Scalp Dries - Chokes out the Hair and Prevents Its Growth

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and rulp it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it; then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to meisten the scalp and rub it in gently with the finger time.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it.

## To Help Nature Shed a Bad Complexion

Beauty devotees are enthusiastic over the beautifying qualities of mercelized wax, Nothing discovered within recent years accomplishes so much, so quickly, without harm at such small expense. The principal reason for its wonderful merit is that it works in harmony with physiological laws. Instead of diding complexion defects it removes them It actually takes off the aged, faded, sallow freckled or blotchy cuticle, gently, gradually, causing no inconvenience. It is Nature's way of renewing complexions. When the natural process is returded because of deficient circu ation or nerve tone, mercolized was comes to the rescue and hastens the skin shedding. The new complexion which appears is a nat-ural one, youthful, healthy, exquisitely beautiful. If you've never tried mercolized war, get an ounce of it at the drugstore, use at night like cold cream, washing it off in the

Another natural beautifying treatment-for wrinkled skin-is to bathe the face in a le tion made by dissolving an ounce of saxolite in a half-pint witch hazel. This is remark-
