## ROSE FESTIVAL BALL HUGELY ENJOYED BY CITY'S SOCIETY FOLK

### Great Ballroom at Oaks Made Beautiful by Blooms, Greens and Stately Palms.

The Rose Festival grand ball was one of the really rare social events ever enjoyed in Portland. The great ballroom at the Oaks park was made beautiful with its garlands and baskets of roses, intermingled with ferns, greens and stately palms. Over 2000 guests were on the floor though 3000 would not have crowded the huge ball room. The lighting effects were subdued in the red and white lacework

## Diseased Kidneys Poison Blood

**How to Tell Whether Your Blood Is Impregnated.**

Since the kidneys are of such delicate structure, and so inadequately supplied with sensitive nerves, they are quite susceptible to disease. As their function is to remove impurities, any disorder affecting them affects the whole system. Unmistakable symptoms of diseased kidneys are when you arise in the morning with dull aching pains in your back, and as if your night's rest had not refreshed you; when you are weak, depressed, nervous, or irritable; if your head aches, spots appear before your eyes or noises ring in your ears, and your appetite is poor, thirst excessive, complexion sallow; if you have indigestion, biliousness, rheumatic pains, and have lost flesh rapidly—all these symptoms are due to unhealthy workings of the kidneys. To make your kidneys healthy and strong, you should lose no time in taking Warner's Safe Kidney and Liver Remedy. It acts beneficially on the delicate tissues of the kidneys, stimulates the diseased parts, purifies the blood by increasing the circulation and awakens the torpid liver; acts on the bowels in digestion, and tones the system, enabling every organ to do its work properly and fully. It is sold by all druggists in 50c and \$1.00 sizes. Free sample and booklet if you address Warner's Safe Remedies Co., Dept. 388, Rochester, N. Y.—(Adv.)

## LANDS IN UMATILLA IRRIGATION PROJECT GIVEN GOOD RATING

### Proper Treatment and Hard Work Will Bring Desired Results.

Sent by the Oregon Conservation commission to make a thorough and impartial investigation of conditions on the Umatilla irrigation project, Charles D. Mahaffie, assistant secretary of the commission, has just reported to Joseph N. Traut, chairman, that there is no reason for discouragement.

Recent assertions that the soil is infertile and that it is impossible for farmers to make a livelihood on the tract under reclamation led to the investigation. The report concludes: "It seems to me that the crops growing on this land at the present time disprove as conclusively as is possible the allegation that the land is, to any considerable extent, infertile, and the experience, both here as elsewhere, is that as the land is cultivated and crops are grown on it from year to year it will become more fertile."

"The farmers on the project are for the most part doing well and it is doubtful if there is a less percentage of failures or cases where men are having extreme difficulty in making ends meet in any section of the state."

"The cashier of the Hermiston bank told me he had loaned \$15,000 on account of the indebtedness."

"Intelligent treatment and cultivation of the soil are necessary to the success of any irrigated land, and where intelligence and labor are being applied in fair quantities and proportions to this soil, it is responding and the results are gratifying."
