The feelings of the drys are well expressed in recent interviews which have been obtained from the leaders in that party. U'Ren thought that by being the leader of two factions, the Independents and the Prohibitionists, he could secure an advantage over his rivals which would mean much. In the winter he announced his intention of running as an independent. He withdrew from the Republicans because he said that no party as then organized could express the scope of his own views. He struck out alone and was independent until the Prohibition convention, when he received the honor of heading the ticket of that party, only a short time before the election, he deserts the chosen to honor him.
