## MAAS' ATTITUDE AT VERA CRUZ HELD MENACING

### Washington Fears Huerta Is Planning to Compel March Against Capital, to Unite Mexican Factions.

## HUERTA'S POSITION IS BECOMING CRITICAL

### Dictator's Personal Danger Said to Be Great From Mexico City Revolvers.

By John Edwin Nevins.  
Washington, May 5.—Government officials here were nervous this afternoon. Publicly they were optimistic but privately they feared some sensational development in Mexico. Secretaries Bryan and Daniels of the state and navy departments said General Carranza's elimination from the mediation negotiations did not affect the situation. Other high officials, disagreeing, admitted that they thought the Vera Cruz outlook very menacing. Their view was that General Maas undoubtedly was preparing an attack to force an American advance on the capital. Should they be driven to assume the aggressive it was feared all factions of Mexicans could unite immediately and the whole country flame with hatred of the invaders.

## Wilson and Bryan Confer.

After the cabinet meeting President Wilson and Secretary Bryan held a two-hour conference. When it was over neither had anything to say for publication. Reports of the precarious nature of President Huerta's position in Mexico City were causing considerable anxiety in administration circles here today.

## Wilson Trousseau Includes 44 Dresses

Wife-to-be Has 19 Hats, 12 Pairs of Shoes and Seven Parasols, Say the Statisticians in Washington.  
Washington, May 5.—Details for the wedding at the White House Thursday of Miss Eleanor Wilson, daughter of President and Mrs. Wilson, and Secretary of the Treasury William G. McAdoo, were completed today. The White House was being decorated this afternoon and the wedding will be rehearsed tomorrow. It was reported that Miss Wilson's trousseau includes eight evening gowns, seven "tango" gowns, two tulle and tulle and tulle suits, four taffeta street dresses, 12 warm weather frocks, six white skirts, six silk waists, 19 hats, 12 pairs of shoes and seven parasols. It was also understood that Secretary McAdoo had leased a stone cottage at Chevy-chase, the fashionable suburb.

## Eight Killed by Panama Explosion

Brush Fire Reaches Powder Magazine, Which Blows Up, Killing Woman Spectator, Seven Fire Fighters.  
Panama, May 5.—Eight persons met instant death here today and a score of others were injured by the explosion of a government dynamite magazine. The explosion was caused by brush fire which reached the magazine, despite the efforts of fire fighters. A woman spectator and seven fire fighters were killed.

## REMARKABLE DEMONSTRATION OF EFFICACY OF PULMOTOR IN RESTORING RESPIRATION OF DYING PERSON IS GIVEN EARLY TODAY

### Mrs. Laura B. Greenfield Prevented From Dying After Relapse Following Operation Through Use of Machine Which Bright "Hello Girl" Assisted in Securing.

A physician's ingenuity, a bright "hello" girl, and the untiring efforts of two men with pulmotor saved the life of Mrs. Laura B. Greenfield of the Chesapeake apartments early yesterday morning in the most remarkable demonstration of the efficacy of the pulmotor in restoring respiration, ever given in Portland.  
Mrs. Greenfield, who is the wife of George I. Greenfield, a Morrison street shoe dealer, and who is convalescing from an operation, suffered a relapse at her home Sunday night due to a blood clot stopping her breathing.  
Dr. R. S. Fisher, called as an emergency physician, found that a pulmotor would be the only thing that could possibly save the woman's life. Respiration had practically ceased when he called for the instrument.  
**Telephone Girl Assists.**  
Now there are only two pulmotors in Portland. One is owned by the Portland Railway, Light & Power company, the other by the Pacific Telephone & Telegraph company. Owing to the time of the night difficulty was experienced in reaching the railway property but the telephone girl on duty hearing the word "pulmotor" immediately switched the call on the wire chief's line at the central telephone station, corner West Park and Alder streets.  
The pulmotor, with two men to operate it, was on the street before Dr. Fisher in a taxi cab reached the building. By constant use of the motor,

## DR. RYAN SAVED, O'SHAUGHNESSY IN U. S.

Dr. Edward Ryan of Scranton, Pa. (on the left), confidential agent of Secretary Bryan in Zacatecas, Mexico, arrested by Mexican federalists as a spy, but who has been turned over to the Brazilian minister at Mexico City, and Nelson O'Shaughnessy, former U. S. charge d'affaires at Mexico City, who reached New Orleans this morning, on his way to Washington.

## O'SHAUGHNESSY SAYS HE'S PROFANELY GLAD TO BE BACK IN U. S. A.

### Former Charge d'Affaires at Mexico City Reaches New Orleans, Laughs Like Boy.

(United Press Leased Wire.)  
New Orleans, May 5.—Nelson O'Shaughnessy, United States charge d'affaires at Mexico City since August today, arrived here today on his way to Washington.  
"I'm d-d glad to be back in the United States," said O'Shaughnessy as he landed. He was, in fact, almost hysterical in his joy and laughed like a boy at everything. A messenger with a telegram from Secretary of State Bryan had waited all night on the dock for him.  
His dealings with President Huerta in Mexico City, he said, were mainly of a purely business nature. "The situation was acute when I left," he added. "Huerta had held up my mail for two days. I usually send back a new man."  
The charge denied that he had ever heard of Congressman Flood's speech, asserting that President Wilson had criticized his handling of the Mexican situation. He was scheduled to start for Washington at 9:30 p. m.

## TRANSPACIFIC CRAFT TO BE TOWED UP THE SACRAMENTO RIVER

### Business Men of California River City Arrange to Have Salvator Ascend River.

(United Press Leased Wire.)  
Sacramento, Cal., May 5.—Ambitious to make Sacramento an ocean port, local business men interested in the cargo with which the steamship Salvator left Honolulu a few days ago, have arranged to bring the craft up the river to unload here instead of transferring the 14,000 cases of canned pineapples it is bringing at San Francisco.  
It was admitted that towing the Salvator up the river will be an experiment, and some rivermen doubted if it would prove a profitable one. The interests back of it held, however, that if it succeeded it would mean a big saving on all Sacramento cargoes, and would be well worth repeating when ever large enough shipments were arriving and departing and the stage of water was favorable.  
That it cannot be done with anything but shallow draft river boats when the water is low was conceded. The stage at present is comparatively high, though not at flood, on account of the melting of the mountain snows.  
The Grace Dollar, a coastwise vessel, made the trip up river to Sacramento in February when the water was higher than at present, and experienced no difficulty. It remains to be seen if the Salvator will be equally successful.  
It will be the first time a trans-Pacific craft has made the experiment and it was estimated the voyage from Honolulu to Sacramento would take about 25 days.

## MILITIA WILL CLOSE "JOINT" AT MILWAUKIE

### Governor West Declares That the Notorious Friars' Club Must Be Closed Tight Once and for All.

## WAS UNDER MARTIAL LAW TWO YEARS AGO

### Executive Tired of Waiting for Attorney General's "Due Process of Law."

(Salem Bureau of The Journal.)  
Salem, Ore., May 5.—Governor West today put the Friars' club of Milwaukie, formerly the Milwaukie Tavern, and a notorious road house, under martial law, and before night it will be in the control of members of the militia.  
This is the second time that this road house has been placed under martial law, when local officials failed to see that decency and order were maintained there. It was placed under martial law July 1, 1912, when the governor was conducting his law enforcement campaign in Portland and vicinity.  
The governor said that a detachment of the Oregon National Guard will be sent to take possession of the tavern, and that every automobile coming onto the premises will be seized and put under lock and chain. The chief executive would not say who will be in command of the soldiers or how long he expected to keep the tavern under martial law, but it appears evident he is determined to see that it is closed.

## Two More Sailors Die From Wounds

### Clarence Kirschberger and Harry Pulliam Succumb to Wounds Received When Vera Cruz Was Taken.

Washington, May 5.—Two more of the bluejackets shot at the capture of Vera Cruz died today, according to a report received from Admiral Bagley.  
One was Clarence Kirschberger, who succumbed at 1 a. m. to shock following the amputation of his right leg at the thigh on account of complications incidental to his wound. He was a seaman on the Utah. The other, Harry Pulliam, a fireman, died from a wound which had paralyzed the lower half of his body. He breathed his last at 8 a. m.

## FEAR MAN WAS DROWNED

The discovery of a power canoe bottom up near the end of Saville's island in the Columbia river has led to a suspicion that the man who was, in the boat last Saturday, is drowned. Deputy Sheriff Lumsden received word this morning that the canoe was found Sunday. The boat was being operated by an unknown man Saturday afternoon and was upset when a boat passed according to information given Lumsden. Since that time the man has not been seen.

## ACTORS IN COLORADO'S LABOR DRAMA

## LEGISLATURE BACKS UP AMMONS' STAND IN COLORADO STRIKE

### Impeachment Talk Against Governor Is Abandoned by Labor Leaders in Denver.

(United Press Leased Wire.)  
Denver, Colo., May 5.—The special session of the legislature met this morning, but recessed an hour later until 2 o'clock this afternoon. Speaker Slattery had finished appointing committees, and as the latter were reported favorable to Governor Ammons, it appeared certain his legislative program will go through.  
Labor leaders, according to close friends of Governor Ammons, have abandoned all thought of possible impeachment proceedings. It was said the impeachment matter had never taken tangible form, and was merely a rumor tangled about.  
Mine operators this afternoon had taken the position that they will not deliver up their arms until assured their property will be given protection by federal troops. This was believed to mean that the operators will insist that regular troops actually be placed on their property, although they refused to admit as much.  
**Coroner Starts Inquest.**  
Coroner Spies started today an inquest in connection with the battle at Forbes. He intends taking the jury to the scene to take testimony and view the effects of the fight.  
"That recent criticism of John D. Rockefeller Jr., regarding the present industrial upheaval in Colorado was unjust because the multi-millionaire has no interest in their coal properties and had made no effort to influence their attitude, was the declaration today of 50 of the principal coal operators of Colorado in a lengthy telegram to President Wilson. Officials of the Colorado Fuel & Iron company did not sign the message.  
"The Rockefellerers have no interest in our properties," said the message. "They do not control them and have never attempted to interfere in any way. The criticism hurled in their direction is unjust."  
**Negotiations Refused.**  
Along with the admission went a refusal to negotiate with any representative of the United Mine Workers of America for a settlement of strike disputes. The operators recited the history of the walkout, blamed union leaders for all lawlessness and denounced the miners' union as "defying organized society to thwart its plan of rule or ruin."  
The Eleventh Cavalry, commanded by Colonel James Lockett, reached Trinidad today. It was said the disarmament of both strikers and mine guards would proceed immediately.

## NOTED ATTORNEY DEAD

New York, May 5.—John F. Dillon, a noted corporation attorney, died at his home here today, aged 83.

## WARBURG WILL PROBABLY HEAD RESERVE BOARD

### Richard Olney Declines Preferred Chairmanship, Presumably Because of His Advanced Age; He Is 79.

## PROMINENT FINANCIERS SELECTED BY WILSON

### Dr. A. C. Miller of Frisco Is Nominated to Represent Pacific Coast.

Washington, May 5.—Ex-Secretary of State Richard Olney, of Boston, having declined the chairmanship of the federal reserve board created by the new currency law, President Wilson was driven today to a revision of the entire list on which he had tentatively decided.  
Besides Olney the men the president was understood to have chosen were Paul Warburg, of Kuhn, Loeb and company, New York; Vice President Harry A. Wheeler, of the Union Trust company, Chicago; President W. P. G. Harding, of the First National Bank, of Birmingham, Ala., and Dr. A. C. Miller, of San Francisco, formerly of the University of California, a teacher, writer and authority on finance and at present assistant to Secretary of the Interior Lane.  
Of those Warburg formally accepted today. It was considered certain that Wheeler and Miller would follow his example and it was thought likely Harding would do so too, though that was not so sure.  
The presumption in administration circles was that Warburg or Harding, should the latter accept, would be given the chairmanship in Olney's place but concerning who would be selected for the fifth vacancy there was much speculation.  
The positions on the board pay \$12,000 yearly each and the president has said he considers them as important as seats on the federal supreme bench. Olney followed his telegraphed refusal by a letter of explanation the contents of which he refused to divulge. It was believed to be a foregone conclusion, however, that he declined on account of his age, 79.  
The treasury department has issued a statement showing that \$74,740,500 has been subscribed by the 489 banks out of the total number of 7427. They have thus far taken stock 700 districts have not yet subscribed to enough stock to permit the organization of regional banks—these are Atlantic and Pacific.

## 'KNOWINGLY UNTRUE' DR. SMITH'S REPLY TO OREGONIAN'S ATTACK

### "Futile Attempt to Head Off Certain Nomination"; Records Compared.

Declaring that the Oregonian's editorial attack on him was a futile eleventh hour attempt to head him off from certain nomination at the Democratic primary, Dr. C. J. Smith said this morning that what the editorial stated was knowingly untrue.  
"The Oregonian has fought every reform that has been brought into Oregon," said Dr. Smith. "It has fought every man in public life who had stood for reform. It fought Chamberlain because he was a staunch friend of popular government. It fought West because of his leadership for moral reform. It is now fighting me because I approve of the present governor's work and if elected will continue his policy of using every power of the governor's office to check law violations by the liquor and allied interests."  
"The Oregonian chose bad ground for its attack."
