OUTLOOK FOR FREIGHT GOOD

Poirtland-Puget Sound Run Very Encouraging.

With the best load of freight that she has yet carried in her hold, the steamer Tiverton reached Oak street dock yesterday afternoon. Captain Charles Green of the steamer says that prospects for business on the newly inaugurated Portland-Puget sound run of the steamer were never better.

The cargo brought south yesterday consisted of wool from Victoria, dynamite and giant powder, lime, grainfor a local mill and miscellaneous cargo of all kinds. The powder and dynamite were unloaded at Martin's Bluff. The steamer will take out a good load of general cargo on her northern trip, salling probably Thursday.

This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking implications.

It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an in-flamed and irritated stomach with drugs instead of getting rid of the scid—the cause of all the troubic. What Law Declares.

"This statute declares in direct terms that 'all taxes not paid before the first day of September shall become delinquent' on that day, and then assesses penalties for the delinquency. Not only is there no declaration of destatute, by the direct declaration that they are delinquent on September 1, are not delinquent before that time. "The question presented here is whether the legislature has power to provide penalties on taxes unpaid between April 1 and the date of delin-

quency, September 1. There is no question as to the power of the legislature to assess penalties against delinquent taxes, but by the direct provision of the statute an attempt is here made to add something to the tax as assessed prior to delinquency. If the penalty can be added by the legislature on taxes unpaid after April 1 nd before the tax becomes delinquent september 1, it can just as well add cenalties before that date.
