FRESH AIR SQUAD OF BOYS AND GIRLS TO VISIT ILWACO, WASH.

Party to Spend Two Weeks at Little Town on North Beach; 25 in All.

TO SAIL ON STR. POTTER

Trip Made Under Auspices of the Associated Charities of Portland—Others Are to Go Later.

In line with the fresh air movement started last year the Associated Charities sent out its first big fresh air party of the season this morning, 25 girls and boys in all, bound for a two weeks' outing at Ilwaco.

The party left at 8 o'clock on the steamer Potter, and it was a mighty happy lot of youngsters, all enthusiastic over the steamboat ride and many anticipating their first trip to the seashore. L. D. Williams will look after them at the beach, while Miss K. L. Trevitt accompanied the party this morning. Miss Trevitt has just come back to Portland after a year's study at the Chicago School of Philanthropy.

Others Will Go Later. Two weeks is the time allotted to each fresh air youngster, and then a new bunch is sent to take their place. Beginning next week, arrangements will be made to send some of the mothers along, too.

Six boys have already been sent to Lebanon, Or., where Chester Lyons, a school teacher, has installed a camp on his 20 acre ranch. He will take parties of boys all summer.

The Associated Charities also sent 11 boys to the camp of the Recreation league, near Cananda, today. The boys will remain two weeks, the Charities paying for their stay at the regular rates.

Some 10 or more older boys, who took their first fresh air excursion last summer, have at their own request been sent to farms for the entire summer, all welcoming a chance to get in the country and to earn a little money working on farms.

Arrangements have been completed in Silverton, Nowberg and other towns for the reception of parties at farmers' homes, and these places, mothers and children will be sent together. The parties sent out thus far have gone to camps.

Artisans Will Assist. Arrangements perfected by H. S. Hudson, head of the order of United Artisans in Portland, with the lodge of the order at Tillamook, to provide 70 mothers and children with a two weeks' outing at Tillamook as the guests of the Artisans in August.

The local Artisans go to Tillamook on an excursion August 15, and a whole car of their special train will be given over to the "fresh air" on that occasion. At Tillamook the Artisans of that city will see that the party is taken care of for two weeks. The Associated Charities is soliciting funds for carrying on the fresh air work, and thus far has raised \$141.

Junior Politicians To Be Out in Force

Bulwarks of Voters Will Be Stormed in Series of Meetings on Streets to Be Held From Big Motor Truck.

War horses, patriots and standard bearers of the prospective Junior government of the city will be out in force tonight and storm the bulwarks of the voters in a series of open air meetings held from the hurricane deck of a huge motor truck. Ed Werlein will "spit" for the young vote rustlers. All of the 27 candidates for the various high municipal offices will be in the spell binding party.

Gus Moser will take turns with Werlein in telling why everybody should get out and vote for the boys and girls who are raising a fund to wipe out the annual mortgage payment which is hanging over the Newsboys' Home. The present standing of the candidates is as follows:

- For Mayor. Nate Casler 2895, Herman Keim 2110, Eugene Rice 770. For Commissioner. Stella Riggs 1846, Norman Youngs 1825, Julius Steinberg 1150, Archie Weinstein 1099, Israel Pflanz 774, Mosie Shulman 540, Effie Bauch 509, Maxie Lewis 85. For Auditor. Morris Rogaway 285, Margaret Slinson 2110, Eunice Moylan 770. For District Attorney. Abraham T. Weinstein 1520, Benjamin Weinstein 1330, Abie Weinstein 109.

Secretary of Labor Remembers Oregon

Portland's Choice as One of Federal Bureau Points Founded on Needs and Resources.

In designating Portland as one of the federal employment office cities, W. B. Wilson, secretary of labor, is only acting in accordance with views expressed by him when visiting here some months ago.

He told in an interview with the Journal that his thought of the value a national organization for employment should have to labor. He called attention particularly, and with evidence of having studied closely, to the 20,000,000 or more acres of agricultural land as yet untitled in Oregon. He said that he believed no greater service could be rendered by his department of President Wilson's cabinet than in bringing the uncultivated agricultural lands and the people who would be glad of the opportunity to cultivate them, together. He suggested that development of the country would bring its inevitable development of industry and accompanying need of workers.

An employment office system would, also, said the secretary, make it possible to learn through daily reports, just where work was to be had and where men were seeking it. There might be in the cities, for instance, a large number of men out of employment, while the wheat harvest in Oklahoma or Oregon or the Dakotas was putting labor at a premium.

When relatives do a favor they never allow the recipient to forget it.

ESCALATORS

The Modern "Lifts"

Determined to make shopping in our new 12-story building the easiest and most comfortable that human ingenuity can devise, we've decided to install, for the convenience of our patrons, the unique and modern invention, the Escalator, or moving stairway. These Escalators will be operated in addition to 14 of the largest and most approved passenger elevators, and the instant popularity of this means of inter-floor travel is assured.

So simple of operation is the Escalator that you merely step upon it at any moment and are carried upward at a moderate rate of speed, comfortably, safely and without any physical effort. An Escalator can carry approximately 11,000 people each hour, and Portland people will show their spontaneous approval of this pleasant means of conveyance.

Simply another indication of the progress we are making in "storekeeping" nowadays.
