Probably fair tonight and tomorrow; with winds north; humidity 85.

WRECKED VESSELS STREW SHORES OF THE GREAT LAKES

Scores Drowned in Great Wind Storm and Blizzard That Swept Region East of the Mississippi.

MEN CLING TO RIGGING BUT RESCUE HOPELESS

Ohio Valley Covered With From 2 to 6 Feet of Snow; Trains Stalled.

(United Press Lined Wire.) Chicago, Ill., Nov. 11.—That scores perished in the storm which has been sweeping the Great Lakes since early Sunday was feared here today.

All on board the unidentified steamship on Gull Rock, Manitowish Island, in Lake Superior, were believed to be doomed.

The vessel's decks were awash when dawn broke today, and the members of the crew could be seen, lashed in the rigging. It was believed there were 24 on board.

It is believed the 600 foot freighter sighted yesterday floating bottom upward off Port Huron in the Amos Clarke of the Livingston fleet.

The steamship L. C. Waldo also was missing on Lake Superior and is supposed to be lost.

The Columbus, on the bar outside Erie harbor, was pounding heavily today and threatened momentarily to go to pieces.

Telegraphic communication was badly disrupted, and a cable line reported that when it is reestablished many more.

CLEVELAND BURIED BY SNOW; NO CARS, WIRES DOWN, MANY HUNGRY

Electric Lights Cut Off From Residence Districts; Snow Six Feet Deep.

Cleveland, Ohio, Nov. 11.—Telegraphic communication was established today between here and the outside world for the first time since early Sunday.

The wind had abated, but snow was still falling, and conditions in the city were deplorable.

No street cars were running, the telephones were out of commission, and most of the town was without electric lights.

In the residence section the food supply was nearly exhausted, for grocers could not make deliveries.

The storm struck the city Sunday, and today it was still snowing. The "heat" car system was put out of commission yesterday.

The property damage was estimated today at \$1,000,000. The loss of at least three lives also was directly attributable to the storm.

Trains Stalled Near Pittsburgh. Pittsburgh, Pa., Nov. 11.—Snow ceased falling here today, but not until it was 15 inches deep on the level, and the gale, which at times reached a velocity of 50 miles an hour, was beginning to subside.

The storm was the most severe in Pittsburgh's history. Throughout the entire western part of the state conditions were as serious as here.

AGAIN THAT MISCHIEVOUS CHILD!

BELIEF GROWS HUERTA WILL RETIRE IN FACE OF DISFAVOR OF EUROPE

London Reported to Be Ready to Withdraw Recognition; France to Curtail Loans.

(United Press Lined Wire.) Washington, Nov. 11.—The administration was more confident today than for some time past that President Huerta of Mexico will retire shortly.

No reason was given for this belief, but it was understood that several other foreign diplomats at Mexico City have just been notified.

The secretary submitted to the diplomatic corps a complete statement of the president's policy following a conference last night between Secretary of State Bryan and the Central American ministers here.

Fledge Their Support. The secretary submitted to the diplomatic corps a complete statement of the president's policy following a conference last night between Secretary of State Bryan and the Central American ministers here.

EDITOR OF NEWS IS PLACED UNDER ARREST

Reckless Driving Is Charged Against Dana Sleeth; Companion Accused.

Dana Sleeth, editor of the Portland Daily News, was arrested this morning at 2 o'clock on a charge of recklessly driving his automobile in the downtown district.

The electric lights were cut off except in the heart of the business section, owing to the danger from fallen wires.

The property damage was estimated today at \$1,000,000. The loss of at least three lives also was directly attributable to the storm.

CORNER IN BUTTER AND MILK BUSINESS OF THE PACIFIC NORTHWEST IS SAID TO BE IN PROCESS OF FORMATION BY UNION MEAT CO.

Willamette Valley Dairies Declare They Have Been Approached by Persons Representing Themselves Company Agents; If They Refused Attempt Made to Squeeze.

The big meat packers are after the dairy industry of the Pacific northwest and an effort to "corner" the creameries and milk depots has been under way for some time.

According to reports the meat packers have decided to control absolutely the milk and butter business of the Pacific northwest and have placed several million dollars at the disposal of organizers to carry the project to a successful termination.

It is stated that the Union Meat company of this city, which is said to be owned jointly by the Swift, Morris and Armour interests, has had organizers through the Willamette valley for several weeks in an effort to secure control of leading creameries and dairies.

Several of the leading creameries acknowledge that they have been approached by persons representing themselves to be connected with the Union Meat company of this city.

Country creamery interests say that the meat company is endeavoring to drive them out of business when they will not sell out at the price offered.

With only limited capital at their command, the country interests claim they are being pushed to the wall while the losses sustained by the city interests are insignificant in comparison with their total business.

Several years ago the Union Meat company started a creamery plant in this city in connection with its meat business.

Now the reports are that the company is not only after the leading creamery plants of the Pacific northwest but is trying to obtain the dairy interests as well.

Only a few months ago the Swift interests entered the salmon canning business by purchasing plants on the north Pacific coast under the title of Libby, McNett & Co.

'GET OUT!' SHOUTS GOMPERS TO NEW JERSEY DELEGATE

Jacob Tazelaar, Exposed as a Traitor to Organized Labor in Mulhall Hearing, Denied Seat in American Federation

BANG OF THE GAVEL SHUTS OFF SPEECH

Appeal for Hearing Answered by Order to Remove Himself.

(Seattle, Wash., Nov. 11.—Exposed before the recent lobby investigation committee of congress by Colonel Martin H. Mulhall as a traitor to organized labor, Jacob Tazelaar of Orange, N. J., was denied the right to sit as a delegate and driven from the floor of the convention of the American Federation of Labor today by President Samuel Gompers.

Tazelaar made a spectacular effort to secure recognition by the chair and failing, cried in a loud voice: "All right; I'll take my medicine."

The committee on credentials reported in favor of seating Max Hahn of Chicago, elected to take Tazelaar's place. Tazelaar was a member of the Painters and Decorators' union, and prior to the Mulhall investigation was elected a delegate to the present convention.

Helped Defeat Friend of Labor. During the investigation Mulhall said that Tazelaar and other union officials in New Jersey had been in his employ during the campaign to elect Congressman Hughes of New Jersey to the senate, in an effort to defeat Hughes. Mulhall said that he paid them \$1000 for their services.

Mr. Mulhall investigation the executive council of the International Union of Painters and Decorators decided that Tazelaar could not represent them at this convention and chose Hahn in his place.

The committee report was read today, Tazelaar leaped to his feet and shouted: "Mr. President!"

Gompers hammered with his gavel and continued on Page Three.

7000 LITIGANTS OVER LAND GRANT CASES COMPLETE APPEAL

Bill of Exceptions Filed in Federal Court in Government's Suit.

A bill of exceptions appealing the cases of 7000 cross-complainants and intervenors in the litigation between the government and the Southern Pacific railway over the Oregon and California land grant was filed in federal court this morning by Attorney Lewis C. Carrigan.

The bill of exceptions is an immense document of nearly 100 pages. Forty-five of these pages are filled with the closely printed names of the 7000 appellants.

Principal among the alleged errors cited in these assignments is Judge Wolvort's ruling against the defendants in dismissing the suits of the intervenors and cross-complainants on motion of counsel for the government and the railroad company.

Among other points in the assignment of errors the allegation is made that the government has no grounds for the forfeiture that was made, but under the constitution only has the right to order enforcement from the railroad company of the terms of the grant.

Most of the defendants in today's proceedings are those who applied to the company to purchase 160 acres of land under the terms of the grant and were refused.

The wage increase totals \$6,000,000 annually, or about half what the men asked. The arbitrators were Vice Presidents W. W. Atterbury of the Pennsylvania and A. H. Smith of the New York Central railroads, ex-Mayor Seth Low of New York, New York State Arbitration Commissioner J. H. Finley, Vice President L. E. Sheppard of the Order of Railway Conductors and Editor Daniel E. Coase of the Railway Timesman.

HILL LINES WILL CONSTRUCT HUGE DOCKS AT ASTORIA

Extensive Improvements Are Necessary to Accommodate Two Great Steamers That Will Enter Coastwise Trade.

CURIOSITY NOW AS TO WHAT S. P. WILL DO

Interest Whether Competition Will Force Road to Complete Natron Cutoff.

To accommodate the two mighty steamers that will ply between Astoria and San Francisco after January 1, 1915, the Hill railway interests plan some extensive improvements at Astoria that will put that city distinctly on the map, and at the same time make Portland a greater seaport than ever.

According to the plans for the steamship line, as announced yesterday by James J. Hill in his speech before the Portland Transportation club, these ships will be the finest that modern marine engineers can design.

To reach the dock to transfer thereto the loads of passengers and freight, new tracks must be laid. To load the vessels with the down cargo, great derricks and cranes must be erected.

It was stated at the office of President Joseph H. Young of the North Bank this morning that these improvements will not be undertaken for several months, for the reason that the ships themselves are barely begun.

Keels Have Been Laid. The great twin keels for these ships have been laid at the Cramps' shipyard in Philadelphia, and the ribs have been put in place. That is about as far as construction has proceeded. But this work will be hastened. If needed, it will be prosecuted night and day, so

FLOWER SHOW OPENS IN BURST OF GLORY; RARE BLOOMS SHOWN

Armory Exhibition Surpasses Any Display of Kind Ever Given Here.

The Autumn Flower Show in all of its loveliness, fragrance and grace, opened this afternoon in a burst of glory. Never before has the interior of the grim old Armory presented such a beautiful and festive appearance.

More than 12,000 feet of smilax is utilized in the canopy-like effect achieved overhead. Great ropes of glossy green foliage are suspended from the ceiling to the sides and corners of the Armory and the gallery is further outlined with the same foliage, being caught in place with great gilt baskets filled with deep yellow chrysanthemums and Oregon grape.

With this beautiful background the florists, nurserymen and seed men of the city have worked out the most marvelous effect was the thing sought, rather than the display of individual stock, and the result is all that could be desired.

The entrance to the main room is flanked on either side by tall shrubs and trees embodying all of the native and many imported growths. These

WHIPPING POST CALLED "CRUEL AND INHUMAN"

Washington, Nov. 11.—Representative Evans of Montana today introduced a resolution in the house directing the department of justice to institute injunction proceedings to prevent the whipping post law in Delaware becoming effective. Evans called the whipping post "cruel and inhuman punishment."

American Was Wreck Victim. Melun, France, Nov. 11.—E. A. Magee, an American, was believed today to have been killed in the wreck here a week ago when 16 persons met death. Seven of the unidentified victims were buried this afternoon.

Steam Pipe Bursts, Kills Three. Indiana Harbor, Ind., Nov. 11.—Three men were killed today and the building of the Inland Steel company wrecked when a pipe transmitting steam exploded.

Woman Files 174 Miles. Mourmelon la Grande, France, Nov. 11.—Mrs. Pollie aeroplane 174 miles setting a record for women.

SPOTLIGHT BARES NEW EVIDENCE IN POLICE SCANDAL

Signed Statement Brings Additional Names Into the Limelight That Now Sweeps in Many Directions.

FORMER CHIEF SLOVER MAY HAVE TO EXPLAIN

Hearing Will Begin in Council Chambers Next Thursday Morning.

With a signed statement in the hands of the members of the municipal civil service board incriminating nearly 75 men besides the previously mentioned, the investigation of the police department is rapidly approaching a climax.

Shortly after noon yesterday Commissioner Caldwell received an anonymous communication in which the names of about 60 men were given as being mixed up in gambling charges.

It is alleged that some time ago, while captain of the second night relief, Slover was found asleep by a patrolman who had been sent to the station.

It is alleged that some time ago, while captain of the second night relief, Slover was found asleep by a patrolman who had been sent to the station for being asleep on his beat.

When he reached headquarters he was told at the desk to go into the captain's office and report to Slover. When he went into the room he found Slover asleep. It is charged, and it was several seconds before he could awaken his captain and only after he had tapped him on the shoulder several times.

ANTI-JEWISH FEELING IS GROWING AT KIEFF

Cavalry Patrols Streets and Outbreak Feared as Protest Against Verdict.

(United Press Lined Wire.) Kieff, Russia, Nov. 11.—Anti-Jewish feeling was at fever heat today. An outbreak seemed imminent.

The government evidently did not want a slaughter of the Jews at a time when foreigners' attention is so generally centered on its treatment of its Hebrew subjects and had taken what looked like genuine precautions to keep order. Cavalry patrols of streets and crowds were not permitted to gather.

The home of Mendel Bellis, acquitted last night on a charge of the alleged "ritual murder" of 12-year-old Andrei Muschinsky, was under a heavy military guard. Bellis has received many threats and justly feared assassination.

The verdict by which Bellis was released said nothing about "ritual murder" but leaders of the anti-Jewish element were telling the people that the jury found one had been committed, though Bellis was acquitted of it.
