SHORTAGE IN WHEAT STOCKS ARE FORECAST BY NORTHWEST DEALERS

lamook, Says There Is But Lit-

tle to Be Had.

FURTHER REDUCTION IS FORCED HERE IN THE PRICE FOR EGGS

Market Drops to 38c and 40c a Dozen for Fresh Stock, but Most Dealers Are Quoting the Latter Figure for the Day.

> Today's Produce Trade. Eggs down again. Chicken demand good. Turkeys very slow. Country meats steady. More onions offering. situation strong. Hop situation quiet. California produce poor. Potato trade slow.

There was a further reduction in the price of fresh ranch eggs along Front street today, and while all sorts of values were being quoted, those that received any great quantity of offerings were not asking above 40 cents. In fact this was an extreme value with the exception of a few instances, where stocks were sold to peddlers, who usually pay a premium for something extra select. The general trade does not candle that closely.

The general market for eggs today could not be considered above 38 6 40c a dozen, although few were quoting as low as the former level.

With receipts daily showing an increase, the outlook for egg prices is still downward. In some quarters there is hope that the decline will be stopped for a while at 38c, but in other quarters the losses are expected to continue until the very bottom for the season is reached.

With the lower prices being named There was a further reduction in the

reached.

With the lower prices being named for fresh eggs, there is practically a stoppage of business in ice house stock. Speculative interests who still retain heavy holdings of storage goods are expected to become excited within a few days and cut loose—selling for anything they can get.

BETTER TOMATOES COMING

Better quality tomatoes are coming to be local market from San Diego, al., section. These shipments are being forwarded by express and are much better than those sent in carload lots. Sales are reported at \$1.50@1.75 a crate.

CALIFORNIA CAULIFLOWER POOR

Importers of California cauliflower to Importers of California Cautilower to the local market at this time are be-ing condemned by the produce trade generally because of the excellence of the quality of local stock and the lib-eral supplies. The California stock is very poor.

FLORIDA GRAPEFRUIT ARRIVES

Another car load of grapefruit from Florida arrived for the local market in good condition today. Prices as for-

merly.

The regular weekly banana train was
due to arrive today.

A fancy shipment of garden peas
arrived from southern California today
and sold readily at 12½c a pound.

JAP ORANGES PACKED DIFFER-

Japanese oranges are coming to mar-ket in larger sized packages than for-merly. Shipments are being received in boxes about half the size of the California package and are quoted at

TURKEY MARKET VERY SLOW

Very slow trade is showing in the turkey market along Front street. Live birds are hard to sell and the extreme quotation is 18c a pound, with buyers generally unwilling to take hold at that figure. Dressed stock is nominal at 22c,

SOME CLAMS AND CRABS

Small shipments of crabs and clams small for the demand, but no change has been made in values. Shipments are now expected to increase.

CHEESE IS NOW SGARCE WORLD'S TRADE IS GOOD FOR APPLES AT PRODUCING CENTERS

Only Atlantic Scaboard Markets Are Charles Ray, Pioneer Maker, of Til-Weak-Europe Bidding High For Supplies.

While the condition of the apple market along the Atlantic seaboard is in the local market and while prices are rather dull with supplies neglected and firmer, no change is showing for the indications of lower prices temporarily, day. Supplies at Tillamook and Coos the world's trade in general is of ex-ceedingly good character.

Bay are said to be the smallest known at this time of the season and while

indications of lower prices temporarily, the world's trade in general is of exceedingly good character.

The middle west has been for some time, and is still a rather good market for Pacific northwest fruit and further sales in that direction are reported at advantageous prices, according to A. A. Prince, assistant sales manager of the Northwestern Fruit Exchange.

"The middle west is still bidding for Pacific northwest apples," says Mr. Prince, "and today we made further sales in that direction. A cartoad of extra fancy Staymans was—confirmed this morning at \$1.60 f. o. b. shipping station, while an order from the southwest called for a car of mixed varieties, fancy and extra fancy, but mostly the former at an average price of \$1.35 for all varieties, grades and sizes.

"Foreign markets remain in an excellent position. London is a very strong bidder and we are getting bids from there that are supprising considering the quality and variety of fruit offered. The entire European market is rather good for best quality offerings and we are experiencing no difficulty whatever in disposing of what fruit we have to offer at values far better than could be obtained on this side,

"While it is true that some fruit ship-

offer at values far better than could be obtained on this side,

"While it is true that some frult shipping interests may have found difficulty in disposing of their fruit abroad at proper prices, this condition is not general. The foreign buyer wants to know that he is going to get the fruit that he purchases and for that reason places his butters with the collection of the condition of the collection of

purchases and for that reason places his business with such selling interests as really deliver that quality.

"This is one of the best seasons we have ever known in the foreign markets and not the slightest legitimate complaint can be made. The speculative activity of foreign buyers is just as good as it was earlier in the season and they have followed the advancing prices here without murmur."

Chicago Market Closes 1/4c to 1/4c

Better, After Starting with

a Decline Today.

Chicago, Dec. 3.—The wheat market, showed a loss of %c in the December and %c in the May at the opening but the entire decline was recovered and these options closed with a net advance of 1/4c for the day. July had a gain of 1/4c at the end of the session.

The weakness here at the opening was due to the lower cables this morning, but the recovery was forced by short covering.

Broomhall cabled from Liverpool that the easier closing at Winnipeg and the weakness at Buenos Ayres yesterday caused some pressure at the opening. This was followed by a further decline on the American and Canadian receipts, cheaper Australian offers and continued favorable weather and crop prospects in Argentina.

21 While one load of extra fancy hogs from Idaho sold at a late hour yester-day afternoon at \$5.05@8.10, the general market for tops at North Portland today is \$8. There was quite a liberal run over night, but the buying was rather brisk with prices well main-tained. The advance for the one lot of

hogs was made here in the face of weakness at most centers east of the Rockies.

At Chicago there was a weaker tone with a loss of 5c for the day.

Kansas City hog market ruled weak,
5c to 10c lower than yesterday.

South Omaha hogs were active at the

There was only a nominal run of cattle in the North Portland yards over night. General condition of the trade is rather good and good stuff is generally quoted around \$7.75 in the steer division, but something extra select is still notable beinging the former extra relegant that prices are due for another sharp advance before the turn of the year. While this conclusion is merely speculative, it is based upon some showing of facts. At the present time millers that the process are due for another sharp advance before the turn of the year.

ples. All have done exceedingly well and we think will continue to do so. We therefore recommend shipments of good stock on a liberal scale. Boxes—The trade is improving considerably and there is a much better inquiry for Newtowns. We are glad to report an appreciable advance in price,

Pears—Barrels are in short supply, consisting principally of Keiffers. Demand is fair but anticipate improvement shortly. Boxes—Chiefly Winter Nells. These are in much better demand, although much of it is very small fruit. We have disposed of two cars this week to average \$3.50 to \$3.70 per box.

market under date of November 21, as follows:

Apples—Barrels: Arrivals again principally consisted of Nova Scotlan stock, a big proportion being in bad state, necessitating such varieties as Ribstons and Bienneims having to be sold as low as 75c to \$1.25 per barrel. The trade is tiring of this rubbishy fruit, the buying of which entails so much risk, and inquiries are now being made for some Good York Imperials, Baldwins and Kings. It is yet too early for Greenings. We think the market for first class barrel stock will be improving one henceforth. Boxes—There is undoubtedly an improvement in the demand for Newtowns, although this has not been reflected to any appreciable extent in the prices realized. We expect, however, to be able to report some advance shortly. There have been heavy arrivals of colored varieties from Wenatchee, but a big proportion has been stored and sales of the balance continue slowly at fairly good prices.

Pears—Bergels: Arrivals again principal again principal content and the proportion has been stored and sales of the balance continue slowly at fairly good prices.

stored and sales of the balance continue slowly at fairly good prices.

Pears—Barrels: Arrivals have been on the light side and have consisted principally of Keiffers and Duchess. A considerable quantity, however, was brought forward from last week and with no further activity in the demand, prices nave remained about the same. Boxes—Arrivals principally Winter Nelis with a sprinkling of Comice and Bosc. At the high figures asked, the demand is limited and sales consequently slow. The demand will be coming more active we expect with the approach of Christmas, but until then judicious handling is necessary to clear at top figures. with giving incorrect information to the men in selling them the jobs.
