,

The only way to overcome this, is make your kidneys work properly. You can easily and surely do this by taking a little Crozone, which never falls to act

Croxone not only cleans out the dogged up kidneys, strengthens them and makes them active, but it neutralites and dissolves the poisonous waste substances, and uric acid, that scratch and irritate and cause rheumatism, so the kidneys can filter it from the blood

An original peckage of Croxone costs but a trifle, and every druggist recom-mends and sells it on a positive money-back guarantee. Three doses a day, for a few days, is often all that is ever needed to overcome the worst backache or most annoying urinary disorders.-
