### NEW STEAMSHIP LINE TO OPERATE BETWEEN THIS CITY AND MEXICO U. S. Senator Announces His

Announcement Made Today by Captain Fred Jebsen, Who Will Head Concern.

Announcement of the formation of a new steamship line to operate steamers between Portland and other North Pacific ports and Mexican ports on the west coast of that country was made today. Captain Fred Jebsen, well known steamship man, is to be the head of the concern.

The flagship of the fleet of vessels to be operated in the service will be the Norwegian steamer Jason, which loaded here early in January for Mazatlan and other Mexican ports. She is now in San Francisco receiving an overhauling in the yards of Moore & Scott. When she emerges from the and be rechristened the Mazatlan.

The announcement of the company is that in addition to the Jason of Mazatlan a number of other steamers of her type will be placed on the run as fast as the business warrants. It is said that at least two more steamers will be chartered immediately for the service and that as soon as political conditions in Mexico right themselves and business again resumes its natural size the fleet will be consider ably increased.

#### HAS HEAVY PASSENGER LIST Steamer Bear Due Today With 240

From the South. With 240 passengers, the heaviest

northern passenger list in some time, the steamer Bear of the San Francisco Portland Steamship company's flee 3:30 this afternoon. A heavy shipment of oranges is a part of her freight cargo. The steamer Rose City left yesterday afternoon, bound for San Francisco and San Pedro.

The annual federal inspection of the San Francisco & Portland Steamship company's steamers is to be held as fast as the steamers reach San Fran-The Bear will likely be the first to be inspected when she reaches the Bay City on her next trip.

#### HEATHER REACHES ASTORIA Lighthouse Tender Arrives From

Puget Sound.

After being a week on the way be ween Seattle and Astoria, the lighthouse tender Heather reached Astoria a landing at Destruction island light with supplies for the station there. The Heather visited all the light stations on | v. the coast between Seattle and Astoric on her trip down.

#### ALONG THE WATERFRONT

Bonded freight for Europe and mis cellaneous cargo for New York to the extent of 855 tons comprised the cargo of the American-Hawaiian Steamshi company's steamer Paraiso, which let yesterday for San Francisco. Lightship No. 92 is to be docked and

repaired at Eagle Harbor, Wash., the contract having been let by the local office of the lighthouse inspection department today. The German steamer Belgravia wi move from the Crown mills to the Port-

land flouring mills tonight. Besides St. Theodore, Br. loading flour today, she is being loaded with lumber from rafts brought alongwith lumber from rafts brought along-After finishing at Oceanic dock this Libin, Nor. bk.

# LOS ANGELES WOMAN'S RECOVERY SEEMS ALMOST LIKE MIRACLE

#### Mrs. Clara Witherspoon Is Converted by Akoz From Physical Wreck.

Mrs. Clara Witherspoon of 324 Avenue Sixty-two, Garvanza, Los Angeles, widow of the late Dr. J. K. Witherspoon, has just had a wonderful recovery. Less than two months ago her friends thought the end was near. Distressing rheumatism, following a paralytic stroke, together with a catarrh that was affecting her eyesight and mind, brought her to the condition where she was a physical wreck, She gives full credit for her recovery to Akoz, the radio-active medicinal mineral discovered in this state by former Harbor Commissioner and State Labor Commissioner John D. Mackenzie of San Francisco.

"That I am in good health today is due entirely to Akoz, which has almost worked a miracle for me in relieving me of rheumatism and catarrh." said Mrs. Witherspoon, as she chatted with friends.

"I was affligted with catarrh for eight years. It was so bad it affected blessing to me." my eyesight and my mind. Last Easter I suffered a stroke of paralysis. This aggravated the rheumatism with matism, stomach trouble, eczema, cawhich I had suffered for three years. tarrh, ulcers, piles and other ailments. The doctors held out but little hope for The Akoz internal treatment reaches me. When I started to take Akoz in November, I was a physical wreck. My the stomach. friends are marveling at the wonderful improvement in me during the six

weeks I have used Akoz.

Akoz is now being demonstrated at

the Owl Drug store, Washington and Broadway, Portland. You are invited "My catarrh is practically cured; to visit, phone or write the Akoz man my eyes are strong agair, and I feel at the "Owl" for further information better and brighter than I have in regarding this advertisement.

### ROADS UNDERVALUED NOW SAYS ATTORNEY OF SOUTHERN PACIFIC

Jared How Attacks Recognized Methods of Physical Valuation.

(United Press Leased Wire.) San Francisco, March 3 .- Beyond admitting that yesterday's attack by Jared How, the railroad lawyer, on the recognized method of physically valuing the country's transportation systems raised a clean cut issue between every railroad and every state or na-tional railroad commission in the United States, members of California's railroad board were not prepared today to comment on the arguments How submitted to them in connection with the valuation of the Southern Pacific's line between Mojave and Owenyo.

The state board's decision was awaited, however, with deep interest and it was the general belief that the case would find its way ultimately to the

How contended that in making physical valuations for the purpose of fixing rates all commissions use the same methods and that their invariable result is to make the valuations too low. for these reasons: The companies are not allowed to

figure full fares and freight rates for employes and material used in initial construction. In figuring depreciation commissions take into account only actual wear and tear. According to How, full fares for

workmen and full rates for material should be calculated in estimating construction cost for the reason that the builders can transport neither men nor material until the road has been built and must pay full rates for some other Brooklyn Federals, was ready to pay means of transporting them. In figur- a large figure for the services of ing depreciation he maintained that Fielder Jones. Jones will probably be the commissions should take into ac- given a chance to write his own figcount the sums spent to keep the roads in repair.

Southern Pacific case under consideration was recognized to be only a test. If How should carry his point, experts said, every railroad in the country would benefit by it and the difference it would make to them. it was estimated, would run high into

# CAN NOT BE PUT INTO EFFECT UNTIL AUTUMN

Then Federal Board.

(Washington Bureau of The Journal.) cerned that it will probably be middigesting the mass of information ing to reports, the plan is to take in Messrs. Houston and McAdoo acquired two more cities and form a third major Newcastle, Eng.
Santa Rosalin on their trip around the country.

Babia Blanco As members of the organic

As members of the organization committee under the federal reserve act their preoccupation at the moment is chiefly with the regional reserve districts rather than with the cities where reserve banks are to be located. Just now they are attempting to determine how many districts shall be established. The law provides that there shall not be less than eight nor more than 12. When the number of boundaries established the organization committee will then determine the location of the reserve cities.

President Wilson is being kept closeinformed of the progress that is being made. It may be that the president will not announce the members of the federal reserve board until the Astoris. Or., March 3.—Arrived at 4:30 a. Br.—British steamer St. Theodore, from Otaru. Arrived at 7:30 and left up at 9 a. m.—Steamer Bear, from San Pedro and San Francisco. \*\*Ventura, Cal., March 3.—The Ventura-Saugus branch of the Southern Pacific was reopened for traffic for will be a choice to be made between the same paraiso, and announced the location of the cities where regional stream the location of the regional bank cities will follow automatically. disco. Sailed at 7:30 s. m.—Steamer Paraiso.
for San Francisco.
Mollendo, March 1. — Arrived — German
steamer Karnak, from Portland, for Europe.
Astoris, March 2.—Arrived at 9 and left up

This could be a choice to be made between two or three cities. It may be nearly the end of March before the organization committee concludes its work. When the districts are determined

> it will have to designate three of the nine directors of each federal reserve bank. Thus the minimum number of directors to be selected by the federal directors to be selected by the federal reserve board will be 24 and the maximum number 36. The federal reserve board will also have large powers in organization of the branch banks of each federal reserve district. It is plain, therefore, that time must elapse after the country is divided into districts and after the federal reserve board is appointed before the new banking system can become actively effective and in full operation.
