

NEWS OF THE BEACHES

ALONG NORTH BEACH

WORTH Beach, Wash., June 27.—If any one phrase can differentiate the present summer season of 1914 on this beach with other seasons it is the basis of permanent prosperity which this season seems to possess. The cranberry land is "panning out" and this year the first return of the crop started four years ago will show. The town of Ilwaco has established a permanent water system and a group of Portland and local capitalists have formed a company which is supplying most of the hotels and some of the cottages on the beach with running water. The 300 men at work on the north jetty have given the merchants and amusement owners of the beach an assured patronage. Cannermen at Ilwaco and Columbia river shiners say the run of salmon so far this year is the best for eight seasons. Besides installing running, hot and cold water in the hotels, baths and lavatories, a number of the hotels provided, have enlarged and improved their houses. The transient trade is a little slower this year than last but railroad statistics for June show more people than any other month. The beach is in the same time in June, 1913. This is accounted for by a greater permanent peninsula population.

One of the features of the July 4 celebration at Ilwaco will be the display of 20 automobiles, all sold here within the last few months.

Mr. and Mrs. G. F. Hammond (Mrs. L. K. Hammond) of Portland have been in J. M. Arthur's ridge cottage above Tloga since March.

SEASIDE

Seaside, Or., June 27.—For the annual regatta at Seaside the results of the spring's work will be surprising. In every direction workmen have labored during the winter, and as a result, Seaside has been almost reclaimed. What was formerly the old Shell road is now Broadway. With the new name has come a new street to all appearances. The old Broadway has been replaced by a new one. Both broad and street have been widened, and along the street, on each side, new buildings have been erected.

Not only on Broadway, but also along the avenues and streets, cottages are being rapidly opened by early season arrivals.

At the Hotel Moore.

By W. F. Adams.
(Adams Astrological School)
Widow 316.—The first of the sixties, quite a number are foreseen, possibly next year also.

A. K. D.—Without doubt, quite a number, or a very important chance later.

Daisy E.—I do not understand your first question clearly. If you mean, will there be a marriage? Every indication points to a marriage, but favorable later, between 26 to 28 years of age. As for letters, some doubt exists; if received, perhaps not altogether true. The matter is very threatening and a remarriage. I advise caution in any new venture of this kind, as you have a very arbitrary horoscope, but many more friends are undergoing annoyances, but nothing serious. The gentleman in question has a very strong horoscope, and while you are very confident conditions apply in social matters, his type is a strong factor in your affairs in the future.

Journal Subscriber.—While the best of aspects do not show for health, yet there is a very strong vitality evidenced. You need not worry about the length of life for a long period. Eliminate moody and depressing thoughts, as you have a great amount of ability if you will only think so and give your energy to high ideals and endeavors.

Sadie.—Happiness is strictly of your own making. If the husband is untrue, you are better off, in the long run, to part with him. But as for true friendship, a question arises. You make friends easily, and evidently are quite popular. You have Bohemian tastes and are rather changeable in your affections.

Mother, Son, Daughter.—You will be reunited again within or by, at the latest, two years. This year is the worst period you will have, for a long time.

B. C.—You failed to state sex or give the date of birth.

J. A. R.—Your troubles will show improvement after the summer is over. If your mother-in-law see no reason why you will not sell.

R. C. S.—You would make a splendid nurse. You have artistic talent also. You are a good modeler, modeler, dressmaking, milliner, etc. You are very original and inventive. An affair of the heart is foreseen at about 38, but its outcome is dubious. It would better be at about 23 to 24.

Thankful.—A number of excellent prospects appear. You have magnificent ability in all respects. Your education and friendship of superior types of people, coming mostly through your high ideals and endeavors, and again through your own efforts. You have a positive disposition, though not arbitrary. You are very sympathetic, ruled by strong emotions, likes and dislikes. You are very socially and financially, yet later there

threatens some inharmonious, your disposition causing this somewhat. Mrs. M. C. H.—If not gone already, you will undoubtedly leave by September.

Miss C. G. B.—Between 22 to 24 and 26 to 28 are the most promising periods for marriage. Your horoscope is exceptionally well aspected for a very happy marriage, to a man of strong personality, and purpose.

W.—Without the birth hour I hesitate to make a statement positively relating to such a question. Yet while not the strongest aspect is evident, in respect to health, am sure you will live for several years. Important changes appear during 1914-15. Presently your profession or scientific calling strictly. If not engaged in the pursuit of such, evidently a marriage to a professional type will be made.

Miss J. E. G.—As a number of changes appear; some good, others the reverse; plans delayed or opposed, etc., yet the outcome secure by another spring.

A. Campbell.—I cannot see where you will, unless you do in the future what you have in the past, sacrifice yourself for others to be made happy.

H. F. J.—While your horoscope does not evidence the most rugged health, I see no critical or serious aspects. Presently changes are in the air, and before the twenty-fourth year you will undoubtedly marry. Caution must be exercised in placing the affections. Frequent disturbances threaten in this issue.

F. X. T.—Marriage is very probable

YOUR HOROSCOPE

between 26 to 28 years of age. You are suited to a professional calling, there being so many conflicting aspects evidenced. I hesitate to say which would suit you best, unless it be medicine or mechanical engineering. That you will advance to success and prominence is assured, yet you will undertake many things, not stay with one business entirely.

Fig of the Moon.—As long as you have the start in your soul is in your work, you will make a success, but you will have to work hard to accomplish this. Theatrical as well as any successful work, is work and not play. If you expect to enter this work and think you will breeze along successfully without any great exertion, unless you have exceptional genius. You have talent, and with proper application you will steadily improve and be successful.

Star of the West.—With your character and tenacity of purpose, you could not help but win. You do not advance so fast as you think, but your faculties make you exert yourself harder. By two years and especially the last of the twenties pronounced successful fortune is in store for you.

B. L. G.—Conditions will not change materially unless you assume mastery over them or quit, which is better or easier. If you people do not care to pull with you, instead of against you, while you are going broke, why, as I said, quit, as you do not deserve the energy you expend on them.

United States Health Agent Solves Mystery of Disease Which Recently Appeared at Columbian Ports.

Washington, D. C., June 27.—The mysterious and suspicious disease which has been reported to have appeared in the ports near the Isthmus of Panama has been found to be pneumonia by Dr. Darling, chief of the Ancon hospital, who was sent by Secretary Garrison of the war department to investigate. It has been feared that bubonic plague existed and additional quarantine regulations were adopted temporarily.

The earthquake shock of May 27 on the Isthmus was the most severe since that of October, 1913. While the canal locks and other works escaped injury, the administration building at Balboa was cracked in places and the waters of the lake rose and fell half a foot.

THE MUSCLES

Now is the Time to Get Rid of Those Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles; as the prescription ointment—double strength—is guaranteed to remove these homely spots. An ounce of ointment—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear. The ointment is made from a vanished article. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Simply get an ounce of the double strength ointment, as this is sold under guarantee of money back if it fails to remove freckles. (Adv.)

Dog Fights Hogs; Saves His Master

Ottawa, Kan., June 27.—For two hours the frantic collision of W. C. Packer, a farmer living 3 1/2 miles north of Ottawa, fought off half a circle of 100 ravenous hogs and saved the life of Parkes, who had become unconscious in a fall of 11 feet from a tree.

The barking of the dog brought aid a mile from the house, just in time to save Parkes. His dog was almost worn out. The collie had killed one hog and mortally injured several others.
