

CITY'S INJURED MAY BE TAKEN TO COUNTY HOSPITAL HEREFTER

At Present Time Patients Go to Private Institution; New Plan Money Saver.

Those who are injured and have to be cared for by the city will hereafter be taken to the county hospital instead of private institutions...

The matter was presented to the council this morning by Dr. Marcellus and all of the members agreed that immediate action toward combining the work of the city and county should be taken.

At present all cases of injured people handled by the city are taken to private institutions and the city pays the hospital bills for one month.

This arrangement has caused considerable trouble and inconvenience, the city paying as much as \$200 a month for care of patients at the private hospitals.

CAUSE OF DEATH OF CHILD INVESTIGATED

City Health Officers Believe Contaminated Milk Is to Blame.

That the death of the 9-year-old daughter of Mr. and Mrs. R. L. Skinner, of 800 East Forty-seventh street, north, was caused from drinking contaminated milk is the belief of city health officials who are making an investigation today.

City Health Officer Marcellus said this morning that while the poisoning was undoubtedly the result of drinking contaminated milk, an examination is necessary before taking definite action.

Several of the other children in the family who drank the milk were sick immediately after using the liquid and this fact is used in the support of Dr. Marcellus's theory.

Professor Fernot, bacteriologist, will make an examination of the child's stomach this afternoon.

NORTH YAKIMA HAS ERA OF PROSPERITY

C. F. Van de Water, booster first and then district agent of the O. W. R. & N. at North Yakima, "breathed" into Portland today on one of his periodical visits.

"Half a million young trees that eventually will send billions of big red apples into circulation have been set out within the last few months at North Yakima," Van de Water said.

With the big fat hogs, fed on bountiful harvests of alfalfa and millions of ears of real corn; with the feeder cattle that consume vast tons of ensilage, with the general diversification of our crops, the profit on the apple is coming to be pure velvet.

Look to us when you need help, because North Yakima is Portland's greatest source of income per geographical unit.

\$3 A DAY MINIMUM DEMANDED BY MEN OF WORK IN BAY CITY

They Boycott City's \$1.60 Job and Won't Eat Free Meals Provided.

(United Press Landed Wire.) San Francisco, Jan. 9.—Charges of police brutality were made today as a sequel to yesterday afternoon's outbreak of rioting by San Francisco's unemployed.

It was when Assistant Prosecutor McConough asked for a postponement until January 15 of the cases against the six prisoners charged with inciting the riot, that the first of these accusations came to the surface.

"Your honor," said William Thorne, one of the six men, "I want to be tried immediately. The city prison here isn't a safe place for me. Last night the police locked me in a solitary cell, and after midnight four policemen came in and beat me with clubs. If you will exclude women I will show you my bruises and scars."

Police Judge Crist replied that he had no jurisdiction in such matters, but suggested that Thorne might complain to Chief of Police White.

Another charge was made by Morgan Fremlin, a sugar foreman from Hamilton City, who, though he did not even see the riot, according to his own account, declared he was attacked by a policeman in the vicinity of the place where it occurred and unquestionably was so badly beaten that he was in a serious condition at St. Luke's hospital today.

NIGHT IN JAIL HAS STIMULATING EFFECT UPON THIS WITNESS

Max Politz This Morning Remembers Visiting Room of Mrs. Gerlinger.

Memory returned to Max Politz, a clother, after a night in the county jail and this morning when recalled to the stand in the \$50,000 breach of promise suit of Mrs. Gertrude Gerlinger against Lloyd Frank he used the phrase "I don't remember" but few times.

Politz remembered a visit he had paid to Mrs. Gerlinger on January 2 in the evening at her apartment on the Buena Vista apartments. Portions of conversations which it is claimed by the defense were overheard by Burns, a detective agency operator using a dictaphone were read to him and he admitted in most instances the general purport of these conversations.
