

PORTLAND, OREGON, SUNDAY MORNING, MARCH 15, 1914.

UNCLE SAM TO HAVE ELABORATE EXHIBITS AT SAN FRANCISCO

Visitors to Exposition Will
See How Many Phases of
Work Are Conducted.

San Francisco, March 14.—The United States government is preparing a series of elaborate exhibits for the Panama-Pacific International exposition, which will be far more comprehensive than any display ever made by a nation. The exhibits will be distributed among all of the various exhibit palaces and will show every phase of the government's activities.

A feature of a sightseeing trip through Washington, D. C., always is a visit to the United States treasury, where the actual making of paper notes and coin is shown. A reproduction of this part of the treasury will be brought to San Francisco and visitors to the exposition will be enabled to witness the actual manufacture of United States coin in one of the exhibit palaces. The machinery that turns out millions of dollars a day will be taken direct from one of the United States mints to the exposition and every detail of the mintage displayed.

Few realize just what the United States fish commission is doing for the American people, and the government is now preparing the construction of an aquarium and, in connection with it, the hatchery in which the various stages of development from the spawn to the full-sized fish will be shown.

Coast Defense Guns on Exhibition
For many years the privilege of witnessing actual practice with the big disappearing coast defense guns has been greatly limited and only occasional exhibitions with army men or influence in Washington could gain the desired permission.

The government now has consented to permit the visitors to the exposition to have free access to forts adjoining the exposition grounds.

Daily practice on the big guns with target charges will be held, and weekly target practice with full charges. Each time one of these guns is fired with a full charge the cost to the government amounts to several hundred dollars. In addition to this unusual feature the several regiments of soldiers stationed at the Presidio, the largest army post of the west, will maneuver and hold daily drills and exercises and many other military detachments of troops from foreign nations attending the international military tournament.

Palace of Transportation
A postal car will be shown in its entirety with the postal clerks actually operating a railway mail car. There will also be on the grounds a small postoffice where letters may be mailed. Every detail of the operation of checking, handling and transmitting mail may be seen here.

On the sea-front of the exposition site there will be maintained and operated a United States government life saving station, fully equipped, where exhibition drills will be held daily.

Navy Department's Display
The navy department's exhibit will be of exceptional interest. The actual work done on battleships will be displayed and explained in detail by the officers in charge, and the education of the enlisted men will be shown.

The bureau of standards is one of the least known departments of the government, yet its work is without question highly important. It is this department that fixes the standards of weights and measures, and millions of dollars are expended to prevent the slightest deviation from the fixed standard.

The bar representing one foot in length is composed of two metals joined together in a most ingenious manner and the extremes of temperature will not cause this standard to expand or contract one-millionth part of an inch.

A special laboratory is being constructed by the heads of the department and the various scientific aids requisite to the proper maintenance of the standards will be shown.

Advisory committees will be held appointed by the bureau of mines and the geological survey and their exhibits will be intensely interesting to the technical students as well as the general public.

To avoid the duplication of exhibits by various educational institutions the government is preparing an unified educational exhibit that will show the progress of the country in education during the last decade.

Special attention will be paid to the Panama canal, the completion of which the exposition is to celebrate, and a 500 foot model of the great canal will be shown. It is said by government experts that a person may gain a great deal better idea of the canal by a visit to this exhibit than could be obtained by actually passing through the canal. The system of hygiene practiced in the canal zone will receive special attention in the national public health display. The scientific work of Dr. Gorgas that made possible the construction of the Panama canal.

NOT GUILTY PLEA MADE
BY DIGGS; TRIAL APRIL 20

San Francisco, March 14.—"Not guilty" was the plea made today by Maury I. Diggs, former state architect, who appeared before Superior Judge Cabanis to plead to a charge of attacking Miss Ida Pearrine, 17 years. Walter J. Gilligan, booked on a similar charge, also pleaded not guilty. The trial date was set for April 20. Diggs will be tried first.

New Glee Club Members.
University of Oregon, Eugene, Or., March 14.—The mid-year tryouts for places on the University of Oregon glee club were held this week, and the following men were selected to take the places vacated by men leaving school: Lawrence Dinsman and Ralph Ash of Portland, John Huston of Albany, Bothwell Avison of Oregon City, Shegman Post of Baker and Carl Naylor, Canal Zone, Panama. The club has three more engagements this year.

A Remarkable Wash Fabric Event ANNUAL HYDEGRADE WEEK

50,000 Yards of Spring 1914 Wash Fabrics Go on Sale

Five Double Windows Show the Immensity of This Exhibition

—The manufacturers of HYDEGRADE wash materials are introducing their new spring 1914 tub materials to Portland. In order to best accomplish this, they have selected Lipman, Wolfe & Company as their exclusive Portland agents. Tomorrow we inaugurate a sale of wash fabrics that is certain to prove in volume, in range, in quality of merchandise, and in the economies provided, the greatest assemblage of fashionable Spring wash materials ever presented in this city. Every yard carries with it the guarantee of the HYDEGRADE Company. Back of this comes our own unconditional guarantee. This is your safeguard both for quality and for style. Not a yard of these fabrics is to be found in any other retail store. They are consigned to us exclusively. Five double windows give you some idea of the immensity of this great collection.

—This is the logical and most opportune time for the selection of your Spring and Summer Dresses. Now when assortments are complete and the scarcest materials are here in abundance—when the new shades, already so scarce, can be selected.

—The exhibition is composed of ratine, boutonne, silk poplin, crepe de chine, embroidered voile tissues, brocaded crepes, silk stripe printed crepes, brocaded silk mixed crepes, sun ray silk, silk mixed ratines, ottoman ratines, brocaded grenadines, silk striped voiles, eponge, snow flake ratines, bedford cords, corded golfines and many other new filmy Summer materials.

50c Ratine Boutonne, Hydegrade Week, 29c

—A silk and cotton material shown for the first time. An intricate weave of the ratine family, soft and creaseless, medium weight, 27 inches wide. Colors are tango, crushed strawberry, jasper, light blue, peach, pink, apricot, copenhagen, marine blue, golden brown, mahogany, rose, deep blue, copper and white.

65c Silk Poplin, Hydegrade Week, 49c

—A silk and cotton poplin weave with self satin stripe. Extra soft and 24 inches wide, in medium blue, light blue, tango, new helio, pink, Dutch blue, tan and mode.

25c Silk Stripe Voile, Hydegrade Week, 19c

—40 inches wide, fine, evenly-woven material, white grounds with colored stripes outlined with silk hairline.

75c Ratine, Hydegrade Week, 59c

—A medium weight material in solid colors in all the new and standard shades, 40 inches wide.

\$1.25 Ratine, Hydegrade Week, 98c

—Beautiful combinations of mixed colored effects, multi-colored plaids and invisible plaids in dandy colorings, black and white stripes in various sizes.

40c Satin Stripe Voile, Hydegrade Week, 29c

—A beautiful solid color material, soft and sheer, a high count voile, with brocaded satin stripe. In all the standard and pastel shades.

\$1.25 Ottoman Ratine, Hydegrade Week, \$1

—A very soft silk and cotton constructed cloth of an entirely new weave in solid colors, with prominent Ottoman self stripes, 40 inches wide. Colors are tango, tan, copenhagen, gray, helio, Dutch blue, black, lavender, maize, marine blue, brown, navy and light blue.

Brocaded Grenadine, Hydegrade Week, 50c

—A new and beautiful dress and waist material of silk and cotton, brought out for the first time—a fine grenadine weave for base, with raised jacquard designs in self colors. Helio, dark new blue, rose pink, golden brown, light blue and white.

\$1 Silk Mixed Ratine, Hydegrade Week, 69c

—36 inches wide, eponge texture, light weight, soft, silky finish, in the late shades as well as standard colors.

50c Sunray Silk, Hydegrade Week, 39c

—A silk and cotton material of exceptional merit. It is 36 inches wide, in all solid colors, medium weight and firmly woven. In all the new and staple colors.

\$1.25 Silk Stripe Printed Crepe, 98c

—This material comes in tinted grounds with fancy silk stripe over which is printed floral designs, pink, blue or corn color, 38 ins. wide.

60c Brocaded Silk Mixed Crepe, 49c

—A light weight crepe in solid colors in silk and cotton, with self-brocaded patterns. Very effective. In white, cream, Nell rose, reds, lavender, old rose, tan, blue and taupe.

75c Brocaded Crepe, Hydegrade Week, 59c

—Absolutely beautiful in appearance. Soft and non-crushable. A crinkled crepe weave over which are rich brocaded designs of self colors. Admirably adapted for the prevailing styles. Colors are copenhagen, mahogany, marine blue, taupe, Alice blue, black, old rose, apricot and cherry red.

75c Crepe de Chine, Hydegrade Week, 59c

—A silk and cotton mixed crepe, which defies detection from the imported crepe de chine of three times the price. Beautifully soft and clingy, in all the new and staple shades, 36 inches wide.

50c Embroidered Voile Tissue, 25c

—Colored grounds with white and colored embroidered floral and striped patterns in tan, pink, blue, gray and black and white effects.

Smart Apparel

If some prophet had told your grandmother that in the year 1914 they would be holding clothes cabinets at \$5 per look, grandma would have felt for her smelling salts. Yet this has come. Madame Joire, sister-in-law to the great Paquin, thought out the idea and last week at the Ritz-Carlton hotel in New York the first clothes cabinet revealing charming Parisian creations was held. Tomorrow we show a
