

KING'S STRATEGY WINS FOR UMATILLA PROJECT

Congressman Sinnott Seizes Opportune Moment to Present Case.

(Washington Bureau of The Journal.)
 Washington, Nov. 20.—Judge Will R. King, chief counsel for the reclamation service, and Congressman Nicholas Sinnott of Oregon, who are close friends, are being congratulated over a bit of strategy they resorted to in order to expedite the West Umatilla extension. A short time prior to the issuance of the order authorizing the west extension of this project Congressman Sinnott had arranged for a conference between himself and Congressman Baker of California and the reclamation commission for the purpose of considering the closing of the railroad gates designed to reclaim the Lower Klamath marshes.

Judge King is a member of the reclamation commission, and before taking up the consideration of the gate matter he called Congressman Sinnott aside and told him that he had been urging action on the proposed west extension of the Umatilla project and had been endeavoring for some time to impress the commission with the urgency of the demands in Oregon for the West Umatilla extension, and that this was the "psychological moment" for pressing the west extension matter for action. King suggested to Sinnott that before the conference close he bring up the matter in some way before the commission.

Towards the close of the conference the talk shifted for an instant to irrigation. The Oregon congressman seized the opportunity to comment on the long time it was taking to decide on the West Umatilla extension. He told the commission that the people of Oregon were anxious to learn as soon as possible what would be done in the matter, saying further in a humorous way that he was thinking of taking a trip home; that to get there he would have to go through Hermiston and was reluctant to do this unless he could bring some word of encouragement to Umatilla people about the west extension. Controller Ryan of the reclamation service assured all present that action in the matter would be taken as quickly as possible.

This happened on Saturday, November 1. Announcement of the issuance of the order for the West Umatilla extension was made by the department of the interior on the following Thursday.

ADVISORY BOARD URGES COMBINING CITY AND COUNTY

(Continued From Page One.)

cause repeated levies. The committee states: "We believe the entire system needs overhauling, simplifying and reconciling."

Government Should Be United.

The report says: "Some of us should be united in urging governmental activities of the county under one administration. * * * May it not well be asked why the schools in this county, now divided into 53 districts, should not be united in one, why they should be divided into two road districts instead of one, indeed, why the city and county functions should not be combined?"

DISAGREEMENT CERTAIN ON THE CURRENCY BILL

(Washington Bureau of The Journal.)
 Washington, Nov. 20.—The senate banking and currency committee being hopeless of agreement will report the Glass currency bill Saturday with a statement of disagreement.

Preparing Dallas Budget.

Dallas, Or., Nov. 20.—At the meeting of the city council Monday, the finance committee was ordered to prepare the city budget for the next year and report at an adjourned meeting to be held next Monday evening. It has been customary to leave this matter until late in December, but the new laws make it obligatory to shove it a month ahead, and both Dallas and Polk county court are now busy in an endeavor to forecast what will be necessary to operate them during 1914.

Will Muzzle Dallas Dogs.

Dallas, Or., Nov. 20.—Next Saturday an ordinance will go into effect in Dallas prohibiting the running at large of dogs. The council proposes to keep all dogs off the street that are not in leash, and yet to try and collect the heretofore tax in vague of \$3 a year for males and \$5 for females. The opinion of attorneys as to whether this tax can be collected differs, and the enforcement of the ordinance will probably result in the matter going into the courts.

Permit Denied Utahans.

(Salt Lake Bureau of The Journal.)
 Salt Lake, Nov. 20.—Permit to sell stock in this state was refused the Universal Metallic Tie company of Utah by Corporation Commissioner Watson yesterday afternoon on the ground that the company has not complied with the corporation laws pertaining to the admission of foreign corporations into this state. Attorney Edwin P. Hughes of Ashland is agent for the company.

Printer Is Buried.

Dallas, Or., Nov. 20.—The remains of C. B. Olson, late foreman of the Itemizer, who died suddenly last week, were buried in Salem Sunday, Rev. A. Winter, of the Salem Evangelical church, assisted by Rev. D. M. Metzger, of the Dallas Evangelical church, conducted the services. Salem Typographical union members were pallbearers, and the floral offerings were many.

Found Horses—Men Gone.

Centralia, Wash., Nov. 20.—Sheriff Foster and Deputy Sheriff Berry went to Toledo Tuesday night to recover two horses that were stolen from a man in Hillsboro, Or. The horses were found tied to a tree, but a woman had told the men that the sheriff was after them, and they fled.

Portland Company Wins.

Centralia, Wash., Nov. 20.—The contract for building a new 100-foot steel span bridge across the Deschutes river, 19 miles northeast of Centralia, has been let to the Coast Bridge company of Portland for \$2500. The old bridge was recently condemned by the Thurston county commissioners.

Claims British Help.

Mexico City, Nov. 20.—President Huerta, who all along has sought to give his adherents the impression that the powers would support him against the United States, intimated to them today that the British West India squadron, on its way to Vera Cruz, was coming to oppose the American warships there.

"Lumber King" Is 79 Years Old.

St. Paul, Minn., Nov. 20.—Frederick Weyerhaeuser, the "lumber king," is 79 years old today.

characterized as "deserving help from the county."

Of good roads, the committee says in part: "Our budget estimate in this respect looks to permanent standard construction, with allowance for emergency work of repairing on existing highways. We are now at the parting of the ways in road construction in Multnomah county, and must build for the future and build for lasting quality." The committee recommended \$124,000 for the Columbia highway.

Two Mill Road Tax Opposed.

Joseph N. Teal voiced his objection to a proposed 2 mill tax for roads, saying that the committee had granted all that the superintendents of the two county road districts and Engineer Lamminger has asked for, and that this amount was sufficient. He termed 2 mills as excessive, and remarked that it would impose a needless additional burden on the small taxpayer, who is already laden with street and other improvement taxes.

A salary of \$1200 was granted for the office of sealer of weights and measures, created by the last legislature. The committee further recommended a revised system of accounting whereby expenses should be charged to the month in which they are incurred rather than the following month, as is now the custom; checking of working time of employes, and standardized road work with proper accounting.

Budget Estimates.

Registration and elections	\$ 77,125.00
Board of county commissioners	8,985.00

The report is signed by Joseph N. Teal, Carl E. Kelly, A. H. Averill, C. C. Coit and Henry E. Reed.

CALIFORNIA TO VOTE ON PROHIBITION NEXT YEAR

Los Angeles, Nov. 20.—California will vote in 1914 on a constitutional amendment prohibiting the manufacture or sale of intoxicating liquors within the state, if plans launched today by temperance workers materialize.

After several hours of debate, 1914 was the year selected for the test by a state convention of temperance advocates late yesterday. An initiative petition to place a Prohibition amendment on the ballot next year will be circulated throughout the state at once.
