When indigestion occurs, the stomach is weakened, the intestines are filled with effete, putrifying matter, and the liver is inactive and fails to secrete the bile necessary for a proper assimilation of the food. As a result, every part of the body suffers. Languor, dizziness, headaches, nervousness, follow. Beecham's Pills go right to the seat of the trouble. They cleanse the intestines, strengthen the stomach, and force the liver to new activity. In consequence they tone up the system, fortify against disease and pave the way for health.
