NEW DISCOVERY QUICKLY ENDS KIDNEY AND BLADDER TROUBLES

Chronic Sufferers Find Relief After Few Doses Are Taken

If you are bothered with backache—or rheumatism, have disagreeable, aching bladder or urinary disorders to contend with—or suffer with any other of the many miseries that come from weak kidneys, here is a guaranteed remedy you can depend upon, no matter what else may have failed to cure you.

It is a positive fact that the new discovery, Croxone, promptly overcomes such diseases. It is the most wonderful remedy ever made for ridding the system of uric acid, removing the cause and curing the trouble. It soaks right in and cleans out the stopped up kidneys and makes them filter and sift out all the poisonous waste matter from the blood. It neutralizes and dissolves the uric acid that lodges in the joints and muscles, causing rheumatism; soothes and heals the delicate linings of the bladder; cleanses the kidneys and urinary organs in a clean, strong, healthy condition.

More than a few doses of Croxone are seldom required to relieve even the obstinate long standing cases, while it cures the most annoying forms of kidney, bladder trouble, and rheumatism in a surprisingly short time.

You will find Croxone entirely different from all other remedies. There is nothing else out there like it. It is so prepared that it is practically impossible to take it into the human system without results. An original package costs but a trifle at any first class drug store. All druggists are authorized to personally return the purchase price if Croxone fails to give the desired results in the very first time you use it.—(Adv.)

Make Weak Eyes Strong; Keep Strong Eyes Well

Those who use Thompson's Eye Water in the care of their eyes never stop singing its praise. It cleanses them of every foreign particle; it strengthens the tissues; removes the cause of inflammation. Keep your eyes healthy and they will help keep you. Should be used as regularly as a tooth brush. One 25c bottle will convince you. At your druggist, or sent postpaid by John L. Eye Glasses Should Go Says New York Physician

Here is His Free Prescription.

"Many who wear glasses could dispense with them. Only ordinary care for the eyes of a young man should be properly bathed night and morning. This is more important than any medicine," says he, and then he goes on to say:

"The following treatment is worthy of it. Many eyes are improving wonderfully. Immediately effective and positively harmless to the weakest of eyes. Go to your druggist for a box of Optona tablets, dissolve one in a two ounce bottle of pure water and pour the water over four times daily. What is generally known as eye strain will soon be banished while the muscles and nerves are permitted to perform their normal functions. It helps diseased eyes and it keeps good eyes healthy; it is absolutely harmless in every way; does not smart or burn after a moment's use; is recommended for dull, heavy or glassy eyes; helps aching eyes and should be used in every home for use in emergency."

The following extracts are from letters received from users of this prescription:

"I used Optona one week for a cold in my eyes; it did me good, thank you."

"My eyes have been failing for years. I am sure Optona is doing them good, and shall continue its use."

"I have only been using Optona a short time. My eyes are improving wonderfully."

"I find Optona very satisfactory and recommend it wherever I find an opportunity. I find it very soothing."

"I've been using Optona for months and intend to follow the treatment."

"Have been using Optona for about three months and it has greatly improved my sight."

"My eyes have been sore for several years and two and a half months ago everything recommended and given no relief. I had my eyes examined and the doctor said they were very bad. I used Optona and thought I would give it a trial. Am glad to be able to state that my eyes are improving and do not wear my glasses since. I feel my eyes do not require them."

"My other eyes have done similar reports. If your eyes bother you, have the above prescription filled. It may be used in the construction of bus or working women, and expects to be a factor in the political as well as the industrial field. Special attention will be given the two eight hour measures of the ballot, the \$1900 exemption measure and others as they come before the electorate."

This organization gives a dance Friday evening at the same place and a large number of people identified with labor organizations are expected to take part.

Spokane Beats Tigers

Tacoma, Wash., May 5.—Spokane defeated Tacoma yesterday by a score of 10 to 5 by hitting Kraft and Kurfess at opportune times. The Tigers were unable to connect with Covalleski's very heavy hits meant runs: Tacoma 2 4 3
Spokane 10 5 8
Runners 3 4 3
Batters out 10 10
Kraft, Kurfess and Harris.

Batter Appears to Be Out.
Halkey, Or., May 5.—To the Sporting Editor of The Journal—There is a runner on first base and one on second base. The batter knocked a high infield fly which fell inside of third base. The third baseman muffed the ball and the umpire declared the batter out, while the players on the field declared the runner on second forced out at third. A FAN.

Your explanation of the play is not very clear. Here is the infield fly rule: The batter is out "if, before two hands are out, while first and second or first, second and third bases are occupied, he hit a fly ball other than a line drive, that can be handled by a first baseman, and he failed to catch it, as soon as the ball be hit, declare it an infield or outfield fly."

A Concession.
From The Chicago Record-Herald.
"I'm going to drop my husband's name and use my own," said the lady who had become interested in politics. "Don't you think that will be likely to bring me any success?"
"Oh, no. I've agreed to let our telephone be kept in his name and we will continue to use his initials until we have things charged at the department stores."

W., is sending out 1000 postcard invitations to members of the order to drop into the noon fellowship luncheon to be held every Thursday at the Hazelwood Hotel. It is expected that leading fraternalists of the city and visiting members and notables will address the gatherings from time to time. The objects are to get members of the A. O. U. W. together for fellowship and good citizenship. Many who do not attend were of the press of private and public business will find this a good place to renew old ties.
