

SCHOOL BUDGET IS CIVIC LEAGUE TOPIC

R. H. Thomas, Clerk of School Board, Chief Speaker at Meeting.

The Oregon Civic League devoted its meeting at the central library last night to school budget interpretation. R. H. Thomas, clerk of the school board, was chief speaker.

The school board's budget is \$2,164,000. An additional 1 mill levy for a technical high school is desired, also \$850,000 in bonds for new buildings and grounds, including an agricultural high school.

No item received adverse comment or provoked discussion other than that given by Mr. Thomas, except the \$25,000 for physical education. This was in the budget originally, then withdrawn on opinion of the school board's attorney that legal authority for such an appropriation did not exist. Dr. Ernst A. Sommer, school director, received from the attorney general an opinion stating it entirely legal for the board to make an appropriation for physical education. The item was reinserted in the budget. R. L. Sabin, chairman of the board, dissenting.

Paul S. Seelye, of the Christian science committee on publications, opposed the inclusion of medical inspection in the physical education plan. He asked what would be the attitude of the board if parents opposed medical inspection. Two of the school directors present—Dr. Sommer and Judge M. G. Munly—said children would certainly not be subject to examination if parents opposed. Chairman R. L. Sabin answered that it was a bridge he would cross when he came to it.

George S. Shepherd and George Arthur Brown spoke in favor of the plan of physical education proposed by Dr. Sommer, both of medical inspection of a nature to detect bad teeth, poor eyes, contagious disease, mental or physical deficiency and the recreational training.

Charles D. Mahaffie, a lawyer, inquired of Mr. Thomas why the school budget allows for rebates to taxpayers for prompt payment of taxes when the legislature at its last session abolished rebates.

RED CROSS AID FOR LOGGERS IS PLANNED

Miss Boardman Suggests Co-operation With Companies to Provide Care.

(Special to The Journal.)
Washington, Nov. 21.—Cooperation with lumber companies in a given locality is planned by the American Red Cross society in an effort to lessen the number of fatal accidents in saw mills and logging camps and to give first aid to the injured. Miss Mabel T. Boardman, chairman of the executive committee, has presented the plan to

the National Conservation Congress. Briefly, Miss Boardman suggests starting of a \$2000 fund, the Red Cross to contribute \$500 and logging companies \$2500, each contributing according to the number of their respective camps and employees. This fund will provide for the salary and expenses of a physician trained by the Red Cross for instruction to men engaged in the lumber business both for the prevention of accidents and first aid to the injured.

"Such a doctor," suggests Miss Boardman, "would travel from camp to camp, arranging to give one or more lessons a week at each. The classes are formed from volunteers who are given practical training. The men soon realize the importance of such knowledge and are anxious to learn. Each camp should be

supplied with first aid outfits suitable to the needs of logging accidents, and the men be taught how to use them."

Saving Time.

From the Cincinnati Enquirer.
The busy man chased a streetcar for three squares because there would not be another car along for one minute. A trolley wire was down and the conductor told the busy man it would take three minutes to fix it so the car could stop. The busy man hailed a passing taxi and paid \$1.75 rather than wait the three minutes. Then he dashed into a cafe to get a drink before he went up to his office. One hour and 40 minutes later he was still arguing politics with an absolute stranger who had

remarked to the barkeep that Snikks would defeat Miggas for mayor.

Estimate of Citrus Crop.

Riverside, Cal., Nov. 21.—Inspector R. R. Sutherland, of a citrus action company, estimated that the southern California orange crop would total 27,000 cars; lemons, 6000 cars.

Porto Rico Hopes for Liberty.

San Juan, P. R., Nov. 21.—Dr. Arthur Yaguer, inaugurated as governor, said he expected the Wilson administration will give Porto Rico more home rule than heretofore.

Calma Corsets at \$2.00 and \$3.00

Lace Front Corsets are soft and pliable, being practically boneless. Physicians recommend them because they are hygienic and anatomically correct. Dressmakers everywhere suggest this corset knowing that they are a distinct aid to their art. Calma Corsets are not expensive. They cost only a fraction of what many a modish corsetiere will charge. Put on a Calma Lace Front Corset and you will win the true lines of youth at surprisingly low cost and you will understand at once the reason for the enormous increase in their use. PRICES \$2.00 AND \$3.00.

This cake, made by the Cottolene recipe, using *only* Cottolene for shortening, won the *first prize* three separate times at the Texas State Fair. Cottolene recipes are all winners, at home or elsewhere.

Cottolene

Remember, however, that you do not need to use as much Cottolene as you would of butter or lard. Always use one-third less when cooking with Cottolene, for Cottolene goes much farther.

You save money, any way you figure, if you cook with Cottolene, and your food is more wholesome and more digestible. If you will give Cottolene one fair trial, you will continue to use it for everything except on the table.

This is the recipe for the prize-winning cake, by Mrs. W. J. Stone, Dallas, Texas:

Three-fourths cup of Cottolene, 2 cups sugar, 3 cups flour, 1 cup milk, 2 teaspoons baking powder, 6 whites of eggs beaten to stiff froth, 2 teaspoons lemon extract. Cream 3-4 cup of Cottolene with sugar, add milk and flour alternately until well mixed, then add whites of eggs and extract. Grease tins and flour them; light the gas just as you place cakes in stove. Put all three layers in and cook at once. Let the cake cool an hour or so before icing.

FILLING—Two cups sugar and just enough water to moisten, cook until it threads from the spoon. Beat whites of 2 eggs to stiff froth, pour the boiling syrup over the whites and beat constantly, then add 1 teaspoonful of lemon extract and 1-2 package-shredded coconut, and ice your cake. If icing begins to get too stiff to ice add about 2' tablespoons of boiling water and beat well.

Give yourself the satisfaction of knowing what Cottolene can do. Order a pail of it from your grocer; also send to us for the interesting FREE Cook Book, HOME HELPS, written by five leading authorities. Write for it today
