WOMAN ENTER INTO

(Special to The Journal.) Canyon City, Or., Jan. 27.—That C. E. Potte strangled his wife to death e last July to get her estate, valued \$14,000, and that he might be free te bestow his attentions upon a woman with whom he is said to have been since living in Los Angeles, will be the contention of the prosecution of Potts on a charge of murder by Grant county officials.

Potts was arrested last night in Los Angeles upon telegraphic instruction from here, and this morning Sheriff William Welsh and District Attorney V. G. Cozad left for the California city

Potts is a detective employed by the Los Anegeles board of trade. Last summer Mr. and Mrs. Potts were visiting at the Mt. Vernon Hot Springs, a summer resort about 13 miles from this place, owned by Mr. and Mrs. F. McGarvin, parents of Mrs. Potts, On July 13 Mrs. Potts died suddenly. With her husband she had retired in apparently good health. On July 13 Mrs. Potts died About 6 o'clock in the morning Potts notified the family that his wife was baving some kind of a fit. When Mrs. McGarvin reached the side of ner daughter she was dead. Blue marks were seen on her throat at the time, but the grief-stricken parents did not closely investigate the circumstances of the death.

The morning after the funeral Potts with his 10-year-old son, left for Los Angeles, Suspicion began to grow, especially when it transpired that Mrs. Potts left an estate of about \$14,000, and that Potts was infatuated with a Los Angeles woman.

E. A. Robertson, Mrs. Potts' brother in-law, placed the matter before the district attorney and had the body exhumed. Dr. V. C. Belknap held an inquest here Saturday. The examination revealed the fact that the hyold bone was broken. It was explained to the jury that such a fracture could only ur with external pressure. This with other suspicious circumstances resulted in the verdict that Mrs. Potts ame to her death by strangulation or suffocation at the hands of her hus band, C. E. Potts. The coroner re moved the stomach and sent it to Port land for examination, as it was thought that it would show some trace of poi-

through mud and slush. I had large horses—1700 pounds apiece—and the best I could haul was 2500 pounds of cabbage to the load because the crop of cabbage comes when the roads are the worst. I can now leave home at \$ o'clock in the morning with 5000 pounds of cabbage behind a team of 1400 pound horses and be back home at 5 o'clock in the afternoon. You can see the difference.

We now have three lines of automobile trucks hauling milk, produce, etc., to Seattle, carrying 12 tons to cans, groceries, hardware and the like. Here the saving on hauling milk alone

Henry M. Parry, the second of the three apostles, is a strawberry raiser at Richmond Beach, King county, Washington. "I formerly had to leave heme with my strawberries at 1:30 in the morning," he said this morning, "but now with good roads I leave at 5 o'clock and am in time for early market. In addition to the saving time, the berries reach market in better condition. They are not juggled around in the crates and bruised because of ruts and holes in the roads. I get more money for my berries and the buyer gets a better product. Auto Friend Now.

"Up in King county we have gotten over the idea that the good road is solely for the benefit of the auto-mobilist, although we appreciate the fact that any road that is a good anto road is a good road for the armer. But the automobile has come be looked upon as a friend and not an enemy of the farmer. I don't n one myself, but many of my sighbors do and they make the trip a Seattle in a few hours, where it ed to take the better part of a day. can go to market now and get for breakfast. ACID STOMACHS ARE DANGEROUS

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have carned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the atomach, but also set up gastatis and stomach ulcers. It is interesting to note that he condemns the use of patent medicines as well as of medical theatment for the stomach, slating that he and his colleagues have secured remarkable results by the use of ordinary bisurated magnesia, which, by neutralizing the acidity of the food, removes the source of the trouble. He contends that it is as foolish to treat the stomach itself as it would be for a man who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal treatment afe useless, so long as the contents of the stomach remain acid: remove the tack and the foot will heal treatment will disappear. Irsitating medicines and medical treatments are useless, so long as the contents of the stomach remain acid: remove the acidity, and there will be no need for medicine—the inflamed lining of the stomach will then heal itself. Sufferers from acidity, sour stomach or heartburn should get a small bottle of bisurated magnesia from their druggist, and take a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor
