Disappearance of Little Girl Bids Fair to Become Unsolved Kidnapping Mystery

Last Half Century. 1874—Charles Ross, German-

oth day of this month one year will rolled around since little Catherine Winters disappeared from her home in this city, leaving not the slightest clue to her whereabouts. And although photographs of the missing have been sent to practically city of America and have apreared in newspapers and on moving dcture screens from one end of the land to the other, her disappearance is the mystery it was on the day her distracted parents began the search.

Catherine Winters was 9 years old at the time of her disappearance and was declared by all who knew her to be unusually intelligent for a child of her years. She was the daughter of and Mrs. W. A. Winters, well known and respected residents of The child was last seen in the vicinity of her home at about noon on March 20, 1913. At that time she dropped out of sight as mysteriously as if the earth had opened up and swallowed her.

Hunt Has Been Continuous. For an entire year Dr. Winters has een engaged in a continuous search for his lost child. He has traveled over a large section of the country and has visited every place whence came reports of anything that resembled a clue to the whereabouts of the little Only a week ago he returned to his home after a fruitless trip to Ar-kansas, where it was reported that a child resembling Catherine Winters

had been found. A peculiar feature of the case is that neither the parents nor the friends of the family have ever entertained any other than the kidnaping theory as a solution of the mystery. Their firm belief that the child was kidnaped seems to be shared also by the authorities who have investigated the case, despite the fact that a motive as well as evidence of kidnaping appears to

be lacking. But those who hold to the kidnaping theory argue that the little girl must either have been kidnaped or killed. And as it is incredible that a child who was known to nearly every per-son in town could have met death in any manner in broad daylight without leaving a trace of the tragedy, the kidnaping theory seems to offer the only reasonable explanation of the disappearance.

On the other hand, there was no apparent motive for kidnaping the child. While Dr. Winters is possessed of moderate means his wealth is scarcely sufficient to attract a seeker after ransom. Furthermore, there has never been any demand made upon him for ransom money since the child disappeared, excepting by persons who sought a little "quick money" and whom it was easily shown by investigation that they had no knowledge of little Catherine's whereabouts or the cause of her disappearance.

The gypsy theory has been refuted

the certain knowledge that no gypsies were in Newcastle or its vicinity last March. A theory at first entertained that the grandmother or other relatives of the child living in Wis-consin might have been concerned in her disappearance, likewise was proven absolutely without foundation. Other Iowa, and even to the Pacific north-west, but nothing came of them. The offers of liberal rewards have brought no result. A special grand jury in-vestigation of the case failed to develop any information of value, State and county authorities and the fra-ternal orders to which Dr. Winters belongs have lent their ald in the search. Dr. Winters, despite his long and fruitless search, still appears confident that little Catherine will be found. Others who are closely interthat the missing child is living, but where, or under what circumstances, none can even guess.

THREE CHILDREN BURN TO DEATH IN HOME

Moscow, Idaho, March 14 .- The three young children of Mr. and Mrs. Henry Bisaw, of Collins, were burned to death last night in a fire which destroyed the home. Bisaw was at work, and Mrs. Bisaw had gone to a near by store, when the house caught fire, presumably from an overturned lamp. When the mother reached home, the roof had fallen in and the children were beyond rescue. The children were 4 years, 21/4 years and 15 months old.
