

HOUSE FURNISHINGS IN UNITED STATES SHOULD BE CHEAPER THIS YEAR

Tariff Makes Many Reductions; Woolen Blankets to Be Cheaper.

By Bond P. Geddes.
(Staff Correspondent of the United States.)

Washington, Nov. 14.—From the garret to the cellar, furnishing the American home should be cheaper when the new tariff law gets into working order. Import duties on curtains, furniture, carpets, table linen, glass and china-ware, kitchen utensils and other household articles are all sharply cut. Some of the tax reductions may eventually filter through to Mrs. American Housekeeper. Foes of the new law—its political enemies—assert that the tariff slashing will have little effect upon American pocketbooks at retail stores. The duties on household furniture has been cut from 35 to 15 per cent. While little foreign furniture is bought by Americans, the slicing off of 20 per cent of the tax at the American board will stimulate foreign competition and, Democrats believe, force down prices. Lumber also is on the free list, giving American manufacturers of furniture the opportunity to buy Canadian planks cheaper. Sanguine Democrats believe 5 per cent will be a fair decrease in retail furniture prices, a predicted saving of \$5 on \$100 worth of new furniture.

Fifteen per cent duty is taken off kitchen utensils, but foreign competition is slight in this field. The reduction is potent, however, with power to force retail prices lower on pots, pans and kettles. American manufacturers of aluminum ware should be cheaper, the duty having been cut about 40 per cent. Putting in a new furnace may be more measurable, economically, under the new law as the duty on such household articles has been reduced from 45 to 30 per cent. However, few foreign furnaces are now imported.

For the dining room table, dishes of china, porcelain, earthenware and stone are reduced in duty about one-fifth. The retail prices on these articles is expected by friends of the law to drop at least 5 per cent, affording a saving, for instance, of \$1 on a set of dinner wares worth \$20. On cheap earthenware and pottery, a reduction of retail prices can be hardly expected.

While the duty on cotton tablecloths is reduced from 40 to 25 per cent, estimated importations next year are only \$400,000, not enough, it is believed, to cut retail prices even at the department stores. Cotton towels, dollies, blankets, sheets and pillow cases, etc., are reduced from about 45 to 25 per cent in the new law. Some slight retail price reductions are expected to result. Linoleum should be slightly cheaper. Foreign imports next year under the new law are expected to aggregate \$2,000,000 and force retail reductions in this country. Duty on cotton window curtains reduced about 12 per cent and some portion of that reduction may reach the buyer.

A saving of from 25 to 50 cents on woolen blankets is expected by friends of the new law, because of the sweeping tariff reductions on wool and its products. This decrease will hardly be felt for a year or more. From 5 to 10 per cent slashes in retail prices on cotton and woolen carpets is also confidently predicted by the Democrats.

POLITICAL TROUBLES OF RUSSIA INCREASING

Vienna, Nov. 14.—Serious political trouble is threatened in Russia, according to confidential advice received here.

Today from St. Petersburg, Moscow, Kiev and other cities. The police forces are being strengthened in many places, doubtful men are being weeded out and secret agents are very active. Meetings are being broken up, domiciliary searches are frequent and numerous arrests are being quietly made.

The strained situation is attributed to feeling growing out of the Belle trial, the persecution of the labor press and to widespread industrial unrest.

When washing dishes, pots and pans use the helper that cuts the grease and sterilizes—
