# COMPLAINT MADE ON VALUATIONS PLACED

Comparison Drawn by Land on Sixth; Assessor Is Investigating.

At the taxpayers' meeting held in the assessor's yesterday to discuss the comply with the corporation law Disappraisal of north end business property under the Somers system, a spirited argument took place over the comparative values of Sixth street and Broadway values. The meeting had consideration the district the alleged shortage had been over- bounded by Oak, Tenth, and Hoyt streets and the Willamette river.

> Exception was taken to the tentative values given Broadway, north of Ankeny, which were slightly higher than the values placed on Sixth street. It was shown that the cross street values between Sixth and Broadway were higher than those between Broadway and Park and that as a result Sixth street frontage would be appraised somewhat higher than coresponding frontage on Broadway. The assertion was made by a number

of taxpavers present that the values given property in the vicinity of Front and Ankeny were much too low. It was pointed out that the tentative appraisals at Front and Ankeny would make a quarter block there worth only

alue of that property was nearer \$50,-

The assessor agreed to make a further inquiry into the conditions affect-ing values in that section before mak-ing the final appraisal of the district. With the exceptions noted, the meeting approved the tentative appraisal of the district under discussion. A second meeting to discuss values in this same district will be held later in the week, notice of which will be

# Beware of ointments offered as "just as good as Resinol"

If you have any skin trouble, you want Resinol. You want it because you have known about it for years, because your friends and neighbors have used it successfully, and because you know that physicians have prescribed it for nineteen years in the treatment of eczema, rashes, ringworm, pimples and other distressing eruptions.

You do not want a "substitute" or something that a dealer tells you is "just as good as Resinol." You do not want it because you know nothing of its value. It has nobody's endorsement and for all you can tell it never did anyone any good at all.
