

OREGON GROWERS MUST PRODUCE BETTER QUALITY OF POTATOES

IDAHO IS MAKING POTATO TRADE FROM WILLAMETTE VALLEY

Rural Stock From There Enters San Francisco Market and Captures the Demand; Oregon Stock Has Deteriorated in Quality.

Today's Produce Trade. Eggs—market steady. Chicken prices reduced. Walnuts come from south. Vests quoted higher. Dressed hogs hold steady. Turkey market better. Some shippers' prices for Idaho have been reduced. Potato bids are reduced. Fancy grapes are offering. Hold onions for more.

There was a rather quiet tone in the potato trade for the day among front street. With the recent lowering of prices in the south there has been a corresponding reduction in the price of fancy stuff at Oregon country points. Former bids for fancy shipping stock were little stock is being offered by growers but this condition is not felt in the south, according to latest information. Some shippers' prices for Idaho have been reduced to such an extent that the California trade that every year comes from Oregon to the California market has been willing to do business at.

The entrance of Idaho potatoes into the San Francisco market this season has been a real hard blow to Willamette valley stock. The Idaho growers are going to the front street market and they are putting up a very fancy potato to capture the business. The stock is being graded according to the wants of the market.

Hereafter there has been practically no demand for any variety of potato except the Idaho. The market for Idaho has been so good that they have quickly captured the demand.

TURKEY MARKET IS BETTER

There is a slight improvement in the demand for turkeys on front street. Sales are reported at 23 to 25c a pound for fancy dressed birds. While the higher prices were received only in a limited way, the market acts better. Receipts growing.

CHICKEN PRICES ARE DOWN

Prices in the chicken market were cut today by some of the leading handlers in order to clean up some of the increasing surplus. Some sales of hen and rooster were down to 13c a pound during the day.

ONION QUOTATIONS ARE FIRM

With onion growers unwilling to sell any of their stock below 12 a cent a bushel, shipping points and with little offered at this figure, the jobbing market along Front street is generally firmer and higher.

VEAL MARKET RULES HIGHER

Due to the temporary scarcity of country killed calves on the local market, prices are higher today by about a half cent. Hogs are unchanged. Lamb and mutton are on a par with last week. There is little demand for these except at low prices.

EGG PRICES ARE COMING DOWN

With prices so high that the demand has been killed, leading handlers of eggs along front street have reduced their values to 48c generally, although some are offering a half cent below this. Receipts show no improvement.

FINE GRANTS PASS TOKAYS IN

Some extra fine Tokay grapes from Grants Pass were displayed on front street today and attracted much attention. The stock was as good as any that has been offered in the Portland section. The price was generally placed at \$1.75 a crate.

SHIPPERS' WEATHER FORECAST

Weather bureau sends the following notice to shippers: Protect shipments as far north as Seattle against minimum temperatures of about 32 degrees; west to Spokane, 22 degrees; south to Astoria, 22 degrees; south to Astoria, 32 degrees. Minimum temperature at Portland tonight, about 32 degrees.
